1 Program Governance Outline

1.1 Program Overview

The Wheatbelt Secondary Freight Network (WSFN) in the Main Roads WA Wheatbelt region comprises some 4,400km of Local Government managed roads that connect with State and National highways to provide access for heavy vehicles into the region. These roads are intended to enable large, high productivity trucks safe and cost-effective access to business. The WSFN project is developing a submission, with the supporting evidence and documentation required, to seek the addition of a program of road improvements across the network be added to the Infrastructure Australia (IA) Priority List.

The efficiency of supply chains serving industries in the Wheatbelt region is determined by the performance of the weakest link. Failure to maintain and improve productivity of the secondary freight network will reduce the international competitiveness of the Wheatbelt agricultural sector, which underpins employment and economic activity in the region. Transport links need to be addressed if the production of this sector is to be supported.

1.2 Goals

The 42 Local Governments (LGs) that collectively manage roads that comprise the Wheatbelt Secondary Freight Network are seeking to:

1. Efficiently deliver Stage 1 pilot projects funded through the Federal Government Roads of Strategic Importance (ROSI) program with State and Local Government co-contributions;
2. Develop a prioritised program of works for Stage 1 based on available funding (approximately \$87.5 million in funding for on-ground works), priority and deliverability.
3. Complete an "IA Stage 4 Business Case" submission covering the unfunded work needed to develop the WSFN to meet to industry requirements and submit this to Infrastructure Australia for inclusion on the Infrastructure Priority List (IPL).

1.3 Background

The 42 LGs of the Wheatbelt region have worked collaboratively for over 4 years to identify and now secure funding to improve secondary freight network routes on Local Government Roads in the Wheatbelt.

The 42 LGs have worked collaboratively with a number of State Government Departments to develop this plan and secure the Federal funding and this level of collaboration is unprecedented. In order to ensure ongoing success it is imperative that governance to deliver this program be established to administer the available funds and deliver the agreed outcomes in a transparent, reportable manner to the satisfaction of all parties; Local Governments, States Government and the Commonwealth.

\$70 million of Federal funding (ROSI) has been allocated and this has been matched with State funding of \$17.5 million (reflecting the 80/20 funding agreement). The State funding will be sourced two thirds from the State and one third from the Local Governments whose assets are being upgraded.

The available \$87.5M will not be sufficient to upgrade all the identified 80 routes and good governance of this program, and ongoing collaboration between all parties, will be critical in securing additional funding.

In addition to this the Shire of Koorda has received a REDS grant of \$100k for 2019/20 to engage a project manager for this project.

1.4 Purpose of the Program Governance Plan

The purpose of this Program Governance Plan (PGP) is to identify how key governance and administrative aspects will be undertaken to ensure successful delivery of the program. It will assist to outline the structure and processes for decision making and consultation within the Wheatbelt Region Regional Road Groups (WR RRG), their respective Sub-Groups and Local Governments. It will address who has responsibility for decision making on specific components. The PGP will provide a framework and guidelines for all members of the WSNF program to operate within. It also outlines how key administrative roles associated with program management such as stakeholder engagement, funding acquittal, project development and delivery and general correspondence will be undertaken. The PGP links all administrative tasks into a single concise document that members of the program governance team can regularly refer to.

The PGP will be used to communicate to all stakeholders how the program will be governed. It also provides a reference from which the governance of the program can be evaluated at any point in time and modified or improved as required.

The process and procedures outlined in this PGP will enable Wheatbelt North and Wheatbelt South RRGs and the WSNF Steering Committee to make decisions in accordance with in the PGP. This approach would mitigate the need for every decision to be considered by all 42 Shires and would therefore enable swifter decision making.

1.5 Governance and Delivery

Given this funding is for Local Governments and all improvements are on Local Government assets it is appropriate that Local Government representatives determine program prioritisation, project selection, and appropriate standards and are responsible for design and delivery of the works.

It is proposed to split the Local Government responsibilities for this program delivery into three areas;

- Governance
 - Provide sound governance
 - Overall program management
 - Administration
- Management
 - Design and scoping of projects.
 - Delivery of individual identified projects
- Administration
 - Funding breakdown.
 - Funding acquittal.
 - Program agreements.

1.6 Formal Agreement

This PGP should be read in conjunction with the Program Delivery Plan and the Multi-criteria Analysis (MCA) Methodology documents that provide operational details about how the work will be delivered.

As outlined later in the PGP it is proposed that all 42 Local Governments are to formalise their commitment to WSNF Program, to be eligible for future funding and project consideration, via a formal resolution of Council, which will entail the presentation and acknowledgement of the following WSNF program documents:

- Project Governance Plan
- Program Delivery Plan
- MCA Methodology.

