PUBLIC QUESTION TIME INFORMATION

The Shire of Pingelly welcomes community participation during public question time. This document is to be read in conjunction with the *Shire of Pingelly Standing Orders Local Law 2017* and the *Local Government Act 1995* and the *Local Government (Administration) Regulations 1996*.

1. A member of the public who raises a question during question time must:
 - a. be in attendance at the meeting;
 - b. first state their name and address;
 - c. direct the question to the Presiding Member;
 - d. ask the question briefly and concisely;
 - e. limit any preamble to matters directly relevant to the question; and
 - f. ensure that the question is not accompanied by any expression of opinion, statement of fact or other comment, except where necessary to explain the question.
2. Each member of the public with a question is entitled to ask up to 3 questions before other members of the public will be invited to ask their questions.
3. Where a member of the public seeks a written response to their questions to be tabled at a meeting, the member of the public must submit their questions to Council by no later than 12 noon on the day prior to the meeting date of which the response is to be tabled.
4. Where a member of the public submits their questions after 12 noon on the day prior to the meeting date of which the response is to be tabled, a written response may be provided at the discretion of the presiding member.
5. Where a member of the public submits a written question after 12 noon the day prior to the meeting at which they are to be tabled, a verbal response may be provided at the meeting.
6. A member of the public may ask questions without notice at a meeting, provided they present a written copy of their questions to Council prior to the commencement of the meeting.

Questions may be submitted by e-mail to admin@pingelly.wa.gov.au.

Summary

For Council to nominate two (2) Council voting delegates and other attendees for the 2026 WALGA Annual General Meeting, to be held in Perth, as part of the Annual Local Government Convention (16 - 18 September 2026).

Background

The 2026 WA Local Government Convention & Trade Exhibition (Local Government Week) will be held Wednesday to Friday 16 - 18 September 2026 at the Perth, Convention and Exhibition Centre with the Opening Welcome Reception being held on the evening of Wednesday 16 September 2026.

In accordance with previous Local Government Weeks, WALGA will hold its Annual General Meeting, to discuss and consider local government industry issues during the Convention. Each member Council of WALGA has the ability to elect two (2) voting delegates to participate at the WALGA Annual General Meeting (non-voting delegates are also able and encouraged to attend).

Comment

Attendance at the annual WA Local Government Convention is open to all Councillors. Registration fees, travel and accommodation expenses will be paid by the Shire in advance for any Elected Member(s) attending the WA Local Government Convention.

As a member of WALGA, it is important that Council also attend WALGA's Annual General Meeting, requiring the election of voting delegates by Council.

The Annual Local Government Convention provides an important opportunity for Councillors to learn network, be inspired and participate in professional development opportunities.

Policy Implications

Policy 4.10 Councillor Training Policy notes that WALGA training and conferences are eligible activities for Councillors.

Financial Implications

Anticipated costs are approximately \$2,500 per delegate comprising registration of \$1,800; accommodation of approximately \$800 per delegate, plus meals and other miscellaneous expenses. There is \$10,000 annually allocated for this Conference. Additional funding may

be allocated in the 25/26 financial year depending on the number of Councillors planning to attend.

Strategic Implications

There are no Pingelly Community Plan implications evident at this time.

Risk Framework

Risk:	Risks relevant to this decision of Council are relatively low, and include the financial impact of the convention, and the reputational risk if no delegates were present to vote at the WALGA AGM.		
Consequence Theme:	Reputational	Impact:	Minor
Consequence:	Low impact, a small number of complaints.

Summary

Council is requested to consider the Motion passed by electors at the Annual Meeting of Electors on 18 February 2026.

Background

The Shire of Pingelly currently provides driver and vehicle licensing services on behalf of the Department of Transport and Major Infrastructure (DTMI) under a formal Agreement, which is due to expire on 30 June 2026.

The provision of this service conflicts with the increasing workloads in core areas of the organisation. As a result, the CEO approached the local Bendigo Adelaide Bank branch to request that they provide this service to the community. At the Special Meeting of Council on 21 January 2026, Councillors passed the following motion:

Council Motion: 13684

That Council:

- 1. Supports the Shire of Pingelly's permanent withdrawal from the provision of driver and vehicle licensing services in Pingelly;**
- 2. Agrees that the Shire will continue to provide licensing services on an interim basis until a suitable alternative provider is in place;**
- 3. Notes that, should alternative arrangements be unsuccessful or fail to meet the needs of the community, the Shire may resume the provision of licensing services; and**
- 4. Advises that the Bendigo Adelaide Bank is considered a suitable location for the delivery of licensing services in Pingelly.**

Subsequently, the Bendigo Adelaide Bank have declined to provide this service at present due to their own staffing constraints. However, they advised that this is a possibility in the future. As such, the CEO has advised the DTMI that the Shire will continue to provide this service including the renewing the formal agreement upon expiry.

At the Annual Meeting of Electors on 18 February 2026, electors passed the following motion:

- 1. That Council repeals the motion #13684 which was passed on 21/01/2026; and**
- 2. That the Council instructs the CEO to notify the DTMI of this resolution; and**
- 3. That the CEO notify the DTMI that the Shire will be seeking a continuation of the formal agreement to provide Driver and Vehicle Licensing Services in Pingelly.**

Comment

The intention of Motion 13684 is that the Shire continues to provide driver and vehicle licensing services until alternative arrangements are established within Pingelly. Alternative arrangements are not currently available and as such the Shire will continue to provide these services. The above motion has been completed.

The elector’s motion from 18 February 2026 is to:

1. Repeal Motion 13684
2. Notify DTMI that the motion has been repealed; and
3. Notify DTMI that the Shire will be a continuation of the formal agreement

However, Motion 13684 has been completed and DTMI have been informed that the Shire wishes to renew the formal agreement to provide driver and vehicle licensing services. Adopting the elector’s motion would be redundant. It is recommended that that Council does not adopt the motion recommended by electors at the Annual Meeting of Electors.

Consultation

This matter is considered by Council as a result of an elector’s motion at the 2026 Annual Meeting of Electors.

