Material Variances Symbol Above Budget Expectations Below Budget Expectations

Greater than 10% and \$5,000 Less than 10% and \$5,000

## SHIRE OF PINGELLY FOR THE PERIOD 1 JULY 2018 TO 30 NOVEMBER 2018 Report on Significant variances Greater than 10% and \$5,000

### Purpose

The purpose of the Monthly Variance Report is to highlight circumstances where there is a major variance from the YTD Monthly Budget and YTD Actual figures. These variances can occur because of a change in timing of the activity, circumstances change (e.g. a grants were budgeted for but was not received) or changes to the original budget projections. The Report is designed to highlight these issues and explain the reason for the variance.

DEPORTABLE OPERATING REVENUE VARIATIONS		
REPORTABLE OPERATING REVENUE VARIATIONS		1000000
General Purpose Funding - variance below budget expectations  Movement in Excess Rates - YTD Budget nil compared to YTD Actual (Permanent Difference) EOY adj	(44,826)	(59,828)
Law Order and Public Safety - variance above budget expectations	(44,020)	37,357
ESL SES grants - YTD Higher than budgeted (Timing difference) received early Q1 Instal in June 17/18	8,060	,
ESL BFB grants - YTD Higher than budgeted (Timing difference) received early Q1 instal in June 17/18	9,220	
Community Amenities	0,220	(57,617)
Waste Tipping Charges Pingelly Tip Site YTD Actuals less than YTD Budget (Old Hospital Waste)	(65,518)	
Recreation and Culture - variance above budget expectations		466,855
PRACC Grants YTD Actual more than YTD Budget - Bendigo Bank (Timing Difference)	41,667	
Transport - variance above budget expectations  Regional Road Group funding Actual YTD received less than budget YTD (Timing Difference)	25 904	77,104
MRWA Direct Road Grant Actual YTD more than YTD Budget (Permanent Difference) State Govt Agreement	25,894	
delay	5,125	
REPORTABLE OPERATING EXPENSE VARIATIONS		
Governance - variance above budget expectations  Administration Allocated more YTD actual than YTD budget (Timing Difference)	(126 020)	( 85,355)
Depreciation YTD Actual less than YTD Budget Depn not run until Audit sign off in December 2018 (Timing	(136,928)	
Difference)	(40,415)	
General Purpose Funding - variance below budget expectations		25,176
Administration Allocated less YTD actual than YTD budget (Timing Difference)	10,951	00.440
Education and Welfare - variances below budget expectations  Education - Depreciation YTD less than Budget YTD - Depreciation will be run/calculated and assets rolled	16,250	30,440
over after auditor's final audit in December 2018 (Timing difference)	10,230	
Community Amenities - variance below budget expectations		27,523
Admin Allocation - Town planning YTD Actuals less than YTD Budget (Timing Difference)	5,473	21,020
Other Community Amenitites - Depreciation YTD less than Budget YTD - Depreciation will be run/calculated	8,330	
and assets rolled over after auditor's final audit in December 2018 (Timing difference)		
Recreation and Culture - variance below budget expectations  Other Town Parks and Gardens Mtce YTD Actuals less than YTD Budget (Timing Difference)	(E 94E)	213,454

In accordance with council resolutions in relation to each reserve account, the purpose for which the reserves are set aside are as follows:

# Leave Reserve

- to be used to fund annual and long service leave requirements.

## Plant Reserve

- to be used for the purchase of major plant.

# **Building and Recreation Reserve**

- to be used to fund the renovation/purchase of Shire of Pingelly buildings and Recreation Infrastructure.

# **Electronic Equipment Reserve**

- to be used to fund the purchase of administration computer system equipment.

# **Community Bus Reserve**

- to be used to fund the change-over of the community bus.

# Swimming Pool Reserve

- to be used to fund the upgrading of the swimming pool complex

# Joint Venture Housing Reserve

- to be used for the future maintenance of the Joint Venture units

# Refuse Site Rehab/Closure Reserve

- to be used to faciliate the rehabilitation/closure of the town refuse site.

All land except exempt land in the Shire of Pingelly is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire.

to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources The general rates detailed above for the 2018/19 financial year have been determined by Council on the basis of raising the revenue required other than rates and also bearing considering the extent of any increase in rating over the level adopted in the previous year. The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services/facilities.

# NOTES TO AND FORMING PART OF THE STATEMENT OF FINANCIAL ACTIVITY

# FOR THE PERIOD 1 JULY 2018 TO 30 NOVEMBER 2018

# 10. FINANCIAL RATIOS

	2019 YTD	2018	2017	2016
Current Ratio Operating Surplus Ratio	2.01 0.54	4.05 (0.26)	2.03	1.05

The above ratios are calculated as follows:

**Current Ratio** 

(Current Assets MINUS Restricted Assets)
(Current Liabilities MINUS Liabilities Associated with Restricted Assets)

# Purpose:

This is a modified commercial ratio designed to focus on the liquidity position of a local government that has arisen from past year's transactions.

# Standards:

The standard is not met if the ratio is lower than 1:1 (less than 100%) The standard is met if the ratio is greater than 1:1 (100% or greater)

Below Std Std met

A ratio less than 1:1 means that a local government does not have

sufficient assets that can be quickly converted into cash to meet its immediate cash commitments. This may arise from a budget deficit from the past year, a Council decision to operate an overdraft or a decision to fund leave entitlements from next year's revenues.

# **Operating Surplus Ratio**

(Operating Revenue MINUS Operating Expense)
(Own Source Operating Revenue)

## Purpose:

This ratio is a measure of a local government's ability to cover its operational costs and have revenues available for capital funding or other purposes.