The 42 Council resolutions will be collated as addendums to a formal agreement (either a Deed of Agreement / Memorandum of Understanding, with exact terminology to be confirmed) that the Regional Road Group will sign with the Federal and State Governments on behalf of all 42 LGs associated with the WSNF program formalising the ongoing commitment to the program.

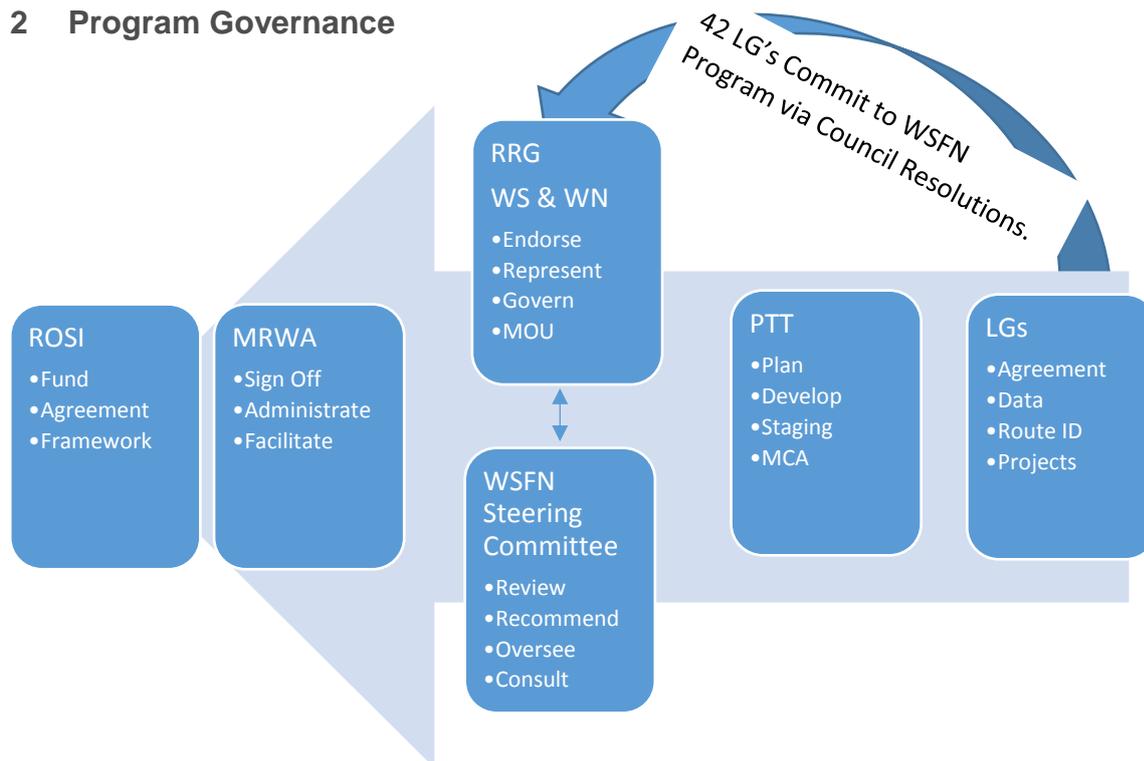

The following provides an overview of the delegations and approval processes for each relevant stakeholder group associated with WSNF program governance and delivery.

| Document | WSFN Steering Committee | LG | RRG |
|------------------------------|--------------------------------|-----------|------------|
| Formal Agreement | Prepare & Submit | Commit | Approve |
| Governance Plan | Prepare & Submit | Receive | Approve |
| Program Delivery Plan | Prepare & Submit | Receive | Endorse |
| Preliminary MCA | Prepare & Submit | Receive | Approve |
| Annual Report | Prepare & Submit | Receive | Receive |
| Staging Plan | Prepare & Submit | Receive | Endorse |
| Annual Program Budget | Prepare & Submit | Receive | Endorse |
| Specific Projects | Approve | Commit | Receive |

The Program Delivery Plan will be a “live” document that will evolve as the program and its various projects are delivered. It is envisaged that this document incorporate various learnings undertaken over the course of the program.

In submitting Program Proposal Reports to the Commonwealth Department of Infrastructure, Transport, Cities and Regional Development, that are required to enable payments from the Commonwealth to be made, Main Roads WA will confirm that the Program Delivery Plan and Annual Program Budget have been developed in accordance with the approved Governance Plan and that the projects have been delivered in accordance with the plans and budgets as amendment from time to time.

2 Program Governance

2.1 Federal Government

The Australian Federal Government intends to invest \$4.5 billion over ten years to the Roads of Strategic Importance (ROSI) initiative to help connect regional businesses to local and international markets, and better connect regional communities.