14.3 WALGA Electoral Reform Consultation

Summary

For Council to consider the WALGA Electoral Reform Discussion Paper (February 2026) and adopt a Council-endorsed position on local government election frequency and voting model to inform WALGA's sector advocacy.

Background

WALGA is seeking Council-endorsed feedback on two reforms flagged by the Minister for Local Government, Hon Hannah Beazley MLA: a change to four-yearly full-spill elections, and the introduction of compulsory voting. No formal State Government proposals have yet been released for consultation.

WALGA's 2024 sector consultation found 98% support for retaining biennial half-spill elections, and 74% overall support for voluntary voting – though compulsory voting was preferred by metropolitan and larger Class 1 and 2 councils. WA and South Australia are now the only jurisdictions with voluntary voting, following Tasmania's move to compulsory voting in 2022, which lifted participation from ~59% to 84.8% but increased per-electoral costs by 35%.

Comment

Election Frequency

The Shire recommends retaining biennial half-spill elections. Key considerations for a small rural council include:

- Continuity – biennial elections allow mentoring of incoming members; full spills risk replacing the majority of a small council at once, with significant governance consequences;
- Candidate pipeline – a limited pool of prospective candidates in small communities is better managed across two-yearly cycles than a single high-stakes recruitment event every four years;
- Extraordinary vacancies – under a four-yearly model, mid-term vacancies leave positions unfilled for extended periods, posing a material governance risk for small councils; and
- Cost uncertainty – while fewer elections reduces frequency costs, doubling the number of vacancies per election will increase per-election costs. Net savings cannot be confirmed without WAEC cost modelling.

Compulsory vs Voluntary Voting

The Shire recommends retaining voluntary voting. In a small, cohesive rural community, participation reflects genuine civic interest. Enforcing compulsory voting across owner and occupier rolls – including non-resident ratepayers – introduces significant administrative complexity, and the likely cost increase would be disproportionate for a small council.

Online Voting – Additional Advocacy Ask

The Shire recommends that WALGA actively advocate for the investigation and adoption of online voting for WA local government elections, consistent with existing Advocacy Position 2.5.16. Online voting is anticipated to increase participation, reduce the per-electoral cost of

postal elections (which rose 40% between 2019 and 2023), and moderate the cost impact of any move to compulsory voting. The Shire recommends WALGA advocate for a pilot at the 2027 or 2029 elections.

Risk Framework

Risk:	Failure to respond may result in the Shire’s interests being inadequately represented in WALGA’s advocacy on reforms that could materially affect governance and costs.

Officers Recommendation:

That Council endorse the following points in response to WALGA’s Electoral Reform Discussion Paper (February 2026):

- 1. Retain half-spill elections every two years and opposes a move to four-yearly full-spill elections;**
- 2. Retain voluntary voting; and**
- 3. Advocate to WALGA and the State Government to adopt online voting for local government elections, consistent with Advocacy Position 2.5.16.**

INFOPAGE

To: All Local Governments **From:** Kirsty Martin,
Executive Manager Member Services

Date: 13 February 2026

Subject: Sector Consultation – Electoral Reform Discussion Paper

Operational Area:	Governance
Key Issues:	Local Governments are requested to provide Council-endorsed feedback to inform WALGA’s advocacy on Local Government electoral reforms expected to be proposed by the State Government, specifically: <ul style="list-style-type: none"> • full spill elections every 4 years; and • compulsory voting at Local Government elections
Action Required:	Response to WALGA by 4:00pm Friday 27 March 2026

WALGA is undertaking sector engagement regarding Local Government electoral reforms expected to be proposed by the State Government.

In June 2025, Hon Hannah Beazley MLA, Minister for Local Government, expressed support for a four-year election cycle, citing concerns about voter fatigue and the rising costs of conducting biennial elections. These messages were repeated in Minister Beazley’s address at WALGA’s 2025 Local Government Convention, which also raised the possibility of compulsory voting. These comments have prompted renewed interest and discussion across the sector.

WALGA has contacted both the Department of Local Government, Industry Regulations and Safety (LGIRS) and the Minister’s office seeking details of any consultation on these matters, but no further information has been provided.

By proactively progressing this consultation, WALGA is seeking to obtain sector feedback that will ensure WALGA’s positions reflect the sector’s current views and enable timely, well-informed and effective engagement with the anticipated State Government reform proposals.

Attached to this Infopage is a brief Discussion Paper. The Discussion Paper outlines some example considerations that Local Governments may choose to address when preparing their feedback. It is not intended to present an exhaustive or prescriptive list.

Local Governments are requested to provide Council endorsed responses to the Discussion Paper by 27 March 2026. This feedback will inform an item to be presented to State Council.

For more information, please contact Kirsty Martin on 9213 2051 or Felicity Morris on 9213 2093. Please send responses to governance@walga.asn.au

Electoral Reform Discussion Paper

1. Background

1.1. Purpose

The purpose of this discussion paper is to request Council-endorsed Local Government feedback to inform WALGA's advocacy on Local Government electoral reforms expected to be proposed by the State Government, specifically:

- full spill elections every 4 years; and
- compulsory voting at Local Government elections

These options have been raised in statements by the Minister for Local Government, Hon Hannah Beazley MLA, but no formal proposals have yet been provided for consultation. While WALGA has relevant advocacy positions (discussed further below), the purpose of this discussion paper is to undertake early sector engagement to ensure WALGA's positions reflect the sector's current views and enable timely, well-informed and effective engagement with the anticipated State Government reform proposals.

1.2. WALGA existing advocacy positions

1.2.1. Elections

WALGA has established advocacy positions reflecting the sector's support of voluntary voting and elections of half the offices on Council every two years. These advocacy positions are provided in Appendix 1.

In late 2024 WALGA conducted a review of its Elections Advocacy Positions to ensure they reflected the sector's contemporary view.

Local Government responses at that time indicated strong (98%) support for half spills every two years, which was reflected in the adopted Advocacy Position [2.5.16 Elections](#).