# Standards:

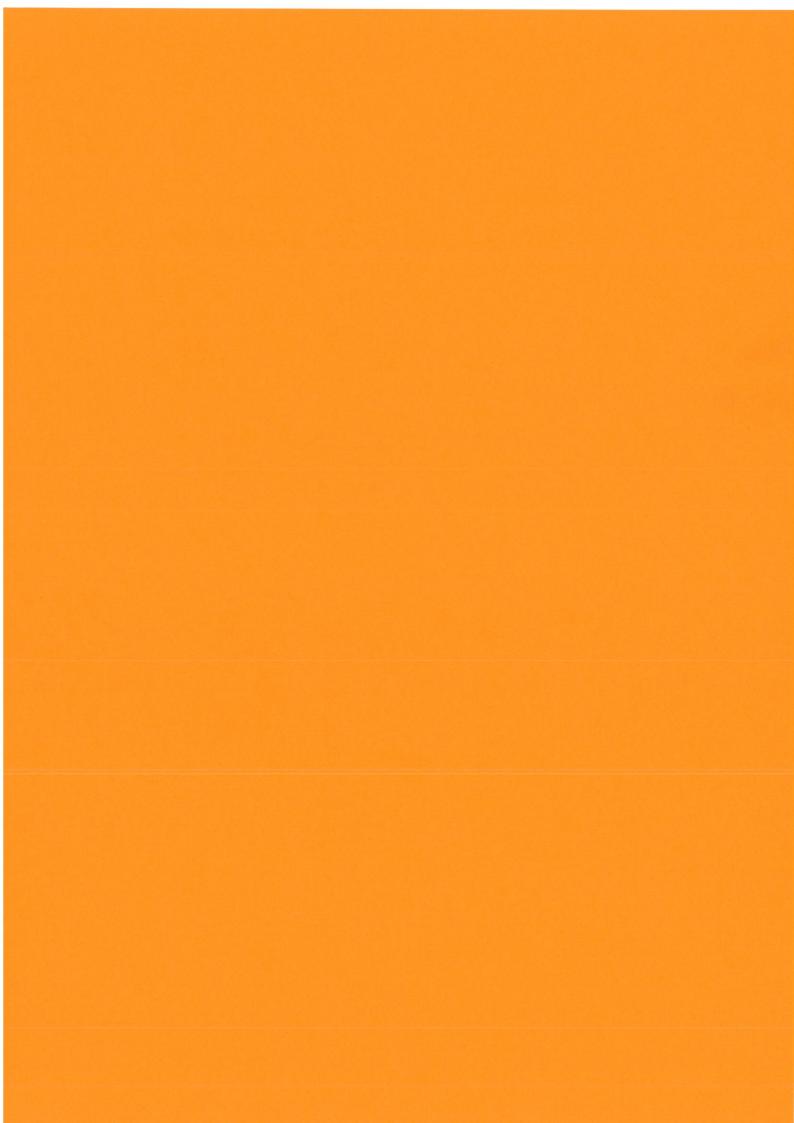

Basic Standard is not met less than < 1% (< 0.01)
Basic Standard between 1% and 15% (0.01 and 0.15)
Advanced Standard greater than > 15% (>0.15).

Below Std Basic Std Adv Std

Local Government

Shire of Pingelly

The Western Australian Planning Commission has considered the application referred to and is prepared to endorse a deposited plan in accordance with the plan date-stamped 17 August 2017 once the condition(s) set out have been fulfilled.

This decision is valid for **three years** from the date of this advice, which includes the lodgement of the deposited plan within this period.

The deposited plan for this approval and all required written advice confirming that the requirement(s) outlined in the condition(s) have been fulfilled must be submitted by **03 November 2020** or this approval no longer will remain valid.

# Reconsideration - 28 days

Under section 151(1) of the *Planning and Development Act 2005*, the applicant/owner may, within 28 days from the date of this decision, make a written request to the WAPC to reconsider any condition(s) imposed in its decision. One of the matters to which the WAPC will have regard in reconsideration of its decision is whether there is compelling evidence by way of additional information or justification from the applicant/owner to warrant a reconsideration of the decision. A request for reconsideration is to be

submitted to the WAPC on a Form 3A with appropriate fees. An application for reconsideration may be submitted to the WAPC prior to submission of an application for review. Form 3A and a schedule of fees are available on the WAPC website: http://www.planning.wa.gov.au

# Right to apply for a review - 28 days

Should the applicant/owner be aggrieved by this decision, there is a right to apply for a review under Part 14 section 251 of the *Planning and Development Act 2005*. The application for review must be submitted in accordance with part 2 of the *State Administrative Tribunal Rules 2004* and should be lodged within 28 days of the date of this decision to: the State Administrative Tribunal, Level 6, State Administrative Tribunal Building, 565 Hay Street, PERTH, WA 6000. It is recommended that you contact the tribunal for further details: telephone 9219 3111 or go to its website: <a href="http://www.sat.justice.wa.gov.au">http://www.sat.justice.wa.gov.au</a>

# Deposited plan

The deposited plan is to be submitted to the Western Australian Land Information Authority (Landgate) for certification. Once certified, Landgate will forward it to the WAPC. In addition, the applicant/owner is responsible for submission of a Form 1C with appropriate fees to the WAPC requesting endorsement of the deposited plan. A copy of the deposited plan with confirmation of submission to Landgate is to be submitted with all required written advice confirming compliance with any condition(s) from the nominated agency/authority or local government. Form 1C and a schedule of fees are available on the WAPC website: <a href="http://www.planning.wa.gov.au">http://www.planning.wa.gov.au</a>

# Condition(s)

The WAPC is prepared to endorse a deposited plan in accordance with the plan submitted once the condition(s) set out have been fulfilled.

The condition(s) of this approval are to be fulfilled to the satisfaction of the WAPC.

The condition(s) must be fulfilled before submission of a copy of the deposited plan for endorsement.

The agency/authority or local government noted in brackets at the end of the condition(s) identify the body responsible for providing written advice confirming that the WAPC's requirement(s) outlined in the condition(s) have been fulfilled. The written advice of the agency/authority or local government is to be obtained by the applicant/owner. When the written advice of each identified agency/authority or local government has been obtained, it should be submitted to the WAPC with a Form 1C and appropriate fees and a copy of the deposited plan.

If there is no agency/authority or local government noted in brackets at the end of the condition(s), a written request for confirmation that the requirement(s) outlined in the

condition(s) have been fulfilled should be submitted to the WAPC, prior to lodgement of the deposited plan for endorsement.