The WSFN Stage 1 prioritised program and on-ground capital works, up to a value of \$87.5 million, will be completed through the provision of Federal Government ROSI funds (\$70 million) along with matching State Government funds (\$11.7 million) and Local Government (\$5.8 million) co-contributions. The envisaged timeframe for this is 3 – 5 years subject to funding arrangements outlined by the Federal Government.

The Federal Government will:

- Provide guidance regarding program delivery and funding arrangements for WSFN program in-line with the ROSI requirements.
- Note Agreement between the 42 Local Governments of Wheatbelt North & Wheatbelt South Regional Road Groups (RRGs) regarding on-going support for investment in the WSFN and governance arrangements.
- Note a 5 year Staging Plan.
- Approve annual program plan through the Program Proposal Report (PPR).
- Provide funding to WA State Government via Main Roads WA in alignment with agreed milestones.

2.2 State Government (Main Roads WA)

Main Roads WA (MRWA) will represent the State Government in financial arrangements with the Commonwealth Department of Infrastructure, Transport, Cities and Regional Development and provide the link between the Federal Government and the WSFN. MRWA

will review the processes undertaken by RRGs, WSFN and associated LGs and approve when satisfied that these process have been complied with.

Federal and State Government funding will be managed through Main Roads WA. Main Roads WA will fulfil the public financial administration role as it does with the Regional Road Groups.

- MRWA Wheatbelt Regional Manager to sign off on individual projects.
- MRWA Wheatbelt Regional Manager to ensure the various projects are delivered in accordance with the project plan
- MRWA to administer funds.
- Reporting implementation of the WSFN Program will be an additional funding stream within the Wheatbelt North and Wheatbelt South Regional Road Groups.

2.3 Wheatbelt North and Wheatbelt South Regional Road Groups

The WSFN Program will use existing governance structures and decision-making processes within the Wheatbelt North (WN) and South (WS) Regional Road Groups.

The RRGs will make decisions in accordance with agreed processes and procedures based upon advice from WSFN Steering Committee and the PGP. Its specific roles and responsibilities will entail:

- WS & WN RRGs to enter into a formal agreement representing all 42 LGs confirming their inclusion in WSFN program.
- Receive and acknowledge Steering Committee decisions.
- Endorse Governance Plan under which the Steering Committee will operate.
- Approve Multi Criteria Assessment as recommended by Steering Committee
- Receive and Note the Annual Report as presented by Steering Committee
- Endorse the Program Staging Plan.
- Endorse the Annual Program Budget

Should WN & WS when approving programs not come to an agreed position it will be referred to mediation group comprising of RDA-W, WALGA and MRWA.

2.4 WSFN Steering Committee

The purpose of the Steering Committee is to provide oversight and governance to the program.

The Steering Committee is made up of the following members:

Voting Delegates

- 2 x Wheatbelt North Regional Road Group (WN RRG) Elected Members
 - Chairperson plus 1 other delegate
- 2 x Wheatbelt South Regional Road Group (WS RRG) Elected Members
 - Chairperson plus 1 other delegate

Non-Voting Delegates

- WSFN Program Technical Director (ex-officio from LG)
- WA Local Government Association (WALGA)
- Regional Development Australia - Wheatbelt (RDA-W)
- Main Roads WA - Wheatbelt Region (MRWA-WR)

- Wheatbelt Development Commission (WDC)

The Elected members are nominated to the Steering Committee for a two year term at the first RRG meeting following the LG elections. The Chairperson shall be elected at the first WSNF Steering Committee meeting following the LG elections.

Should the Steering Committee be unable to reach an agreed position it will be referred to mediation group comprising senior officers appointed by RDA-W, WALGA and MRWA.

The Steering Committee would work to set the goals and outcomes for the program in order for the Program Technical Team (refer Section 2.5) to develop a program brief and manage the consultant engagement process. Key roles would include:

- Set the goals and outcomes for the program.
- Provide political representation with State and Federal governments as well as their relevant authorities and departments.
- Identify funding opportunities and sources.
- Provide communication and consultation back to the WN and WS RRGs.
- Provide a collaborative approach to program delivery across multiple organisations.

The Steering Committee will recommend decisions to RRGs and approve the commitment of funds to individual LGs in accordance with agreed processes and procedures outlined in WSNF Governance Plan.