While voluntary voting was supported by an overall majority of responses (74%), compulsory voting was supported by a majority (64%) of metropolitan respondents and a majority (61%) of Class 1 and 2 respondents.

State Council requested that the WALGA secretariat undertake further investigation of the implications of compulsory and voluntary participation in Local Government elections before reporting back to State Council.

In the interim, Advocacy Position [2.5.15 Participation in Local Government Elections](#) was retained, expressing support for voluntary voting with a note that further work was being undertaken.

This investigation was ongoing when the Minister for Local Government raised the prospect of further Local Government election reform.

A State by State comparison of electoral statistics is provided in Appendix 2.

1.2.2. Election costs

In 2024, WALGA conducted a review of five Local Government biennial election cycles up to and including the 2023 Local Government elections. The review demonstrated significant cost increases and concerns about the lack of transparency in costings provided by the Western Australian Electoral Commission (WAEC).

In September 2024, State Council adopted Advocacy Position [2.5.18 Local Government Elections Analysis 2015-2023](#), calling for an independent audit of the WAEC's cost allocation methods and the introduction of Service Level Agreements to ensure transparency of costing methodology.

Cost implications are a relevant consideration in assessing the appropriateness of any proposed electoral reform. However, the current lack of transparency in costing methodology makes it impossible to confidently forecast cost impacts.

This discussion paper seeks to identify the factors associated with each reform proposal that may affect election costs. This is further complicated by the interaction of possible reform options and external economic factors.

WALGA has requested that the Department of Local Government, Regulation and Industry Safety (LGIRS) and the Western Australian Electoral Commission, undertake modelling to identify the cost implications of any proposed reforms.

A comparison of available electoral costs data, State by State, is included as Table 4 in Appendix 2.

WALGA has contacted other Local Government associations to ask if they have experienced changes in costs associated with [compulsory four-year, all-in all-out](#), local government elections. As this has been the approach in most jurisdictions for some time, responses were largely unable to address changes in cost.

2. Election Frequency

Current situation

Western Australia holds biennial elections, with half of the offices on Council elected every two years for four-year terms. All other Australian jurisdictions hold full spill elections every four years (four-year terms).

Considerations

Considerations include:

- Voter participation and fatigue
- Continuity, knowledge retention and mentorship for new Council Members
- Stable whole-of-Council mandate and collective accountability
- Capacity for candidate recruitment
- Administrative requirements
- Extraordinary vacancies and backfilling
- Timing and transitional arrangements

Re-election rates

WALGA has analysed the composition of Councils following the last two Local Government elections in other Australian jurisdictions, all of which have full spill elections. A comparison of available data on re-election rates is included as Table 2 in Appendix 2.

This data suggests that on average, re-elected Council Members make up between 47% and 57% of Council following full spill elections.

By comparing over 700 consecutive ordinary election results, the review identified nine occasions when the membership of Council following an ordinary election was 100% different from the Council following the previous ordinary election. However, four of these local governments held mid-term extraordinary elections, meaning the changes in membership occurred over two or more elections within a four-year period.

Costs

In one respect, a change to a four-year cycle would reduce costs by reducing the number of elections. However, the cost of each election may increase. The WAEC uses the number of vacancies to inform quotations for the conduct of elections. Full spill elections would double the number of vacancies, with possible increased costs associated with printing and postage and increased staffing for the count.

WALGA cannot definitively determine an overall cost impact to Local Government without the requisite cost-modelling from the WAEC. WALGA has requested that the WAEC provide this modelling to LGIRS. The cost impact of a change in election frequency may also vary between Local Governments.

Questions

1. Does your Local Government support half spill elections every two years or full spill elections every four years?
2. What are the key considerations informing this view?
3. If full spill elections every four years were introduced, what transitional arrangements and consequential amendments may be required?
4. Any other comments?

3. Compulsory or Voluntary Voting

Current situation

Voting in Local Government elections is voluntary in Western Australia and South Australia. All other Australian jurisdictions have compulsory voting.

Considerations

Considerations include:

- Voter participation and democratic legitimacy
- Voter engagement, awareness and/or fatigue
- Administrative and enforcement requirements
- Application to owner and occupier rolls

Participation rates

A comparison of available participation data is included as Table 3 in Appendix 1.

Costs

The WAEC uses expected participation rates to inform quotations for the conduct of elections. It is likely that an increased participation rate would increase election costs through higher reply-paid charges and increased staffing for the count. However, in-person elections become more cost effective than postal elections at higher participation rates.

WALGA cannot definitively determine an overall cost impact to Local Government without the requisite cost-modelling from the WAEC. WALGA has requested that the WAEC provide this modelling to LGIRS. The cost impact of compulsory voting may also be different for each Local Government depending on their current participation rates and methods for holding elections, and whether these would change significantly.

Tasmania implemented compulsory voting in Local Government elections in 2022. Local Government Association Tasmania (LGAT) advised that this resulted in reasonably significant cost increases. The Tasmanian Electoral Commission reported a \$9.32 per elector cost for the first compulsory Local Government elections in 2022, a 35% increase from \$6.92 in 2018. An analysis of the factors contributing to this increase is not available and it may be challenging to draw direct comparisons between Tasmania and WA.

It is likely that the cost impact of compulsory voting would be moderated if elections also transition to a 4 yearly cycle.

Questions

5. Does your Local Government support compulsory voting or voluntary voting in Local Government elections?
6. If the frequency of Local Government elections were changed to every 4 years, would your Local Government support compulsory or voluntary voting?
7. What are the key considerations informing this view?
8. Any other comments?

2.5.16 Elections

Position Statement	<p>The Local Government sector supports:</p> <ol style="list-style-type: none"> 1. Councillors serve four-year terms with elections every two years and half of the Council positions spilled at each election. 2. First-Past-The-Post (FPTP) voting system for Local Government elections. If Optional Preferential Voting (OPV) remains as the primary method of voting, the sector supports the removal of the 'proportional' part of the voting method for general elections. 3. First-Past-The-Post (FPTP) voting system for internal Council elections.