Prior to the commencement of any subdivision works or the implementation of any condition(s) in any other way, the applicant/owner is to liaise with the nominated agency/authority or local government on the requirement(s) it considers necessary to fulfil the condition(s).

The applicant/owner is to make reasonable enquiry to the nominated agency/authority or local government to obtain confirmation that the requirement(s) of the condition(s) have been fulfilled. This may include the provision of supplementary information. In the event that the nominated agency/authority or local government will not provide its written confirmation following reasonable enquiry, the applicant/owner then may approach the WAPC for confirmation that the condition(s) have been fulfilled.

In approaching the WAPC, the applicant/owner is to provide all necessary information, including proof of reasonable enquiry to the nominated agency/authority or local government.

The condition(s) of this approval, with accompanying advice, are:

# CONDITIONS:

1. A notification, pursuant to Section 70A of the *Transfer of Land Act 1893* is to be placed on the certificate of title of the proposed Lot B. Notice of this notification is to be included on the diagram or plan of survey (deposited plan). The notification is to state as follows:

'A network electricity supply is not available to the lot.' (Local Government)

2. A notification, pursuant to Section 70A of the *Transfer of Land Act 1893* is to be placed on the certificates of title of the proposed lots. Notice of this notification is to be included on the diagram or plan of survey (deposited plan). The notification is to state as follows:

'A mains potable water supply is not available to the lots.' (Local Government)

3. A Notification, pursuant to Section 165 of the *Planning and Development Act 2005* is to be placed on the certificates of title of the proposed lots, advising of the existence of a hazard or other factor. Notice of this notification is to be included on the diagram or plan of survey (deposited plan). The notification is to state as follows:

'This land is within a bushfire prone area as designated by an Order made by the Fire and Emergency Services Commissioner. Additional planning and building

requirements may apply to development on this land.' (Western Australian Planning Commission)

## Application No: 157435 - Lot No 114 Aldersyde-Pingelly Road East Pingelly

The Western Australian Planning Commission has received an application for planning approval as detailed below. Plans and documentation relating to the proposal are attached. The Commission intends to determine this application within 90 days from the date of lodgement.

Please provide any information, comment or recommended conditions pertinent to this application by the 1st January 2019 being 42 days from the date of this letter. The Commission will not determine the application until the expiry of this time unless all responses have been received from referral agencies. If your response cannot be provided within that period, please provide an interim reply advising of the reasons for the delay and the date by which a completed response will be made or if you have no comments to offer.

Referral agencies are to use the Model Subdivision Conditions Schedule in providing a recommendation to the Commission. Non-standard conditions are discouraged, however, if a non-standard condition is recommended additional information will need to be provided to justify the condition. The condition will need to be assessed for consistency against the validity test for conditions. A copy of the Model Subdivision Conditions Schedule can be accessed: www.planning.wa.gov.au

Send responses via email to <u>referrals@planning.wa.gov.au</u>. Always quote reference number "157435" when responding.

This proposal has also been referred to the following organisations for their comments: Western Power, Water Corporation, Dept Mines Ind Regulation And Safety, Dept Biodiversity, Conser & Attraction and LG Shire Of Pingelly.

Yours faithfully

Coagan

Ms Sam Fagan Secretary

Western Australian Planning Commission

Neighbours to E and W are 'lifestylers' and don't keep sheep, but property to N is actively farmed and grazed, and occasional sheep access suspected.  Remnants of Interest  How many remnants of interest are there on this property? 1  Connectivity of remnant within local landscape (can be done on Google Earth post ground truthing)  Corridor / stepping stones or other connections with target remnant and surrounding vegetation  Little / no connections present  Partial connection present  Some core stepping stones  Good
Neighbours to E and W are 'lifestylers' and don't keep sheep, but property to N is actively farmed and grazed, and occasional sheep access suspected.  Remnants of Interest  How many remnants of interest are there on this property? 1  Connectivity of remnant within local landscape (can be done on Google Earth post ground truthing)  Corridor / stepping stones or other connections with target remnant and surrounding vegetation  Little / no connections present  Partial connection present  Some core stepping stones  Good connectivity

Baiting
Is the landholder willing to participate in a 1080 baiting program? Fox ☒ Rabbit ☐ No ☐
Is the landholder 1080 accredited? Yes  No  No
Are domestic animals present on the property? Yes ☐ No ☒
Is the landholder able to shoot predators (ie willing and owns a firearm)? No
Would the landholder like to cage trap □ use phostoxin □? No
Note the importance of coordinated predator control.
Also Note (1) that when cage traps are loaned (generally one per property), the landholder will be asked to
keep and provide records of trapping effort and success. (2) We can provide some support for fox baits. (3)
Red Card website has a list of registered shooters.
<u>Feral Animals</u>
Evidence of feral animals present at site
☑ Fox ☑ Rabbit ☐ Feral goat ☐ Rat ☐ Feral cat ☐ Feral pig ☐ Feral bee ☐ Mouse ☐ Other:
Notes
No evidence seen of foxes but I/holder reports the occasional sighting. No evidence of rabbits seen at all
in remnant, and none seen by I/holder but small number of diggings and scats in field below.
and seas in held below.
Fire & other threats
(erosion, spray drift, waterlogging, salinity, sedimentation, eutrophication, rubbish piles or other sites in or near the remnant that may harbour pests
&/or contain contaminants (mark location on map; note size and whether still actively used).
_Currently no real threats noted except possible access by sheep through dilapidated fence, but
possibility of fire would constitute the major threat to the remnant. Michael has looked into getting a
fuel-reduction burn organised through the local volunteer fire-fighters, mainly to stimulate regeneration
of certain flora species.
FLORA: Rare or threatened flora:
_Nil known
FAUNA: Landholder observed fauna present at site
_Kangaroos, occasional echidna, reptiles, various birds.
Rare or Threatened fauna
_Nil known