Specific roles and responsibilities of the Steering Committee will be to:

- Review and recommended to RRGs
 - proposed routes within each sub-group.
 - approved Multiple Criteria Analysis process.
 - prioritisation of the 80 routes in accordance with the agreed Multi Criteria Assessment
 - work programs for future years and project prioritisation plans.
- Approve projects and allocation of project funding on an annual basis against agreed scope and budget with individual Shires.
- Consult and communicate with their respective sub-groups and member LGs.
- Ensure relevant information is presented to each RRG meeting for consideration.
- Prepare annual reports of achievements in the previous year
- Report on decisions made and program progress to Regional Road Groups and Main Roads

2.5 Program Technical Team

The PTT would be a technical working group consisting of the WSNF Program Technical Director and Project Manager as well as a Technical Advisor from each RRG.

The PTT will also have the ability to co-op specific technical resources as and when is required.

The role of the PTT will be to undertake a multi-organisational approach to deliver all the components of the program. Key responsibilities will entail.

- Engage consultants as required to deliver the program outcomes.
- Prioritise the 80 routes in accordance with the agreed Multi Criteria Assessment.
- Prepare work programs for future years.
- Prepare annual reports of achievements in the previous year.
- Prepare scope for future works to ensure consistency along identified routes.
- Allocate budgets against agreed scopes with individual Shires.
- Report on decisions made and program progress to Steering Committee and Working Group.

2.5.1 Program Technical Director

It is proposed that this role is undertaken by a representative of a Local Government within the Wheatbelt Regional Road Groups. Their roles and responsibilities will entail:

- Technical Member of the Steering Committee.
- Chairperson and coordination of PTT.
- Review of Project Brief and Budget as prepared by the Project Manager and present to Steering Committee.
- Oversee Project Manager in conjunction with employing LG.

The Steering Committee will make a recommendation to the RRGs to approve the appointment of Program Technical Director for an initial period of 3 years commencing October 2019, and every 2 years thereafter, outside of an election cycle.

2.5.2 Project Manager

The Project Manager will form part of the Program Technical Team and will be an integral key to successful program delivery. The complexity and scale of this program is significant and well beyond the technical and financial capabilities of the Wheatbelt Local Government staff on an individual basis. Engaging an external Project Manager with the skills and expertise required to work with the PTT, relevant LG officers as well as technical consultants will ensure a cohesive and collaborative environment is established for optimum outputs.

The Project Manager will direct the work of the external technical consultants and will be the main contact for communication between the PTT and external consultants.

Key roles of the Project Manager will be to undertake streamlined planning and coordination of activities associated with finalising the assessment, prioritisation and delivery of Stage 1 priority projects with relevant LGs. The activities include:

- Refine design criteria and develop preliminary standards and designs
- Consolidate existing data to gain an understanding of road user requirements, the physical site, and environmental context and constraints
- Undertake a study of quantified issues and opportunities, for input into route prioritisation.
- Collation and review of existing road condition and traffic data and program scopes.
- Identify priority projects and the proposed scope and timing for staged implementation of planned network
- Refine a route prioritisation MCA tool and conduct analysis of selected routes.
- Develop a route staging plan.
- Collection of additional, more detailed road condition and traffic data and project scope refinement.

- Site visits including cursory visual inspections would be undertaken to support desktop activities and to inform gap assessment.
- Development of detailed investigation and survey of Stage 1 priority projects. Supporting investigations that may be required which would include feature survey, environmental surveys, traffic surveys, utility services investigations (such as potholing), geotechnical and hydrological investigation.
- Development of “approved” and funded shovel ready projects
- Allocation for specific design or engineering investigations for immediate priority works (environmental, geotechnical, survey, detailed design).

The Shire of Koorda will be the auspice of the funding of the Project Manager for a nominal period of 3 years commencing 2019 (nominally October) as per the REDS Funding agreement.

2.6 LGs

- 42 Local Governments are to formalise their commitment to WSNF Program, to be eligible for future funding and project consideration, via a formal resolution of Council, which will entail the presentation and acknowledgement of the follow WSNF Program documents:
 - Program Governance Plan
 - Program Delivery Plan
 - MCA Methodology.
- Provide necessary data to PTT to be utilised as part of MCA process and Staging Plan.
- Assist PTT with development of Staging Plan by identifying routes and assessing deliverability within the timeframes and parameters of the WSNF Program.

WSFN

WHEATBELT SECONDARY
FREIGHT NETWORK

MULTI-CRITERIA ANALYSIS METHODOLOGY

In order to demonstrate best outcomes and value for money it is necessary to develop a transparent process to identify which routes have the highest priority for the limited available funding. A preliminary prioritisation of the Wheatbelt Secondary Freight Network routes was performed to provide an initial example of the future process and assist in identifying high-value routes. A simple multi-criteria analysis (MCA) was developed to score each route on the available data. This was undertaken as part of the Business Case development and funding submission process.