4. Councils holding elections by means of in-person, postal and/or electronic voting.
5. Current legislative provisions of Mayor/President of Class 1 and Class 2 Local Governments being directly elected by the community and Class 3 and Class 4 Local Governments determining whether its Mayor or President is elected by the Council or by the community.

Background

The sector positions on Local Government elections have been long-established. This was confirmed as a result of sector feedback received during the Local Government reform process.

Following the 2023 Local Government Elections where legislative reforms to Local Government elections processes were first implemented, sector wide consultation was conducted on key elements of the elections advocacy positions to determine if they accurately reflected the sector's contemporary view.

2.5.18 Local Government Elections Analysis 2015-2023

Position Statement

That WALGA advocate to the State Government:

1. For an independent Local Government election audit, focusing on the Western Australia Electoral Commission's (WAEC) service delivery and cost allocation methods and costing applications used, to confirm that marginal cost recovery principles are applied and that the costing program is being effectively managed.
2. For the requirement for the WAEC to develop and implement Service Level Agreements with Local Governments, similar to those agreements currently used in New South Wales and Victorian Local Government elections and that includes:
 - a. transparency of costing methodology,
 - b. direct engagement with Local Governments pre and post elections, and
 - c. the roles and responsibilities of the WAEC and Local Governments in the conduct of elections.

3. For a review of the legislative framework that would allow for more than one election services provider to conduct Local Government elections.
4. For a mandated WAEC Report to Parliament specific to Local Government elections post each election cycle, outlining costs, results, voter turnout and matters for improvement both in the conduct of elections and the legislation, if relevant.

Background

A comprehensive review and analysis of five election cycles up to and including the 2023 Local Government election against the backdrop of legislative reforms to the Local Government electoral process in Western Australia was carried out by WALGA.

With a focus on postal elections conducted exclusively by the Western Australian Electoral Commission (WAEC), the analysis has found evidence of the rising cost and reduced service level of conducting Local Government elections in Western Australia.

Elected Member feedback, costs vs service comparisons and engagement by the sector with WALGA's governance services over the 2023 Local Government election period, are the basis for the position outlined above.

Summary

In Accordance with the *Local Government Act 1995* Section 5.25 (1) and *Local Government (Financial Management) Regulations 1996*, Monthly Financial Statements are required to be presented to Council, in order to ensure that income and expenditure is in keeping with budget forecasts.

The Monthly Statement of Financial Activity for the month of February 2026 is attached for Council consideration and adoption. This report now incorporates new Australian Accounting Standards Board (AASB) requirements effective from 1 July 2019. AASB 15 Revenue from Contracts with Customers (IFRS 15), AASB 1058 Income for Not-for Profit Entities, AASB 16 Lease replaces AASB 117 (IFRS 16).

Background

In order to prepare the monthly statements, the following reconciliations have been completed and verified:

- Reconciliation of assets, payroll and taxation services;
- Reconciliation of all shire's bank accounts, including term deposits;
- Reconciliation of rates, including outstanding debtors;
- Reconciliation of sundry creditors and debtors;

Comment

The Monthly Financial report has been prepared in accordance with statutory requirements and provides council with their financial position as at 28 February 2026.

Operating revenue is below year to date budget by 1.44% or \$61,170 and operating expenditure against the year to date budget is down by 0.44% or \$24,170

A comparative cash position against last year is shown below:

	28/02/2026	28/02/2025
Current Position	2,273,936	4,278,033
Municipal Bank	1,015,368	3,137,445
Reserve Bank	1,258,567	1,140,587
Rates Collected	2,384,610	2,306,851

Capital expenditure is lower than anticipated YTD, please refer to Note 5 for further information.

Statutory Environment

Local Government Act 1995;

Local Government (Financial Management) Regulations 1996

Section 34: Financial Reports to be prepared

(1) A local government is to prepare each month a statement of financial activity reporting on the sources and applications of funds, as set out in the annual budget under regulation 22(1)(d), for that month in the following detail -

- (a) Annual budget estimates, taking into account any expenditure incurred for an additional purpose under section 6.8(1) (b) or (c);
- (b) Budget estimates to the end of the month to which the statement relates;
- (c) Actual amounts of expenditure, revenue and income to the end of the month to which the statement relates;
- (d) Material variances between the comparable amounts referred to in paragraphs (b) and (c); and
- (e) The net current assets at the end of the month to which the statement relates.

(2) Each statement of financial activity is to be accompanied by documents containing -

- (a) An explanation of the composition of the net current assets of the month to which the statement relates, less committed assets and restricted assets;
- (b) An explanation of each of the material variances referred to in sub regulation (1) (d); and
- (c) Such other supporting information as is considered relevant by the local government.

(3) The information in a statement of financial activity may be shown -

- (a) According to nature and type classification;
- (b) By program; or
- (c) By business unit.

(4) A statement of financial activity, and the accompanying documents referred to in sub regulation (2), is to be -

- (a) Presented to the council -
 - (i) At the next ordinary meeting of the council following the end of the month to which the statement relates; or
 - (ii) if the statement is not prepared in time to present it to the meeting referred to in subparagraph (i), to the next ordinary meeting of the council after that meeting; and
- (b) Recorded in the minutes of the meeting at which it is presented.

(5) Each financial year, a local government is to adopt a percentage or value, calculated in accordance with AAS 5, to be used in statements of financial activity for reporting material variances.

Policy Implications

There are no policy implications.

Financial Implications

The report and Officer recommendation is consistent with Council's adopted Budget 2025/26.

Strategic Implications

Business as usual.

Risk Implications

Risk:	Failure to monitor the Shire’s ongoing financial performance would increase the risk of a negative impact on the Shire’s financial position. As the monthly report is a legislative requirement, non-compliance may result in a qualified audit.		
Consequence Theme:	Reputational / Compliance	Impact:	Minor
Consequence:	Low impact, a small number of complaints. Some temporary non-compliance		
Likelihood Rating:	Unlikely	Risk Matrix:	Low (4)
Action Plan:	Risk is acceptable with adequate controls, managed by routine procedures and subject to annual monitoring.		