Fill in the following information (new page) for each remnant/ project site

Remnant/ Site 1
Remnant/ Site location and size
Coordinates: GPS in decimals (UTM)
Size of Remnant (hectares)
Proposed activity:
Fencing 🗵 Revegetation 🗆 Feral Control 🗵 Weed Control 🗆
Describe:
Remnant Description (Note position in landscape, soils, adjoining land uses, features such as rocky outcrops, creeklines, utilities: power/phone/water pipelines)
Wandoo woodland, upslope from field at S end of property. Has numerous valleys/gullies throughout and is significantly elevated above surrounding landscape in upper portions. SCL and gravelly lateritic slopes.
Note potential impacts of adjoining land uses on remnant.
Highest level impact likely sheep access.
all become the respect to adjust the constitution of my sources in the constitution of
Vegetation Type and Condition (Health, disease, weeds structure, diversity, recruitment) and identify any key specie
The remnant is in excellent condition, with healthy mature eucalypts ( <i>E. accedens</i> and <i>E. wandoo</i> ) and intact diverse understorey which is appropriate to the vegetation type (mostly <i>Petrophile spp., Hakea spp., Grevillea spp., Banksia ?armata/nobilis</i> and <i>Dampiera spp.</i> with <i>Hibbertia sp., Beaufortia ?incana, and Persoonia ?quinquenervis</i> ). No signs of overt disease although some very large & old shrubs recently dead, but appears more likely just natural senescence. No weeds noted more than 5m into remnant, and mone of significance seen. Recruitment of all storeys evident although not high levels for mid-/overstorey.
Fencing: Describe condition of existing fencing (include details on remnant map)
Fencing is very old and in very poor condition on all sides. The S edge, along Wakefields field, has apparently been recently repaired, but would in my opinion still be better off being replaced. E and W sides just five loose strands of wire through old wooden posts, leaning but mostly not fallen. N side not
viewed but I/holder reports is the worst condition of any.  Are other sides of the remnant fenced? Yes □ No □ (make note on map if no)
Threats to remnant condition / health/ revegetation project (Details- severity, extend of infestation or damage,
lefined location)
Grazing
No evidence of grazing damage seen.
Environmental Weeds List species & recommendations & current management practice
No weeds noted more than 5m into remnant, and none of significance seen.

## **EXTRA NOTES**

Make a note of any advice that you have offered, any queries that you need to follow up, any other information that may significantly affect the proposal &/or its likely success and benefits.

Beyond this project, is there a possibility of collaborating with neighbours on feral control activities? (we can provide further support).

Note: encourage landholder to sign up for e-news; indicate that we have some great tools and resources and are happy to help with information and advice; invite landholder to drop in and see us when in Northam.

The Wakefields are very concerned about sheep having potential access to the remnant through the poor condition fencing, especially from the property to the N side as they are actively grazed fields.

Michael is keen to bait for foxes but doesn't want to shoot (has no firearms license and not interested to get one). Not yet accredited for 1080 but comfortable with undertaking the approval process.

Michael chaired the northern region wildflower association for a number of years and he and wife Kerry regularly stroll through the remnant so good landholder to have checking on condition and any rare flora that might turn up.

Advised that fence may not be approvable under BCG as is boundary fence portion, but baiting will be coverable. They are really wanting to get the fence covered if at all possible.

Ingrid Maher Planning Consultant Planning Solutions GPO Box 2709 Cloisters Square PERTH WA 6850

Dear Ms Maher.

## RE: NATURE CONSERVATION COVENANT - Lot 114 on Deposited Plan 120976

At your request, the Department of Biodiversity, Conservation and Attractions' Nature Conservation Covenant Program (NCCP) has undertaken an assessment of the above property's vegetation for its suitability for protection under a conservation covenant with the Program, in light of the proposed subdivision.

In assessing the conservation value of this land, and its suitability for inclusion in the Covenant Program, the Department has assessed the property's biodiversity conservation values, and the potential impact on those values of the proposal affecting it. The Department is not prepared to accept a property into the Covenant Program where the proposed future landuse will impact on the biodiversity values, or the ability to maintain those values, to the extent that the land will not be considered to have high biodiversity values in the future.

Based on a brief desktop assessment, the Department is pleased to confirm that the above property is considered to be in suitable condition for a conservation covenant.

The property contains approximately 17 hectares of medium woodland: York gum and approximately 19 hectares of medium woodland: York gum, wandoo and salmon gum. This vegetation has now been federally listed as a critically endangered ecological community under the *Environment Protection and Biodiversity Conservation Act 1999*.

It also contains suitable habitat trees for the endangered Carnaby's and Baudin's cockatoos (*Calyptorhynchus latirostris* and *C. baudinii*) and is also likely habitat for *Acacia adjutrices* and *Thysanotus tenuis*, both listed as Priority 3.

Based on the proposed subdivision guide plan provided by yourself (attached), it would appear that the proposed conservation lot, will retain sufficient biodiversity value to be accepted into the Covenant Program.

Also, as there is sufficient cleared land, we anticipate the location of the building envelope to be set back from the vegetation. The Program is not willing to support an application where the building envelope and the associated fire protection measures for said building envelope, impact the native vegetation proposed for a conservation covenant.

Please note, any proposed clearing of native vegetation may require a floral fauna survey prior to the commencing of any works.

As the Covenant will be prepared as a condition of the subdivision, all costs involved in the process will be completed at your expense. A table providing cost estimates is attached.

The timeline for completing a conservation covenant is at least 6 months, and you are advised to contact the Covenant Program at least 12 months before conditional approval expires. If you have less than six months before your approval expires, the Department may not be able to complete the covenant in time and will not bear any responsibility for this.

If any of the information on which this decision was based should change, then this new information will need to be submitted to the Covenant Program for reassessment.

Acceptance into the Covenant Program of land subject to a subdivision proposal, **should not** be interpreted as support by the Covenant Program or Department for that proposal. Nor does acceptance of the land into the Covenant Program guarantee approval for a subdivision proposal, as there are often other significant planning considerations.

If you have any queries regarding the covenant process, please contact Lei Zhang, Covenant Officer on (08) 9219 9518.