The objective of the MCA is therefore to accurately reflect the relative need for upgrade works for each route across the network. To achieve this, the MCA must be based on clear and justifiable scoring system that uses good-quality and verifiable data.

Following the Preliminary MCA development the WSNF team have been able to obtain additional more detailed data from the Revitalising Agricultural Region Freight (RARF) strategy being coordinated by the WA State Government. This data will be distributed to the WSNF Steering Committee via Main Roads WA. The additional data will be incorporated as part of the development of a Revised MCA.

This document summarises the Revised MCA methodology of prioritising the 80 Secondary Freight Routes of the WSNF program.

The criteria upon which each route will be assessed in the MCA includes:

- Average Daily Traffic
 - as submitted by LGAs
 - which would actually be “peak season” traffic
- Equivalent Standard Axles / per day
 - as submitted by LGAs
 - which would actually be “peak season” traffic
- Seal Width
 - Linearly relates to percentage of road below minimum 7M requirement for seal width.
- Road Safety
 - ROSMA as per RARF data
 - KSI
- Road Condition Data
 - as submitted by LGAs
 - Simple Condition Grading Model - IPWEA, 2015, IIMM, Sec 2.5.4

Input Data

Data will be collated from a range of sources as summarised below. These data sources fall under two general categories, relating either to the condition or utilisation of each route (see further explanation below):

| Category | Data Set | Description |
|-------------|----------------|--|
| Condition | ROSMA KSI Rate | ROSMA data will be supplied by Main Roads WA. It captures the rate of 'Killed or Serious Injury' (KSI) incidents on a route. |
| Condition | Seal Width | The seal width of the road described as a percentage of the route length, allowing an average seal width will be applied across the route. Seal width will be compared to a minimum seal width of 7m as per a Type 5 road. |
| Condition | Road Condition | Shire's have assessed road condition on a one to five scale, which has been applied as a direct metric. Five indicating very poor condition |
| Utilisation | ADT Counts | Average Daily Traffic counts provide data on the average number of total vehicles traveling on a road per day over the measurement period, capturing both heavy and light vehicle use. |
| Utilisation | ESA Counts | An Equivalent Standard Axle is defined as a dual tyred single axle transmitting 8.2 tonne to the pavement. ESA counts are therefore reflective of the total number and load of heavy vehicles that impact a road. |

MCA Process

The MCA will use a three-step process to incorporate all routes into a final ranking system:

- Each set of data is scored on a consistent scale (e.g. 1 to 5) based the range of results in the data set. For example, if average daily traffic counts (ADT) range from a minimum of 100 to a maximum of 600 then the following scores could be applied (example only):

| ADT Range | ESA Range | Seal Width (m) | ROSMA (KSI) | Road Condition | Score |
|-----------|-----------|----------------|-------------|--|-------|
| 100 – 199 | 0 - 25 | > 8 | 0 | Excellent: only planned maintenance required | 1 |
| 200 – 299 | 25 – 50 | 7 - 8 | 0.2 | Good: minor maintenance required plus planned maintenance | 2 |
| 300 – 399 | 50 - 75 | 6 - 7 | 1 | Fair: significant maintenance required | 3 |
| 400 – 499 | 75 – 100 | 5 - 6 | 1.5 | Poor: significant renewal/rehabilitation required | 4 |
| 500 - 600 | > 100 | < 5 | 2 | Very Poor: physically unsound and/or beyond rehabilitation | 5 |

- The scores for each set of data are then combined using weightings (%) to reflect the importance of each set of results in establishing the need for works (example below). This system will be supported by a descriptive justification for the weighting applied to each set of data:

| Data Set | Example Score | Weighting | Final Score |
|--------------|---------------|-------------|---------------------|
| A | 2 | 10% | 0.2 |
| B | 3 | 20% | 0.6 |
| C | 4 | 30% | 1.2 |
| D | 1 | 40% | 0.4 |
| Total | | 100% | 2.4 out of 5 |

- The final score for all routes are then compared to rank the routes according to a simple priority system e.g. high, medium and low.

Application of Weightings

The weightings applied to each set of data must be reflective of the actual need for upgrade/repair works. At a high level, the need for the works stems from:

- The current condition of the route and how far this is from an ideal standard
- How much the route will be utilised, primarily by heavy vehicles

Anecdotal feedback to-date has been that heavy vehicles generally choose routes based on travel time, irrespective of road condition. The result being that particular routes will quickly deteriorate if they are not maintained to a high standard – at significant cost to the affected Local Government. As an initial base it is therefore proposed that Condition and Utilisation categories collectively each receive equal weightings of 50%. This initial system is illustrated below:

| Category | Suggested Category Weighting | Data Sets | Individual Weighting |
|-------------|------------------------------|--|---------------------------------|
| Condition | 50% | KSI Rate Seal Width Road Condition | To be developed (sum to 50%) |
| Utilisation | 50% | ADT ESA | To be developed (sum to 50%) |

It is noted that a higher weighting has been applied to ESA counts as this is reflective of the number of freight vehicles. Freight vehicles account for the majority of road costs and potential benefits through reduced VOC and repairs/reconstruction costs, these costs are generally proportional to total ESA numbers.