Voting Requirements:

Simple Majority

Officers Recommendation:

That with respect to the Monthly Statements of Financial Activity for the month ending 28 February 2026 be accepted and material variances be noted.

SHIRE OF PINGELLY
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 28 FEBRUARY 2026

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the Local Government Act 1995 read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 28 February 2026

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

MATERIAL ACCOUNTING POLICIES

Material accounting policies utilised in the preparation of these statements are as described within the 2025-26 Annual Budget. Please refer to the adopted budget document for details of these policies.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Impairment losses of non-financial assets
- Measurement of employee benefits
- Estimation uncertainties and judgements made in relation to lease accounting

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 8 - Other assets.

KEY INFORMATION

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

KEY INFORMATION

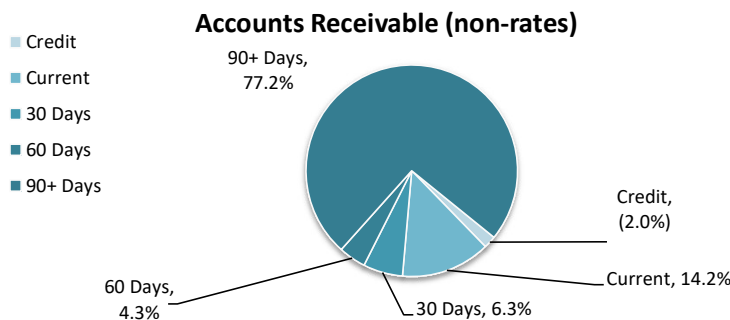

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Other financial assets at amortised cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Inventory

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

		2,011,353					1,891,957			

All debenture repayments were financed by general purpose revenue.
 Self supporting loans are financed by repayments from third parties.

KEY INFORMATION

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

All lease repayments were financed by general purpose revenue.

KEY INFORMATION

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is or contains a lease, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

Summary

Council is requested to receive the list of accounts paid by authority for the month of February 2026.

Background

In accordance with *Local Government (Financial Management) Regulations 1996 Clause 13*

(1) schedules of all payments made through Council's bank accounts are presented to the Committee and to Council.

Comment

Unless otherwise identified, all payments have been made in accordance with Council's adopted 2025/2026 Budget.

Consultation

Nil

Statutory Environment

Regulation 12 of the *Local Government (Financial Management) Regulations* provides that:

- (2) A payment may only be made from the municipal fund or the trust fund —
 - (b) if the local government has delegated to the CEO the exercise of its power to make payments from those funds — by the CEO; or
 - (b) otherwise, if the payment is authorised in advance by a resolution of the council.
- (2) The council must not authorise a payment from those funds until a list prepared under regulation 13(2) containing details of the accounts to be paid has been presented to the council.

Regulation 13 of the *Local Government (Financial Management) Regulations* provides that:

- (3) If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared —
 - (b) the payee's name;
 - (b) the amount of the payment;
 - (b) the date of the payment; and
 - (b) sufficient information to identify the transaction.
- (3) A list of accounts for approval to be paid is to be prepared each month showing —
 - (b) for each account which requires council authorisation in that month —
 - (iii) the payee's name;
 - (iii) the amount of the payment; and
 - (iii) sufficient information to identify the transaction; and
 - (b) the date of the meeting of the Council to which the list is to be presented.
- (3) A list prepared under sub regulation (1) or (2) is to be —
 - (b) presented to the Council at the next ordinary meeting of the council after the list is prepared; and
 - (b) recorded in the minutes of that meeting.

Policy Implications

There are no policy implications associated with this report.

Financial Implications

There are no known financial implications upon either the Council's current budget or long-term financial plan.

Strategic Implications

This is a statutory requirement.

Risk Framework

Risk:	Failure to present a detailed listing of payments in the prescribed form would result in non-compliance with the Local Government (Financial Management) Regulations 1996, which may result in a qualified audit.		
Consequence Theme:	Reputational / Compliance	Impact:	Minor
Consequence:	Low impact, a small number of complaints. Some temporary non-compliance		
Likelihood Rating:	Unlikely	Risk Matrix:	Low (4)
Action Plan:	Risk is acceptable with adequate controls, managed by routine procedures and subject to annual monitoring.		

Voting Requirements:

Simple Majority

Officer's Recommendation:

That Council receive the Accounts for Payments for February 2026 as authorised under delegated authority and in accordance with the Local Government (Financial Management) Regulations 1996:

To 28 February 2026:

Municipal Account	\$429,951

Summary

To consider and adopt the Budget Review as attached for the period 1 July 2025 to 28 February 2026.

Background

In accordance with Local Government (Financial Management) Regulations, Council is required to carry out a review of its annual budget for that year by 31 March. This requirement recognises the dynamic nature of local government activities and the need to continually reassess projects competing for limited funds, to ensure that community benefit from available funding is maximised.

Comment

The mid-year review of the Shire’s financial accounts as at 28 February 2026 has been conducted and areas identified that require amendments to initial budget allocations. Wherever possible, service areas seeking additional funds to what was originally approved in the budget are encouraged to generate funding or to find offsetting savings in their own areas. These amendments have been detailed in the document for Council’s review.

The budget review process has identified items requiring adjustment. Most notably, the actual opening surplus for 25/26 was significantly less than the budgeted opening surplus. The review reduces the closing 30 June 2025 surplus by \$236,254. Changes over \$10,000 include:

Description	Variation \$
Revenue	
General Purpose Grant FAGS (LGGC) – as per confirmed amount from LGGC	(35,542)
Local Roads Grant FAGS (LGGC) – as per confirmed amount from LGGC	(76,488)

Age Friendly Community Grant expenditure ⁵	(13,850)

Summary

In reviewing the 2025/26 Budget and incorporating the amendments and the audited surplus for the 2024/25 financial year, the changes made to the various accounts have resulted in a budgeted remaining surplus to 30 June 2026 of \$259,389.