Yours sincerely,

Lei Zhang

# DEPARTMENT OF BIODIVERSITY, CONSERVATION AND ATTRACTIONS NATURE CONSERVATION COVENANT PROGRAM

## ESTIMATE OF COSTS TO BE CONTRIBUTED BY LANDOWNER (to apply 1/07/2018)

This is to be used as an interim measure to estimate partial cost recovery for conditional covenants.

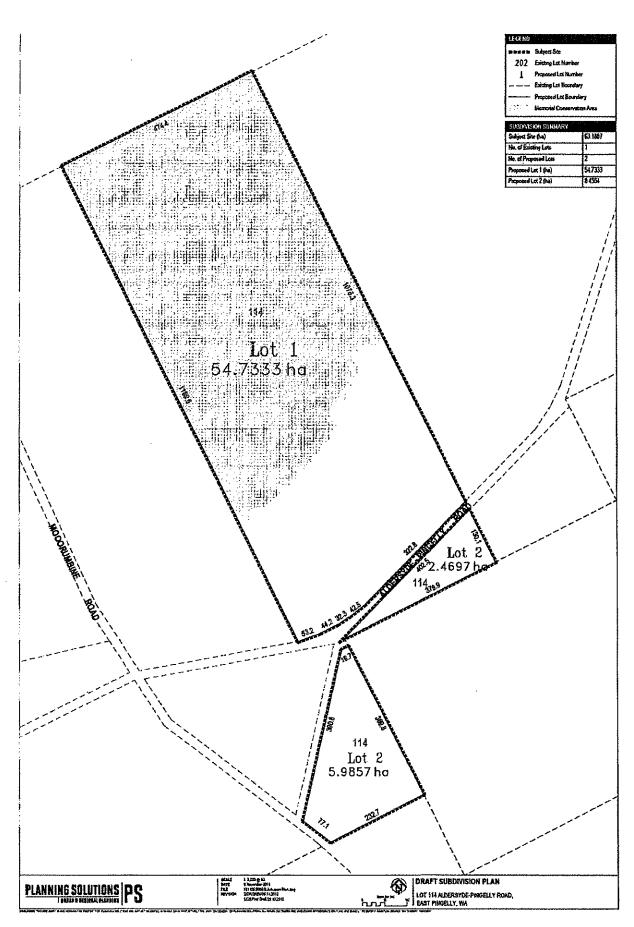

The following can be used to provide an estimate of the costs likely to be encountered when preparing a covenant. Please note that the figures for officer time and travel are based on a basic covenant in an area that is serviced by a covenant officer. These costs will increase significantly if the covenant requires extensive negotiation or if the travel distance is increased and more than one visit is required.

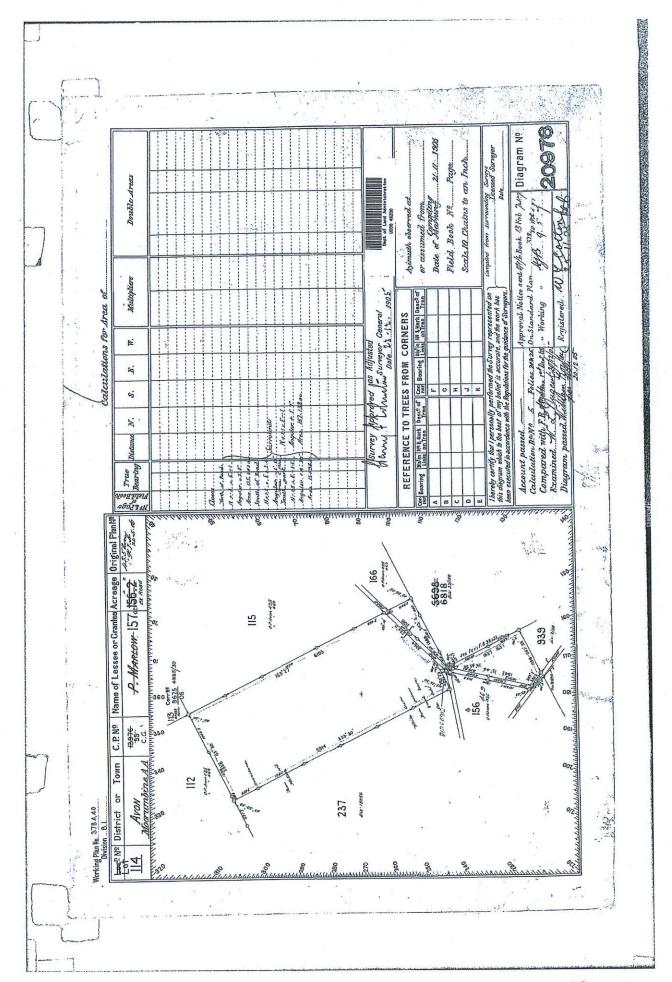

**Please note.** In the event of a subdivision proposal being discontinued, the landholder will still be invoiced for all work that has already been undertaken by the Department whilst preparing the conditional covenant.

ltem	Rate	Amount	Charged required for each covenant?
Covenant Officer time (hours, incl. site assessment and document preparation)	\$94.03/hr (average 50 hrs)	\$4,701.50	Yes
Travel (kilometres)	\$1.395 /km (average 300 km)	\$418.50	Yes
Certificate of Title search and survey	\$25.70 (per title and per survey)	\$77.10	Yes
Review by State Solicitor's office	\$290/hr (average 1.3 hrs)	\$377.00	Yes
Preparation of a Dimension Sketch prepared by DBCA	\$80.29/hr (average 7.5 hrs)	\$602.21	Required for covenants with building envelopes / management zones
Business search	\$9.00 (per search)	\$18.00	Only required if a company is involved
Sundry items (postage, etc.)	\$9.20	\$9.20	· · · · · · · · · · · · · · · · · · ·
Estimated Total (excluding GST)		\$6,203.51	

## Notes:

- estimated total does not include figures marked with an asterix ""
- some items will incur 10% GST which is additional to the estimated total shown

14 November 2018

The Secretary
Western Australian Planning Commission
Locked Bag 2506
PERTH WA 6001

Dear Sir/Madam,

# APPLICATION FOR APPROVAL OF FREEHOLD SUBDIVISION LOT 114 ALDERSYDE-PINGELLY ROAD, EAST PINGELLY

Planning Solutions acts on behalf of Barwon (WA) Pty Ltd, the proponents of the proposed subdivision and proprietor of Lot 114 Aldersyde-Pingelly Road, East Pingelly (subject site).