Under this system a highly utilised route in moderate condition may be prioritised over a route that is in poor condition but is seldom used. In refining and finalising the MCA weightings, agreement will need to be reached on what weightings approach will achieve the best value-for-money considering the root causes of costs and the expected future utilisation of each route.

The criteria will be weighted according to relevance to the overall investment decision and these totals to produce the upgrade priorities for each route. The route prioritisation will be produced and presented using a high-level four stage project implementation schedule.

Project Funding

Funding will be considered for the highest priority projects and will proceed provided the relevant Local Governments commit to providing the necessary match funding (one third of the States 20%).

Some routes will have more challenges than others (environmental, land, heritage, utilities etc.) but this does not change the prioritisation. It may, however, impact on the year of delivery as more time may be required to get to delivery stage. In this case appropriate development funding will be provided to these high priority projects.

Once a route is funded a route specific project plan will be developed in accordance with the project management plan and each Local Government involved in development and delivery will sign up to a detailed scope of what is to be delivered and an associated agreed fixed budget will be allocated.

Additional Pavement Condition Data

It is proposed that TSD or FWD data is used to determine pavement condition. These data sets can be obtained through undertaking tests on all 80 of the identified routes. This data provides an indication of the nature and status of the existing road pavement including an indication of the relative residual life of the pavement in terms of equivalent standard axles (ESAs). The life of a pavement is always measured in ESAs and it is possible to determine the relative residual life of a pavement in terms of ESAs. When combined with ADT predictions a residual pavement life in terms of years can be ascertained. These surveys can be commissioned by the project through existing Main Roads contracts and data provided to Shires for all 80 routes.

| | | |
|-----------|------------------------|--|
| Condition | TSD Pavement Condition | The collection of Traffic Speed Deflectometer data provides information on the pavement condition and remaining residual life of a road and is therefore reflective of future maintenance and/or reconstruction costs. |
|-----------|------------------------|--|

Undertaking the TSD investigation and analysing the data is likely to take between 6-9 months and would unlikely be available until after April 2020.

This will be used to:

- To refine and update Prioritisation List for Priority 2-5 projects and subsequent Staging Plans.
- Provide further clarity on Priority 1 projects if require.

| 2.3 | Project Delivery..... | 6 |

1 Program Delivery

The program delivery structure aims to utilise existing resources across the LGs of the Wheatbelt RRG with input from other key program Working Group member organisation representatives. It also outlines the engagement of a Lead Consultant to undertake project management of the external technical consultancy components of the project.

The WSFN has a strong project management and governance experience, which has been working on this project since 2017. The program has thus far been coordinated by the Working Group, with Garrick Yandle, CEO Shire of Kulin, (previously Executive Manager of Infrastructure with the Shire of Dandaragan) undertaking the role of Program Manager. The Working Group has been in close consultation with all member organisations, key stakeholders, as well as the design consultant and various state government regulatory authorities and potential funding bodies.

As part of the on-going delivery of the program the Working Group consists of the following:

1.1 MRWA

Funding is to be channelled through Main Roads WA to each LG undertaking works. Main Roads will therefore process payments that are demonstrated to be in line with the agreed program management procedures.

- MRWA WR Manager to sign off on individual LGA Projects.
- MRWA to administer funds through the RRG Local Government Interface Manager (LGIM).
- MRWA WR Manager to ensures the various plans are being implemented

- Acquittal and review process for Certificates of Completion and Progress Payments is proposed to be.
 - Progress Payment Certificate - First 50% (once project is approved)
 - Completion Certificate - Final 50% (once project is completed)

1.2 Program Technical Team

The PTT would be a technical working group consisting of the WSNF Program Technical Director and Project Manager as well as a Technical Advisor from each RRG.

The PTT will also have the ability to co-op specific technical resources as and when is required.

The role of the PTT will be to undertake a multi-organisational approach to deliver all the components of the program. Key responsibilities will entail.

- Engage consultants as required to deliver the program outcomes.
- Prioritise the 80 routes in accordance with the agreed Multi Criteria Assessment.
- Prepare work programs for future years.
- Prepare annual reports of achievements in the previous year.
- Prepare scope for future works to ensure consistency along identified routes.
- Allocate budgets against agreed scopes with individual Shires.
- Report on decisions made and program progress to Steering Committee and Working Group.

