5. RESPONSE TO PREVIOUS PUBLIC QUESTIONS TAKEN ON NOTICE

Questions by Lee Steel, taken on notice at the 19 February 2025 Ordinary Council Meeting.

Question:

What processes do the Shire have in place and what is the Shire communication policy, to ensure that they are being respectful to people who contact the shire?

Response on Notice:

Shire Staff are governed by the Employee Code of Conduct and customer facing staff receive appropriate training. In addition, the Shire's stated values include 'Respect'. These values are constantly emphasised. The Employee Code of Conduct states that "Every staff member at all times shall endeavour to treat every member of the public and customers with respect, courtesy and with the highest regard for customer service." There is a mutual expectation for respect to be given and received in all dealings with the Shire.

Question:

Regarding the current financial year, can you advise how much the budget was for the Christmas Village project including staff wages to date.

Response on Notice:

This figure is \$37,957.99

6. PUBLIC QUESTION TIME

Please see Public Question Time Information on page 3.

Council welcome Danny Summers welcomed to the podium.

Q1: Will the shire increase rates or act to increase rates for vacant Department owned properties, and reserve these monies for programs to address the experience of homelessness in Pingelly?

R: This question is taken on notice.

Q2: Can the Shire provide more regular maintenance to the offroad motorcycle track?

R: Some maintenance has been carried out on the off-road motorcycle track. However, regular maintenance has been limited due to a current funding application aimed at a full redesign to meet Australian Standards and gain certification. Since significant changes are expected, ongoing maintenance has been minimal. The track is currently advised to be used with caution, and signage is in place to inform users to drive carefully.

Q3: Does this mean it is not a recognised off-road vehicle area?

R: No, it is not.

Q4: Considering that the grant is for an establishment of a new off-road area than an upgrade to an existing area?

R: That is correct.

Q5: Given the dirt bike activity on public roads and rider feedback requesting better maintenance, is it possible to do a quick grade of the track monthly or every two months until the full upgrade takes place?

R: As this is not a recognised area, it's to provide that regular maintenance would increase the shire's liability.

Q6: Is there a clear-cut line, could there be one more maintenance?

R: No there is not a clear-cut line. It is what the court decides at the time.

Q7: When will graffiti on Eliot Street kerbing and road be removed?

R: This question is taken on notice

Q8: What is the Shire's current approach to temporary accommodation and caravans outside of caravan parks in light of the housing crisis?

R: This question is taken on notice

Council thanks Danni Summers for her questions, Danni takes a seat.

President asks for any further public questions before closing public question time.

The Chairman to ask Councillors if there are any commemorations to be noted in the minutes.

President Jackie McBurney congratulates the shire staff who were involved in planning our trip to Mandurah and Dwellingup. All of the people that we had the opportunity to meet were really engaging and worthwhile, the visitors centre at Dwellingup was a real eye opener to what we could really actually genially achieve in Pingelly. The guest speakers in Mandurah made us aware of our similarities, despite the fact that there is a huge difference in size. We did make some good friends there. They are willing to share their policies and their frameworks. To Andrew, Mike and Storm, thank you for putting together a productive and inspiring couple of days.

I would also like to congratulate the Pingelly Staying In Place team and Pingelly Community Resource Centre, for being finalists, in the Aging Australia 2025 Innovation Award for Research and Development.

I would also like to recognise JMAC Engineering for being finalists in 2 Awards, with the WA Regional Business Excellence Awards. The awards are Leading With Innovation & Business with 1-5 Employees.

14. OFFICE OF THE CHIEF EXECUTIVE OFFICER

14.1. Proposed Lease of Lot 202, (1) Avon Street, Pingelly (the old Scout Hall)

File Reference: Nil
Location: Shire of Pingelly
Applicant: Courtney Marwick
Author: Chief Executive Officer
Disclosure of Interest: Nil
Attachments: Nil

Summary:

For Council to consider the request to lease Lot 202, (1) Avon Street, Pingelly (the old Scout Hall) building from Courtney Marwick for the purpose of baby & toddler programs, following the community consultation.

Background:

On 10 January 2025, Courtney Marwick requested to lease the vacant building at Lot 202, (1) Avon Street Pingelly (the old Scout Hall) for the purpose of baby & toddler programs. This building has been vacant for several years with short period of use as a youth centre and hub for the YES (Youth Emergency Service) Cadets.

The property is a single-story building featuring a steel frame, clad walls, a metal roof, and a concrete floor. It includes a coded lock entrance, an inbuilt office, and toilet facilities within the fenced area of the block. It is well located near the town centre, with access from Avon Street. The proposed lease area outlined in black below is owned by the Shire of Pingelly.