It is proposed to subdivide the subject site into two freehold lots to allow for the northern portion of the site to be excised for conservation and agricultural/farming purposes and the remaining portions of land to be used for homestead purposes.

The following submission discusses various matters pertaining to the proposal, including:

- Site details.
- · Proposal.
- · Town planning considerations.

## 1 SITE DETAILS

#### 1.1 Legal description

The subject site is legally described as "Lot 114 on Deposited Plan 120976", being the whole of the land contained within Certificate of Title Volume 1377 and Folio 926.

The subject site's total lot area is approximately 63.19 hectares, comprising three separate portions of land as follows:

- Northern portion = approximately 54.73ha.
- South eastern portion = approximately 2.47ha.
- Southern portion = approximately 5.99ha.

The Certificate of Title has one listed encumbrance which is a Memorial G804759 under the Soil and Land Conservation Act 1945, expiring in 2028. This Memorial relates to a conservation covenant affecting a part of the northern portion of the subject site only, approximately 38.86ha of remnant vegetation. The proposed subdivision is consistent with the site's memorial classification.

A copy of the Certificate of Title, Deposited Plan and Memorial is enclosed with this application.

#### 1.2 Context

The subject site is located in the suburb of East Pingelly, within Western Australia's wheatbelt region, approximately 170 kilometres south east of the Perth city centre and 6.5km north east of Pingelly town centre.

The subject site is within the municipality of the Shire of Pingelly (Shire).

The subject site comprises three separate parts, with the northern and southern portions of land being naturally divided by Aldersyde-Pingelly Road, which runs east-west through the site.

The northern portion of land has frontage to Aldersyde-Pingelly Road to the south. The south eastern portion has frontage to Aldersyde-Pingelly Road to the north and the southern portion has frontage to Moorumbine Road to the south-west.

The subject site is generally surrounded by agricultural/rural land to the north, west, south and east. The adjacent site to the west of the southern portion of land is reserved for 'public purposes' (at the corner of Aldersyde-Pingelly Road and Moorumbine Road).

## 1.3 Land use and topography

Historically, portions of the subject site have been used for conservation and general agriculture purposes.

The subject site comprises bushland areas and break-away country with numerous valleys and ridges. In terms of topography, there are changes in elevation between 390AHD and 370AHD across the site. The northern portion of the site has a fall from north to south of approximately 2.5% and a fall from west to east of approximately 1.5%. The south eastern portion of the site has a fall from the southwest to the northeast of approximately 1.3%. The southern portion of the site has a ridgeline that starts approximately 315m south of Aldersyde-Pingelly Road, with a fall from the ridgeline north of approximately 1.9% and a fall from the ridgeline south of approximately 1.3%.

The subject site comprises remnant vegetation including native vegetation of significant environmental value. The northern portion of the site comprises approximately 38.86ha of native vegetation which is classified by the Department of Biodiversity, Conservation and Attractions (DBCA) as a Threatened Ecological Communities (DBCA-038); and is impacted by a conservation covenant listed on the certificate of title. The site was assessed in 2016 by the Wheatbelt Natural Resource Management (NRM) as part of a Bush Care Grant application process. The NRM's site assessment confirms the site's remnant vegetation is in excellent condition with no signs of disease. The proprietor received the Bush Care Grant from the NRM, which provided funding for new fencing to protect the remnant vegetation and conservation area from sheep grazing. The new fence has been constructed within the northern portion of the site and will assist in preserving the subject site's high conservation values. A copy of the NRM's site assessment report is **enclosed** with this application.

## 2 PROPOSAL

It is proposed to subdivide the subject site into two freehold lots, as follows:

- Proposed Lot 1, comprising the northern portion of land, having an area of approximately 54.73ha, with
  frontage to Aldersyde-Pingelly Road. Approximately 38.68ha (71 per cent) of Lot 1 is intended to be
  retained for conservation purposes, with the remaining portion to be maintained for agricultural purposes.
- Proposed Lot 2, comprising the remaining two southern portions of land (balance lot), having a combined
  area of approximately 8.46ha. Lot 2 (balance lot) is intended to be developed and used for homestead
  and agricultural purposes.

No roads, easements, rights of way, or reserves are proposed as part of this subdivision application.

Refer to the plan of subdivision enclosed with this application.

## 3 TOWN PLANNING CONSIDERATIONS

#### 3.1 Shire of Pingelly Scheme No.3

Pursuant to section 138(2) of the *Planning and Development Act 2005*, the Commission is to have due regard to the provisions of any local planning scheme that applies to the land under consideration and is not to give an approval that conflicts with the provisions of a local planning scheme. The relevant local planning scheme in this case is the Shire of Pingelly Scheme No.3 (**Scheme**).

The subject site is zoned General Agriculture pursuant to the Scheme. Pursuant to clause 4.2(f) of the Scheme:

The objectives of the General Agriculture Zone are to:

- To protect areas of broadacre agricultural significance for sustainable production.
- To encourage processing and value adding industries to be located within the zone.
- To encourage intensive agriculture where it can be demonstrated that off-site impacts (if any) will not
  adversely affect existing agricultural activities.
- To protect and enhance rural landscapes.
- To protect the natural environment and biodiversity while ensuring appropriate development opportunities within the Zone are realised.
- To promote sustainable management of natural resources including energy, water, land, minerals and basic raw materials by preventing land degradation and integrating land and catchment management with land use planning.

The proposed subdivision is entirely consistent with the Scheme objectives of the General Agriculture Zone, in that it facilitates the conservation of the existing environmentally significant natural features and biodiversity, while maintaining the use of the land for general agricultural purposes and providing for the development of the land for homestead purposes, which is entirely consistent with its rural location. In this regard, the proposed subdivision will protect and enhance the existing rural landscape of the site and surrounding area, and ensure an appropriate development opportunity is realised, in accordance with the objectives of the Shire's General Agricultural Zone.