1.2.1 Program Technical Director

It is proposed that this role is undertaken by a representative of a Local Government within the Wheatbelt Regional Road Groups. Their roles and responsibilities will entail:

- Technical Member of the Steering Committee.
- Chairperson and coordination of PTT.
- Review of Project Brief and Budget as prepared by the Project Manager and present to Steering Committee.
- Oversee Project Manager in conjunction with employing LG.

The Steering Committee will make a recommendation to the RRGs to approve the appointment of Program Technical Director for an initial period of 3 years commencing October 2019, and every 2 years thereafter, outside of an election cycle.

1.2.2 Project Manager

The Project Manager will form part of the Program Technical Team and will be an integral key to successful program delivery. The complexity and scale of this program is significant and well beyond the technical and financial capabilities of the Wheatbelt Local Government staff on an individual basis. Engaging an external Project Manager with the skills and expertise required to work with the PTT, relevant LG officers as well as technical consultants will ensure a cohesive and collaborative environment is established for optimum outputs.

The Project Manager will direct the work of the external technical consultants and will be the main contact for communication between the PTT and external consultants.

Key roles of the Project Manager will be to undertake streamlined planning and coordination of activities associated with finalising the assessment, prioritisation and delivery of Stage 1 priority projects with relevant LGs. The activities include:

- Refine design criteria and develop preliminary standards and designs
- Consolidate existing data to gain an understanding of road user requirements, the physical site, and environmental context and constraints
- Undertake a study of quantified issues and opportunities, for input into route prioritisation.
- Collation and review of existing road condition and traffic data and program scopes.
- Identify priority projects and the proposed scope and timing for staged implementation of planned network
- Refine a route prioritisation MCA tool and conduct analysis of selected routes.
- Develop a route staging plan.
- Collection of additional, more detailed road condition and traffic data and project scope refinement.
- Site visits including cursory visual inspections would be undertaken to support desktop activities and to inform gap assessment.
- Development of detailed investigation and survey of Stage 1 priority projects. Supporting investigations that may be required which would include feature survey, environmental surveys, traffic surveys, utility services investigations (such as potholing), geotechnical and hydrological investigation.
- Development of “approved” and funded shovel ready projects
- Allocation for specific design or engineering investigations for immediate priority works (environmental, geotechnical, survey, detailed design).

The Shire of Koorda will be the auspice of the funding of the Project Manager for a nominal period of 3 years commencing 2019 (nominally October) as per the REDS Funding agreement.

1.3 LGs

Officers from LGs with prioritised projects will be essential to ensure successful delivery of individual projects. This will provide a great opportunity for knowledge sharing and collaboration across the region. It will allow members of the PTT to undertake both informal and formal training of LGA staff to upskill and improve their technical capacity. Where possible neighbouring LGs will be encouraged to share technical, workforce and plant resources to assist in the efficient on-ground delivery of individual projects.

- Individual Shires will provide the following to the Steering Committee for approval before any funding will be released
 - Scope
 - Budget
 - Methodology
 - Delivery
- WSFN 5 Year Plan incorporated in their LTFP.
- Individual Shires incorporate Project Budgets into Council Budgets Annually.
- Funding will be distributed to LGs via MRWA in accordance with Governance Plan.

2 Project Administration

As the WSFN Program and each individual LG project will be funded from three funding sources (Federal, State and Local Governments) it is important to clarify specific aspects with regards to the funding administration and delivery processes.

The Steering Committee put in separate funding submissions for a range of funding sources for both Management (administration, planning and design) Stage, as well as Capital Works Stage of the program. The program has been successful in obtaining funding from the following sources, as well as the required co-contribution from local governments:

| Funding Source | Funding Amount | Stage |
|--|--|---------------|
| Regional Economic Development Grant | \$100K | Management |
| Local Government Co-contribution | \$252K 42 LGs x \$6K each | Management |
| Federal Government | \$70M | Capital Works |
| WA State Government | \$11.7M | Capital Works |
| Local Government | \$5.8M Individual LGs on project by project basis | Capital Works |

2.1 Project Management Funding

The Project Manager is funded by the successful Regional Economic Development (RED) Grant through the WDC and acquitted by the Shire of Koorda. This specifically entails \$100K for a Project Manager to undertake project management.

The Project Manager will be initially contracted by the Shire of Koorda for a period of 3 years commencing 2019 (nominally October) as per the REDS Funding agreement.