Comment:

The proposed use of the building for the purpose of parent-child (ages 0-5) program that helps babies and young children develop their skills through movement, music, and sensory play. This is a commercial use, but will have social and community value. It is intended that the building is used once or twice per week, however the equipment is bulky which prohibits the sharing of this or another community space.

The proposed lease amount is \$1 per annum plus utilities for a period of 3 years. It is not expected that the Shire conducts any work to the building to make it fit for purpose.

Consultation:

This proposal was advertised in the Pingelly Times, Shire website, Facebook page and noticeboard for more than 14 days. This constitutes 'local public notice' under the *Local Government Act 1995*. No responses have been received.

Statutory Environment:

Leases are considered to be the disposal of property under the *Local Government Act 1995*.

Local Government Act 1995, Section 3.58 Disposing of property

- (3) *A local government can dispose of property other than under subsection (2) if, before agreeing to dispose of the property —*
- (a) it gives local public notice of the proposed disposition —*
 - (i) describing the property concerned; and*
 - (ii) giving details of the proposed disposition; and*
 - (iii) inviting submissions to be made to the local government before a date to be specified in the notice, being a date not less than 2 weeks after the notice is first given; and*
 - (b) it considers any submissions made to it before the date specified in the notice and, if its decision is made by the council or a committee, the decision and the reasons for it are recorded in the minutes of the meeting at which the decision was made.*

Policy Implications:

Nil

Financial Implications:

This is cost neutral to the Shire.

Strategic Implications:

Outcome 3	A safe, healthy and active community.
Objective 3.2	Facilitate community health and wellbeing.
Action 3.2.3	Advocate for service providers to deliver more health and wellbeing programs locally.

Risk Implications:

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 04 March 2025

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

MATERIAL ACCOUNTING POLICES

Material accounting policies utilised in the preparation of these statements are as described within the 2024-25 Annual Budget. Please refer to the adopted budget document for details of these policies.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Impairment losses of non-financial assets
- Expected credit losses on financial assets
- Assets held for sale
- Investment property
- Estimated useful life of intangible assets
- Measurement of employee benefits
- Measurement of provisions
- Estimation uncertainties and judgements made in relation to lease

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 8 - Other assets.

KEY INFORMATION

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

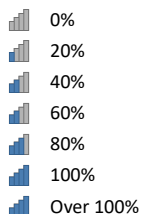

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

Amounts shown above include GST (where applicable)

KEY INFORMATION

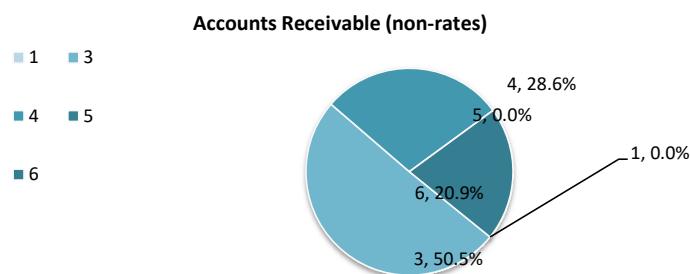

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Inventory

Inventories are measured at the lower of cost and net realisable value.

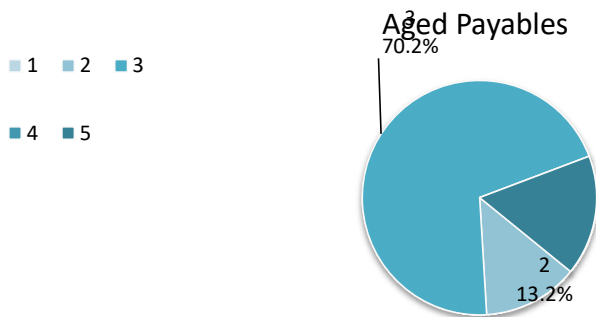

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

KEY INFORMATION

The City has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

All lease repayments were financed by general purpose revenue.

KEY INFORMATION

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is or contains a lease, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

Summary

Between January 1 and March 31 each financial year local governments are required to review its annual budget for that year

Background

Regulation 33A of the *Local Government (Financial Management) Regulations 1996* require a review of the annual budget to be undertaken and within 30 days of that review having been carried out, it is to be submitted to Council for their consideration of the review and determine by absolute majority whether to adopt the review, any part of the review and any recommendations made in that review.

A review of the Shire of Pingelly's budget was undertaken during January and February by executive staff and amended budget statements as per that review are attached for councils consideration.

Comment

A number of budget variations are proposed as part of this review and proposed changes to the 2024 2025 annual budget are shown in the attachment.

Details

Issues and options considered.

- A review of the adopted budget and an assessment of actual results against that budget.
- An assessment and projection of likely results over the remainder of the financial year against the adopted budget; and
- Consideration of any issues not provided for in the adopted budget that may need to be addressed.