## Clause 5.20.1 of the Scheme states:

In assessing applications for development and/or subdivision within the General Agriculture Zone, Council will consider the following:

- (a) the availability of services required to support the proposed development or subdivision and the economic impact of the provision of, extension or upgrading of those services that may be required;
- (b) the adequacy of the roads, existing or proposed in the area which may be needed to support the amount of road traffic expected to be generated by the development or subdivision; and
- (c) the need to enforce such conditions as Council deems appropriate in order to minimise any adverse effect the development or subdivision may have on the general environment of the area.

The proposed subdivision will not result in any additional service infrastructure requirements to be provided by the Shire. It is considered the existing service infrastructure in the area is adequate to support the proposal, including existing roads in the area (ie. Aldersyde-Pingelly Road and Moorambine Road); given the proposed subdivision will provide for the creation of a conservation lot and development of a homestead on the balance lot, which will not generate a significant amount of additional traffic or demand on services. Furthermore, it is not anticipated the proposed subdivision and subsequent development will have any detrimental impact on the amenity of the site or surrounding area, given the proposal is consistent with its rural location and zoning objectives.

## Clause 5.23.3 of the Scheme states:

In the General Agriculture zone there shall be a presumption against the subdivision of land unless the Council is satisfied:

- (a) the lots have already been divided by significant natural or man-made features and an undesirable precedent would not be set;
- (b) the lots are for farm adjustment and the erection of dwelling houses is restricted by memorials on Titles;
- (c) the adjustment of lot boundaries where the application, if approved, will not result in the creation of additional lots;
- (d) the lots are for specific uses such as recreation facilities and public utilities;
- (e) the lots are required for the establishment of uses ancillary to the rural use of the land (eg. abattoir, canning works), or are required for the travelling public and tourists (eg. service stations, motels);
- (f) of the need to excise a conservation lot:
- (g) that the subdivision is necessary to enable the carrying out of an intensive agricultural pursuit and is in accordance with Council's Local Planning Policy Intensive Agriculture.

The proposed subdivision will simply formalise the existing physical divisions impacting the site in relation to the existing natural features (ie. the portion of the site affected by the conservation covenant on the certificate of title), as well as the existing physical boundary running through the site (ie. Aldersyde-Pingelly Road). Although the proposed two lot subdivision will create an additional lot, this is considered a technicality given the existing natural and man-made features impacting the site effectively subdivide the site in terms of how the site can be used and developed. The proposed subdivision will create a conservation lot and is necessary to maintain the agricultural use of the land and facilitate the development of a homestead on the balance lot. This will be achieved through the creation and on-sale of the new conservation lot.

#### Clause 5,23,4 of the Scheme states:

Council will not support subdivision in the General Agriculture Zone which in its opinion will have the potential to adversely affect the rural landscape or be prejudicial to the agricultural use of the land.

A stated above, the proposed subdivision is entirely consistent with the objectives of the General Agriculture Zone and will not have any adverse impacts on the existing rural landscape. The proposal allows for the land to continue to be used for its intended agricultural purposes therefore will not be prejudicial to the agricultural use of the land.

Having regard to the above, the proposed subdivision is considered appropriate for the subject site and entirely consistent with the provisions of the Scheme. The proposal warrants approval accordingly.

## 3.2 Development Control Policy No. 3.4 – Subdivision of Rural Land

The Western Australian Planning Commission (**WAPC**)'s *Development Control Policy 3.4: Subdivision of Rural Land* (**DC 3.4**) is an operational policy which provides guidance on the subdivision of rural land, in order to achieve the key objectives of *State Planning Policy 2.5: Rural Planning*, which are:

- (a) support existing, expanded and future primary production through the protection of rural land, particularly priority agricultural land and land required for animal premises and/or the production of food;
- (b) provide investment security for existing, expanded and future primary production, and promote economic growth and regional development on rural land for rural land uses;
- (c) outside of the Perth and Peel planning regions, secure significant basic raw material resources and provide for their extraction;
- (d) provide a planning framework that comprehensively considers rural land and land uses, and facilitates consistent and timely decision-making;

- (e) avoid and minimise land use conflicts;
- (f) promote sustainable settlement in, and adjacent to, existing urban areas; and
- (g) protect and sustainably manage environmental, landscape and water resource assets.

#### Part 4 of DC 3.4 states:

When determining subdivision proposals on rural land, the following measures will be applied:

- (a) the creation of new or smaller lots will be by exception;
- (b) proposals will be considered against strategies and schemes;
- (c) adequate buffer distances for sensitive and/or incompatible land uses can be achieved; and
- (d) proposals will be assessed against any relevant State planning policies and/or operational policies.

However, Part 6 of DC 3.4 contemplates scenarios where subdivision of rural land would be considered, including for the creation of conservation lots. Clause 6.5: Conservation of Biodiversity and Natural Heritage states:

Conservation lots may be created to conserve significant environmental features and remnant vegetation provided that:

- (a) the application includes advice from the Department of Parks and Wildlife, National Trust of Australia (WA), or another relevant agency, endorsing the suitability of the new lot for the intended purpose of retaining environmental values including:
  - the adequacy of the lot size proposed (if it is less than 40 hectares) to retain the conservation value in perpetuity; and
  - ii. in-principle agreement to administer the necessary conservation covenant.
- (b) generally at least 85 per cent of the area of the conservation lot has high environmental values or is covered by endemic or regenerated vegetation and/or wetland;
- (c) the proposed conservation lot has an appropriate shape having regard for the native vegetation, natural features, bush fire management, water resources, property management and existing or proposed structures;
- (d) a conservation covenant in perpetuity with the Department of Parks and Wildlife, the National Trust of Australia (WA), or an alternative authority acceptable to the WAPC, is registered on the certificate of title as a condition of subdivision for the proposed conservation lot and that the covenant includes provisions that:
  - i. prohibit further clearing (other than for necessary land and fire management requirements);
  - ii. clearly delineate a building envelope and/or building exclusion area which is also shown on the subdivision plan; and
  - iii. prohibit stocking outside any existing cleared area.
- (e) bushfire risk can be managed in accordance with WAPC guidelines without resulting in loss of conservation values; and
- (f) the balance lot is suitable for the continuation of the rural land use and retains where practical, native or regenerated vegetation as an integral part of sustainable primary production, provided that this does not result in the division of significant endemic vegetation in order to include a portion of that vegetation within the agricultural lot.