Original Budgeted Surplus for 25/26	\$0.00
Revenue Amendments	\$497,039
Expense Amendments	(\$237,650)

Amended Mid-Year Budget Surplus for 25/26	\$259,389

16.1. Proposed single house & outbuilding – Lot 5111 (No. 1) Shire Street, Pingelly

Summary

Council to consider an application for a single house and outbuilding at Lot 5111 (No. 1) Shire Street, Pingelly.

Background

The applicant has submitted an application for development consent for a single house and outbuilding at Lot 5111 (No. 1) Shire Street. The single house is 168m² in area, while the outbuilding (shed) is an American Barn Style. The outbuilding has a floor area of 120m², is 12m long, 10m wide, and is 5.308m at the highest point in the centre. The additional height is to accommodate for a large motor home. The outbuilding will be clad in Colourbond (Slate Grey).

The site has dual road frontage to both Shire Street and Overheu Street. The site is 2029m² in area and largely cleared. The site adjoins a small area of Vacant Crown Land to the east.

The proposed single house and outbuilding are well setback from both street boundaries and from property boundaries. Both the house and outbuilding are setback 9m from the from the Overheu Street boundary. Details provided by the applicant are provided in Attachment 16.1.1.

Smaller sheds (outbuildings) are typically exempt from the requirement to obtain development (planning) consent if the total area of the outbuilding(s) is 60m² or below on Residential zoned land and they meet other deemed-to-comply requirements of the *Residential Design Codes*.

Comment

Given the Residential zoning and a need to address the *Shire of Pingelly Local Planning Scheme No.3*, Council's *Policy 13.2 Outbuildings* (see Attachment 16.1.2) and the *Residential Design Codes*, there is a need:

- To obtain development approval and obtain a Building Permit for the house prior to the commencement of on-the-ground works associated with the outbuilding;
- For substantial commencement of the house (such as earthworks) prior to occupation of the outbuilding.

Following assessment against the planning framework, information provided by the applicant and site characteristics, conditional approval is recommended given:

- The application is considered consistent with Design Principle P3 Outbuildings from *Residential Design Codes* which states 'Outbuildings that do not detract from the streetscape or the visual amenity of the residents or neighbouring properties.' This includes that the outbuilding is well setback from Shire Street and Overheu Street and the outbuilding walls and roof will be Colourbond (Slate Grey);

- The lot size is generous in size for a Residential zoned property;
- The outbuilding is considered compatible with its setting in terms of height, bulk, scale, orientation and appearance;
- There are no overshadowing issues with neighbouring properties;
- The outbuilding overall complies with development standards; and
- Recommended development conditions and advice can assist to control the use and management of the development.

The proposed single house and outbuilding are recommended for conditional approval.

Consultation

Nil

Statutory Environment

The site is zoned ‘Residential R10/20’ in the *Shire of Pingelly’s Local Planning Scheme No.3* (LPS3). Without an approved house on the site, a shed on Residential zoned land is classified as ‘warehouse/storage’ in LPS3 which is an ‘X’ (not permitted) use. To address LPS3, a Building Permit is required for the single house before site works commence for the outbuilding.

Attachment 16.1.3 is an extract from the *Planning and Development (Local Planning Schemes) Regulations 2015* which sets out matters to be considered by the local government in assessing a Development Application.

The site is located with a designated bushfire prone area. At this stage, a BAL assessment has not been prepared.

Policy Implications

Local Planning Policies are relevant in assessing the Development Application. Local Planning Policies are non-statutory documents which are designed to provide guidance to assist the Council in its decision making. Accordingly, the Council is not bound by the policies but is required to have regard to the policies in determining the Development Application. The key Local Planning Policy is *13.2 Outbuildings*. The Policy in part states in relation to the Residential zone with an R 10 code or below:

‘No planning consent or building licence approval will be granted or issued, for any outbuildings on a residential or rural residential zoned lot where a building licence has not been issued for a residence and/or where an outbuilding is not located at least 4m from any boundary of the lot’.

Financial Implications

The applicant has paid the Development Application fee. The applicant has a right of review to the State Administrative Tribunal to review the Council’s decision. If this occurred, the Shire would have associated costs.

Strategic Implications

Outcome 6	A great place to live.
Outcome 6.1	Provide responsible planning and development.

Risk Implications

Risk:	The key risk arises from the failure to consult with neighbouring properties resulting in complaints. This has been managed through the consultation process.		
Consequence Theme:	Reputational	Impact:	Minor
Consequence:	Low impact, a small number of complaints. Some temporary non-compliance		
Likelihood Rating:	Unlikely	Risk Matrix:	Low (4)
Action Plan:	Risk is acceptable with adequate controls, managed by routine procedures and subject to annual monitoring.		

Voting Requirements:

Simple Majority

Officer's Recommendation:

That Council grant Development Approval for a single house and outbuilding at Lot 5111 on Deposited Plan 414155 (No. 1) Shire Street, Pingelly pursuant to Schedule 2, Clause 68 of the *Planning and Development (Local Planning Schemes) Regulations 2015* and subject to the following conditions and advice notes:

Conditions

- 1. This approval is only granted until 18 March 2028. Should a single house be approved and substantially commenced on Lot 5111 (No. 1) Shire Street, before 18 March 2028 to the satisfaction of the local government, the development approval for the outbuilding becomes permanent.**
- 2. A Building Permit is issued for the single house and outbuilding prior to commencement of development works associated with the outbuilding. Additionally, substantial commencement of the single house is to occur to the satisfaction of the local government prior to the occupation of the outbuilding.**
- 3. The development hereby approved must be carried out in accordance with the submitted plans and specifications (addressing all conditions) or otherwise amended by the local government and these shall not be altered and/or modified without the prior knowledge and written consent of the local government.**
- 4. The provision of details with the Building Permit application as to how stormwater will be addressed for the proposed development to the satisfaction of local government. The local government will require that all stormwater from the single house and outbuilding are collected and detained on site to the satisfaction of the local government prior to occupation. The stormwater facilities provided in accordance with this condition shall be permanently maintained in an operative condition to the satisfaction of the local government.**
- 5. The outbuilding is not used for industrial, commercial or habitable purposes.**
- 6. The walls and roof of the outbuilding are clad in Colourbond colours to the satisfaction of the local government.**
- 7. The single house is connected to an approved on-site wastewater treatment system, to the satisfaction of the local government, prior to occupation.**
- 8. The single house is connected to the reticulated water system, to the satisfaction of the local government, prior to occupation.**
- 9. A Bushfire Attack Level Assessment is to be submitted with the Building Permit Application for the single house. The single house is to be constructed in accordance with the assigned Bushfire Attack Level assessment as set out in *AS3959 Construction of Buildings in Bushfire Prone Areas*. The Asset Protection Zone is to be permanently maintained around the single house in accordance with the Bushfire Attack Level assessment.**