The review of the budget has taken into account what has transpired in the first half of the year, the likely operating environment over the remaining part of the year under prevailing economic conditions and the most likely impact on Council's financial position.

The focus of the review has been on ensuring that there is sufficient operational capacity to deliver the services and budget program as set out in the adopted 2024/2025 budget and to accommodate events and issues that have arisen since that budget adoption.

Summary

Council to consider an application for an outbuilding at Lot 500 (No. 21) Review Street, Pingelly.

Background

The applicant has submitted an application for development consent for a proposed outbuilding (shed) with an area of 250m² at Lot 500 (No. 21) Review Street.

This application is required to be considered by Council given the proposed outbuilding (250m²) combined with the existing outbuilding (approximately 45m²) are over 150m² in area on Residential zoned land coded R10 or below.

The proposed outbuilding is 25m long, 10m wide and has a 5.2m wall height. The applicant advises the proposed outbuilding is to store a fifth wheeler caravan and truck. The outbuilding will be constructed in Colorbond (Slate Grey) and is proposed to be setback approximately 5m from the northern property boundary, 28m from the eastern boundary and 13m from the western boundary.

The site is 6675m² in area and contains a dwelling and shed. The owner has recently purchased the property and advises the existing dwelling will be demolished as a 'term of sale'. The intention is to then construct a new dwelling between the proposed shed and Review Street (separate application). The site is a corner block with frontage to Review Street and Aldersyde-Pingelly Road.

Comment

The proposed outbuilding (250m²) is large for the Residential zone. There is, however, precedence of the Council approving outbuildings over 200m² in area in town.

While noting the application is inconsistent with a component of Council's Outbuilding Policy, the Development Application is conditionally supported. This follows assessment against the planning framework, information provided by the applicant and the site characteristics. Conditional approval is recommended given:

- The application is considered consistent with Design Principle P3 Outbuildings from *Residential Design Codes* which states 'Outbuildings that do not detract from the streetscape or the visual amenity of the residents or neighbouring properties.' This includes that the outbuilding is well setback from Review Street and Aldersyde-Pingelly Road and the applicant intends to build a dwelling between the Review Street frontage and the proposed outbuilding;
- The lot size is generous in size for a Residential zoned property;
- The outbuilding is considered compatible with its setting in terms of height, bulk, scale, orientation and appearance;

- There are no overshadowing issues with neighbouring properties;
- There are security benefits in storing the fifth wheeler caravan and the truck in an outbuilding;
- The outbuilding overall complies with development standards other than the floor area;
- No objections have been received from neighbours; and
- Recommended development conditions and advice can assist to control the use and management of the development.

Consultation

The Shire sought comment from adjoining and nearby neighbours. No submissions were received.

Statutory Environment

The site is zoned 'Residential R2/5' *Shire of Pingelly's Local Planning Scheme No.3*. The site is located with a designated bushfire prone area.

Attachment 16.X.2 is an extract from the *Planning and Development (Local Planning Schemes) Regulations 2015* which sets out matters to be considered by the local government in assessing a Development Application.

Policy Implications

Local Planning Policies are relevant in assessing the Development Application. Local Planning Policies are non-statutory documents which are designed to provide guidance to assist the Council in its decision making. Accordingly, the Council is not bound by the policies but is required to have regard to the policies in determining the Development Application. The key Local Planning Policy is *13.2 Outbuildings* which is provided in Attachment 16.X.3.

Financial Implications

There are no financial implications in relation to this matter other than receipt of the Development Application fee.

Strategic Implications

Outcome 6. A great place to live.

Objective 6.1 Provide responsible planning and development.

Risk:	The key risk arises from the failure to consult with neighbouring properties resulting in complaints. This has been managed through the consultation process.		
Consequence Theme:	Reputational	Impact:	Minor
Consequence:	Low Impact, a small number of complaints. Some temporary non-compliance		
Likelihood Rating:	Unlikely	Risk Matrix:	Low (4)
Action Plan:	Risk is acceptable with adequate controls, managed by routine procedures and subject to annual monitoring.

4. POLICY STATEMENT

Policy Intention

- To provide some flexibility in the requirements for outbuildings and the like in residential areas.
- To ensure that the provisions of the current *Residential Design Codes* are appropriately addressed.
- To improve customer service standards through the timely processing of planning and building applications for outbuildings.

Buildings are to comply with any local planning policy made under the Scheme in respect of the design of carports and garages, including the colour, scale, materials and roof pitch of buildings. This policy provides design requirements for carports and garages, however it does not interfere with any other requirement of the Residential Design Codes relating to carports and garages.

This policy does not alter or change in any way the acceptable development criteria of the *Residential Design Codes* currently in force.

Within all "Residential" and "Rural Residential" zoned areas of the Shire and on Farming zoned lots with an area of 2ha or less except as otherwise stated, planning consent for all outbuildings is required.