The proposed subdivision will provide for the creation of a conservation lot to conserve the existing significant environmental features of the site (i.e. the remnant vegetation classified as Threatened Ecological Communities and portion of the site impacted by a memorial on the certificate of title), with the balance lot to be maintained for general agricultural use and developed for homestead purposes. The proposed subdivision is in accordance with the existing conservation covenant currently registered on the certificate of title for the property, which demonstrates the suitability of the new lot for the intended purpose of retaining existing environmental values.

A letter from the Department of Biodiversity, Conservation and Attractions is **enclosed** in this application. The letter endorses the suitability of the proposed new lot (Lot 1) for the purpose of retaining the site's environmental and conservation values, and the administering of the necessary conservation covenant.

The proposed subdivision will create a conservation lot (proposed Lot 1) with a total area of approximately 54.73ha. Approximately 38.68ha (71 per cent) of proposed Lot 1 is intended to be retained for conservation purposes, in lieu of the minimum 85 per cent DC 3.4 requirement, with the remaining portion to be maintained for agricultural purposes. The proposed subdivision boundary line has been determined based on the existing physical division running east-west through the site (ie. Aldersyde-Pingelly Road), which provides for a logical subdivision boundary. The proposed variation to the DC 3.4 requirement is therefore considered acceptable, having regard to the existing property boundaries and the natural features contained within the site. The bushfire risk can be managed in accordance with the WAPC guidelines without resulting in a loss of conservation values, given the proposed subdivision is consistent with the intended rural uses for the site and will not result in a significant intensification of development or use of the site.

As detailed above, the proposed subdivision will allow for the continuation of existing rural land uses at the subject site and will ensure the protection of the existing native vegetation with high environmental values.

Having regard to the above, the proposed subdivision is consistent with Clause 6.5 of DC 3.4 relating to creation of a conservation lot, and warrants approval accordingly.

## 3.3 State Planning Policy 3.7 – Planning in Bushfire Prone Areas

State Planning Policy 3.7 Planning in Bushfire Prone Areas (SPP 3.7) sets out the foundations for land use planning to address bushfire risk management. It applies to all subdivision applications within designated bushfire prone areas. Pursuant to the Department of Fire and Emergency Services Map of Bushfire Prone Areas, the subject site is identified as located within designated bushfire prone area.

SPP 3.7 requires subdivision applications identified as being in a bushfire prone area to be accompanied by a bushfire attack level (BAL) assessment or a BAL contour map.

Notwithstanding, the Western Australian Planning Commission's *Planning Bulletin 111/2016 - Planning in Bushfire Prone Areas* (**PB 111**) provides guidance on applying exemptions to the above requirement:

Exemptions from the requirements of SPP 3.7 and the deemed provisions should be applied pragmatically by the decision maker. If the proposal does not result in the intensification of development (or land use), does not result in an increase of residents or employees; or does not involve the occupation of employees on site for any considerable amount of time, then there may not be any practicable reason to require a BAL Assessment.

Exemptions may apply to infrastructure including roads, telecommunications and dams; and to rural activities, including piggeries and chicken farms which do not involve employees on site for a considerable amount of time. The deemed provisions exempt renovations, alterations, extensions, improvements or repair of a building, and incidental uses (including outbuildings, verandas, unenclosed swimming pools, carports, patios and storage sheds).

The proposed subdivision will not result in an intensification of development or land use of the subject site, or result in an increase of residents or employees on the subject site, nor increase the bushfire risk. The proposed subdivision will simply allow for the northern portion of the subject site to be retained for conservation and agricultural purposes, with the remaining portions of land to be used for homestead and agricultural purposes, which is entirely consistent with its rural location, the intended uses for the site and the Shire's planning framework. Accordingly, and following the guidelines set out in PB 111, the proposed subdivision warrants an exemption from requiring a BAL contour map or BAL assessment.

## CONCLUSION

The proposed two lot freehold subdivision will simply allow for the northern portion of the site to be excised for conservation and agricultural/farming purposes, and the remaining southern portions of land to be used for homestead purposes. The proposed subdivision is consistent with the applicable planning framework, including the relevant provisions of the Shire's Scheme and WAPC's *Development Control Policy 3.4 – Subdivision of Rural Land*. The proposed subdivision is also consistent with the intended uses for the site and rural context. In addition, the proposed subdivision is supported by the Department of Biodiversity, Conservation and Attractions, who have provided a letter which endorses the suitability of creating a new lot (proposed Lot 1) for the purpose of retaining the site's environmental and conservation values, and the administering of the necessary conservation covenant.

Having regard to the above, the subdivision warrants approval subject to standard conditions.

Should you have any queries or require further clarification in regard to the above matter please do not hesitate to contact the writer.

Yours faithfully.

Subject: Subdivision Application 157435 | Lot 114 Aldersyde-Pingelly Road, East Pingelly | PS 5906

Hi Barry,

Thank you for your call yesterday to discuss the proposed subdivision of Lot 114 Aldersyde-Pingelly Road, East Pingelly.

I understand you have expressed concern at one of the lots being identified as a homestead lot as the Shire has previously had issues with the interface between new houses and existing agricultural operations.

First and foremost, this subdivision is intended to excise a conservation lot leaving the balance lot (the southern lot) remaining.

Our client intends to construct a dwelling on the southern lot. This is something that can be progressed today – a house can be constructed on a lot without subdivision. But we have passed on your concerns to our client who will consider the appropriate placement of the house. The southern lot is large enough (approx. 8.46 hectares) so that a house can be placed away from agricultural operations.

Should you have any additional queries or concerns regarding the proposal, please do not hesitate to contact the undersigned.

Kind regards,

Ingrid Maher Planning Consultant