Council Policy Name: 13.2 Outbuildings
 Responsible Directorate: Technical Services

1. PURPOSE

- 1.1 This policy provides direction and guidance on the area and height of outbuildings and the like that Council will permit within the Shire boundaries. Outbuildings and structures that comply with the following requirements may be approved by Council's Building Surveyor without having the need to be submitted to an Ordinary Meeting of Council.

2. SCOPE

- 2.1 This Policy is applicable to the Shire of Pingelly and its operations.

3. DEFINITIONS

- 3.1 **Outbuilding** is an enclosed non-habitable structure that is required to meet the standards of the Building Code of Australia and is detached from any dwelling.
- 3.2 **Carport** is a roofed structure designed to accommodate one or more motor vehicles unenclosed except to the extent that it abuts a dwelling or a property boundary on one side and being without a door.
- 3.3 **Garage** is any enclosed and roofed structure, other than a carport, designed to accommodate one or more motor vehicles.
- 3.4 **Patio** is a roofed shade structure either attached to a dwelling or free standing is required to be open on fifty percent of its sides.
- 3.5 **Pergola** is a light weight shade structure that does not have a solid roof. It may be attached to a dwelling or can be free standing.
- 3.6 **Statutory Powers:** This policy has been prepared in conjunction with the requirements of the *Residential Design Codes of Western Australia*, i.e. The performance criteria relative to outbuildings (Clause 5.4.3) states:
"Outbuildings that do not detract from the streetscape or the visual amenity of the residents or neighbouring properties."

4. POLICY STATEMENT

Policy Intention

- To provide some flexibility in the requirements for outbuildings and the like in residential areas.
- To ensure that the provisions of the current *Residential Design Codes* are appropriately addressed.
- To improve customer service standards through the timely processing of planning and building applications for outbuildings.

Buildings are to comply with any local planning policy made under the Scheme in respect of the design of carports and garages, including the colour, scale, materials and roof pitch of buildings. This policy provides design requirements for carports and garages, however it does not interfere with any other requirement of the Residential Design Codes relating to carports and garages.

This policy does not alter or change in any way the acceptable development criteria of the *Residential Design Codes* currently in force.

Within all "Residential" and "Rural Residential" zoned areas of the Shire and on Farming zoned lots with an area of 2ha or less except as otherwise stated, planning consent for all outbuildings is required. If planning consent is granted, building approval will be issued for outbuildings which are appurtenant to a dwelling, provided all boundary setbacks and building separation requirements have been complied with, the building is of single storey construction, located behind any residence on-site and provided the proposed development complies with the following:

- 4.1 In any residential zone with an R10 code or above in the Shire:
- a. Non-masonry construction, where the total non-masonry outbuilding area does not exceed 60m² and the total outbuilding area does not exceed 75m²;
 - b. Masonry or other approved construction, where the total outbuilding area has walls constructed of the same materials and appearance as the house and does not exceed 75m² and no parapet wall is greater in length than 8m;
 - c. Wall height of any outbuildings not to exceed 3m. This height limitation also applies to parapet walls. In the case of gable roof construction, the maximum building height is not to exceed 4.2m;
 - d. Prior to considering a parapet wall construction over 8m in length, the applicant will present Council with written agreement to the same by any affected adjoining landowner;
 - e. No planning consent or building licence approval will be granted or issued for any outbuildings, on any Residential zoned lot, which does not contain a residence;
 - f. The applicant providing the Shire with a written undertaking that the outbuilding constructed, will only be used for the purpose permitted within the zone in which it is located, under the provisions of the Shire's operative Local Planning Scheme;
 - g. Any development application which does not comply with the above, shall be referred to Council for consideration.
- 4.2 In any residential zone with an R code below R10, the rural residential zone of the Shire and on farming zoned lots which have an area of 2ha or less
- a. Non-masonry zincalume construction, where the total zincalume outbuilding area does not exceed 75m² and the total outbuilding area does not exceed 200m², or
 - b. Non-masonry colorbond construction, where the total colorbond outbuilding area does not exceed 150m² and the total outbuilding area does not exceed 200m²,
 - c. Masonry or other approved construction, where the total outbuilding area has walls constructed of the same materials and appearance as the house and does not exceed 200m²,
 - d. Wall height of any outbuilding not to exceed 4m. In the case of a gable roof construction, the maximum building height is not to exceed 5m;
 - e. No planning consent or building licence approval will be granted or issued, for any outbuildings on a residential or rural residential zoned lot where a building licence has not been issued for a residence and / or where an outbuilding is not located at least 4m from any boundary of the lot;
 - f. The applicant providing the Shire with a written undertaking that the outbuilding constructed, will only be used for purposes permitted within the zone in which it is located under the provisions of the Shire's operative Local Planning Scheme;
 - g. Any development application which does not comply with the above shall be referred to Council for consideration.

- 4.3 Distance from boundaries on any residential zoned lot with an R code of 10 or above:
- a. Garages, shed, pergolas and patios - brick construction
 - i. Attached to house - 1m from side boundaries. Eaves not closer than 750mm measured from the outer edge of the gutter.
 - ii. Detached from house - Must be 1.8m clear of house with either parapet wall on boundary or walls 1m from boundary with eaves 750mm clear of boundary.
 - b. Garages, sheds, pergolas, and patios - steel framed construction - Detached from house only - Must be at the rear of the residence 1.8m clear of the residence, leach drains and septic tanks and 1.2m clear of side and rear boundaries.
 - c. Carports - Columns of brick (350mm x 350mm) or steel may be erected on a boundary provided no more than 4 columns are used and roofing including guttering is at least 750mm clear of the boundary. Beams must be of steel within 750mm of a boundary and a dividing fence forming a side wall of the carport must not be higher than 1.8m. Timber framed carports must be sited 1.2m clear of boundaries.
 - d. On corner lots - Where an outbuilding is constructed in brick or clad in colorbond, Council will permit a setback of 3.75m to the minor street. Where an outbuilding is clad in zincalume a setback of 7.5m to the minor street will apply.
- 4.4 Distance from boundaries in any residential zone with an R code below R10 and the rural residential zone of the Shire and on farming zoned lots which have an area of 2 hectares or less
- a. Detached outbuildings - To be at the rear of the residence on-site, at least 1.8m clear of the residence, leach drains and septic tanks. All boundary setbacks to be as laid down in the Shire of Pingelly's operative Local Planning Scheme.
 - b. On corner lots - The setback to the minor street to be the same as the frontage setback laid down in the Shire of Pingelly's operative Local Planning Scheme.
 - c. Garden sheds - Under this policy, Council will without the need for planning consent or building permit approval, permit the erection of one only garden shed per lot which has a maximum area of up to 10m². The garden shed is to be located on the lot in a position and in a manner agreed to in writing by the Shire's Building Surveyor and such shed is in addition to any other shed permitted under this "Policy".

67. Consideration of application by local government

- (1) Development approval cannot be granted on an application for approval of —
 - (a) development that is a class X use in relation to the zone in which the development is located, unless —
 - (i) the development relates to land that is being used for a non-conforming use; and
 - (ii) the local government considers that the proposed use of the land would be less detrimental than the non-conforming use;
 - or
 - (b) development that otherwise does not comply with a requirement of this Scheme, unless —
 - (i) this Scheme gives the local government discretion to waive or vary the requirement or to grant development approval despite non-compliance with the requirement; or
 - (ii) the development is permitted under a provision of this Scheme in relation to non-conforming uses.
- (2) In considering an application for development approval (other than an application on which approval cannot be granted under subclause (1)), the local government is to have due regard to the following matters to the extent that, in the opinion of the local government, those matters are relevant to the development the subject of the application —
 - (a) the aims and provisions of this Scheme and any other local planning scheme operating within the Scheme area;
 - (b) the requirements of orderly and proper planning including any proposed local planning scheme or amendment to this Scheme that has been advertised under the *Planning and Development (Local Planning Schemes) Regulations 2015* or any other proposed planning instrument that the local government is seriously considering adopting or approving;
 - (c) any approved State planning policy;
 - (d) any environmental protection policy approved under the *Environmental Protection Act 1986* section 31(d);
 - (e) any policy of the Commission;
 - (f) any policy of the State;
 - (fa) any local planning strategy for this Scheme endorsed by the Commission;
 - (g) any local planning policy for the Scheme area;
 - (h) any structure plan or local development plan that relates to the development;
 - (i) any report of the review of the local planning scheme that has been published under the *Planning and Development (Local Planning Schemes) Regulations 2015*;
 - (j) in the case of land reserved under this Scheme, the objectives for the reserve and the additional and permitted uses identified in this Scheme for the reserve;
 - (k) the built heritage conservation of any place that is of cultural significance;
 - (l) the effect of the proposal on the cultural heritage significance of the area in which the development is located;
 - (m) the compatibility of the development with its setting, including —
 - (i) the compatibility of the development with the desired future character of its setting; and

- (ii) the relationship of the development to development on adjoining land or on other land in the locality including, but not limited to, the likely effect of the height, bulk, scale, orientation and appearance of the development;
 - (n) the amenity of the locality including the following —
 - (i) environmental impacts of the development;
 - (ii) the character of the locality;
 - (iii) social impacts of the development;
 - (o) the likely effect of the development on the natural environment or water resources and any means that are proposed to protect or to mitigate impacts on the natural environment or the water resource;
 - (p) whether adequate provision has been made for the landscaping of the land to which the application relates and whether any trees or other vegetation on the land should be preserved;
 - (q) the suitability of the land for the development taking into account the possible risk of flooding, tidal inundation, subsidence, landslip, bush fire, soil erosion, land degradation or any other risk;
 - (r) the suitability of the land for the development taking into account the possible risk to human health or safety;
 - (s) the adequacy of —
 - (i) the proposed means of access to and egress from the site; and
 - (ii) arrangements for the loading, unloading, manoeuvring and parking of vehicles;
 - (t) the amount of traffic likely to be generated by the development, particularly in relation to the capacity of the road system in the locality and the probable effect on traffic flow and safety;
 - (u) the availability and adequacy for the development of the following —
 - (i) public transport services;
 - (ii) public utility services;
 - (iii) storage, management and collection of waste;
 - (iv) access for pedestrians and cyclists (including end of trip storage, toilet and shower facilities);
 - (v) access by older people and people with disability;
 - (v) the potential loss of any community service or benefit resulting from the development other than potential loss that may result from economic competition between new and existing businesses;
 - (w) the history of the site where the development is to be located;
 - (x) the impact of the development on the community as a whole notwithstanding the impact of the development on particular individuals;
 - (y) any submissions received on the application;
 - (za) the comments or submissions received from any authority consulted under clause 66;
 - (zb) any other planning consideration the local government considers appropriate.
- (3) Subclause (1) has effect despite the zoning table for this Scheme.

18. NEW OR URGENT BUSINESS INTRODUCED BY DECISION OF THE MEETING

New business of an urgent nature introduced by decision of the meeting. Best practice provides that Council should only consider items that have been included on the Agenda (to allow ample time for Councillors to research prior to the meeting) and which have an Officer Report (to provide the background to the issue and a recommended decision).

19. MATTERS FOR WHICH THE MEETING MAY BE CLOSED