Previously 42 local governments were asked to financially contribute to the WSFN project via a budget allocation of \$6,000 which was proposed to be part of a co-contribution towards BBRF. With the unsuccessful BBRF bid, it is proposed that the \$6,000 in financial contributions from each of the 42 local governments totalling \$252,000 be allocated to combine with the RED funding of \$100,000 to become project management pool of approximately \$350,000.

| Funding Source | Funding Amount |
|---|----------------|
| RED Grant | \$100,000 |
| Local Government Co-contribution | \$252,000 |
| In Kind Contribution (approximately) | \$100,000 |
| Project Management Total | \$452,000 |

This would contribute towards the overall project management requirements associated with the delivery of Stage 1 Priority Works over the course of an estimated 3 year delivery timeframe. Funding would contribute towards the following nominal requirements:

| Role | Annual Funds | Comments |
|--|---|--------------------------|
| Project Manager | Nominal \$100,000 per annum of wages, plus superannuation and vehicle allowance and potentially accommodation | \$300,000 across 3 years |
| Project Administration and Communications Officer | Nominal \$20,000 per annum of wages only | \$60,000 across 3 years |

Given the delivery of Stage 1 is likely to go over 5 years, then additional funding will be required for the Project Manager position. It is proposed that this additional funding be sourced via LGs contributing towards the PM as part of the LGs individual project budgets. A nominal figure for each project will be determined via the Steering Committee. As an example, a figure of 0.5% of total program funding (\$87.5M) would contribute approximately \$430K towards funding the Project Manager position. For each \$1M project approximately \$5,000 would be required to funding the Project Manager position. Individual LGs would still need to fund their own design, project management and project delivery of their individual projects.

Additional costs of vehicle and housing also likely to be required for the project manager position over the course the 5 years of delivery. The additional funding from each project would also contribute towards these additional costs.

Total project manager costs over 5 years are likely to be around \$750,000.

It is envisaged that a LG will advertise and employ the Project Manager over a 3 year period to work on the project on a part time basis. LGs with a desire to fulfil this role will be invited to make a submission to the WSFN Steering Committee for consideration. As indicated this contract will initially be managed by the Shire of Koorda for a period of 3 years commencing 2019 (nominally October) as per the REDS Funding agreement.

2.2 Capital Works Funding Administration

2.2.1 Funding Breakdown

The Australian Government will invest \$4.5 billion, including \$1 billion of additional funding committed in the 2019-20 Budget, to the Roads of Strategic Importance (ROSI) initiative to help connect regional businesses to local and international markets, and better connect regional communities.

Stage 1 priority program prioritisation and on-ground works, up to a capital value of \$90M, will be completed through the provision of Federal Government ROSI funds (\$70 million) along with matching State Government funds (\$11.7M) and Local Government (\$5.8M) co-contributions. The envisaged timeframe for this is 3 – 5 years.

| Funding Source | Funding Ratio | Funding Amount |
|-------------------------|---------------|----------------|
| Federal (ROSI) | 80% | \$70M |
| State | 13.3% | \$11.7M |
| LGA (Own Source) | 6.7% | \$5.8M |
| Total | 100% | \$87.5M |

The Federal Government's role will:

- Provide framework and guidelines for funding WSNF program via ROSI.
- Note Agreement with 42 LGs of WR RRG regarding WSNF.
- Note 5 year Staging Plan.
- Approve annual project plan.
- Provide funding to LG via WA State Government.

2.2.2 Funding Acquittal

Main Roads WA (MRWA) will represent the State Government in financial arrangements with the Commonwealth Department of Infrastructure, Transport, Cities and Regional Development and provide the link between the Federal Government and the WSNF. MRWA will review the processes undertaken by RRGs, WSNF and associated LGs and approve when satisfied that these process have been complied with.

Federal and State Government funding will be managed through Main Roads WA. Main Roads WA will fulfil the public financial administration role as it does with the Regional Road Groups.

- MRWA Wheatbelt Regional Manager to sign off on individual projects.
- MRWA Wheatbelt Regional Manager to ensure the various projects are delivered in accordance with the project plan
- MRWA to administer funds.
- Reporting implementation of the WSNF Program will be an additional funding stream within the Wheatbelt North and Wheatbelt South Regional Road Groups.
- Acquittal and review process for Certificates of Completion and Progress Payments is proposed to be.
 - Progress Payment Certificate - First 40% (once project is approved).
 - Progress Payment Certificate - First 40% (once project is commenced).
 - Completion Certificate - Final 20% (once project is completed).

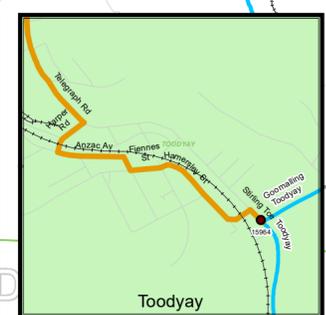

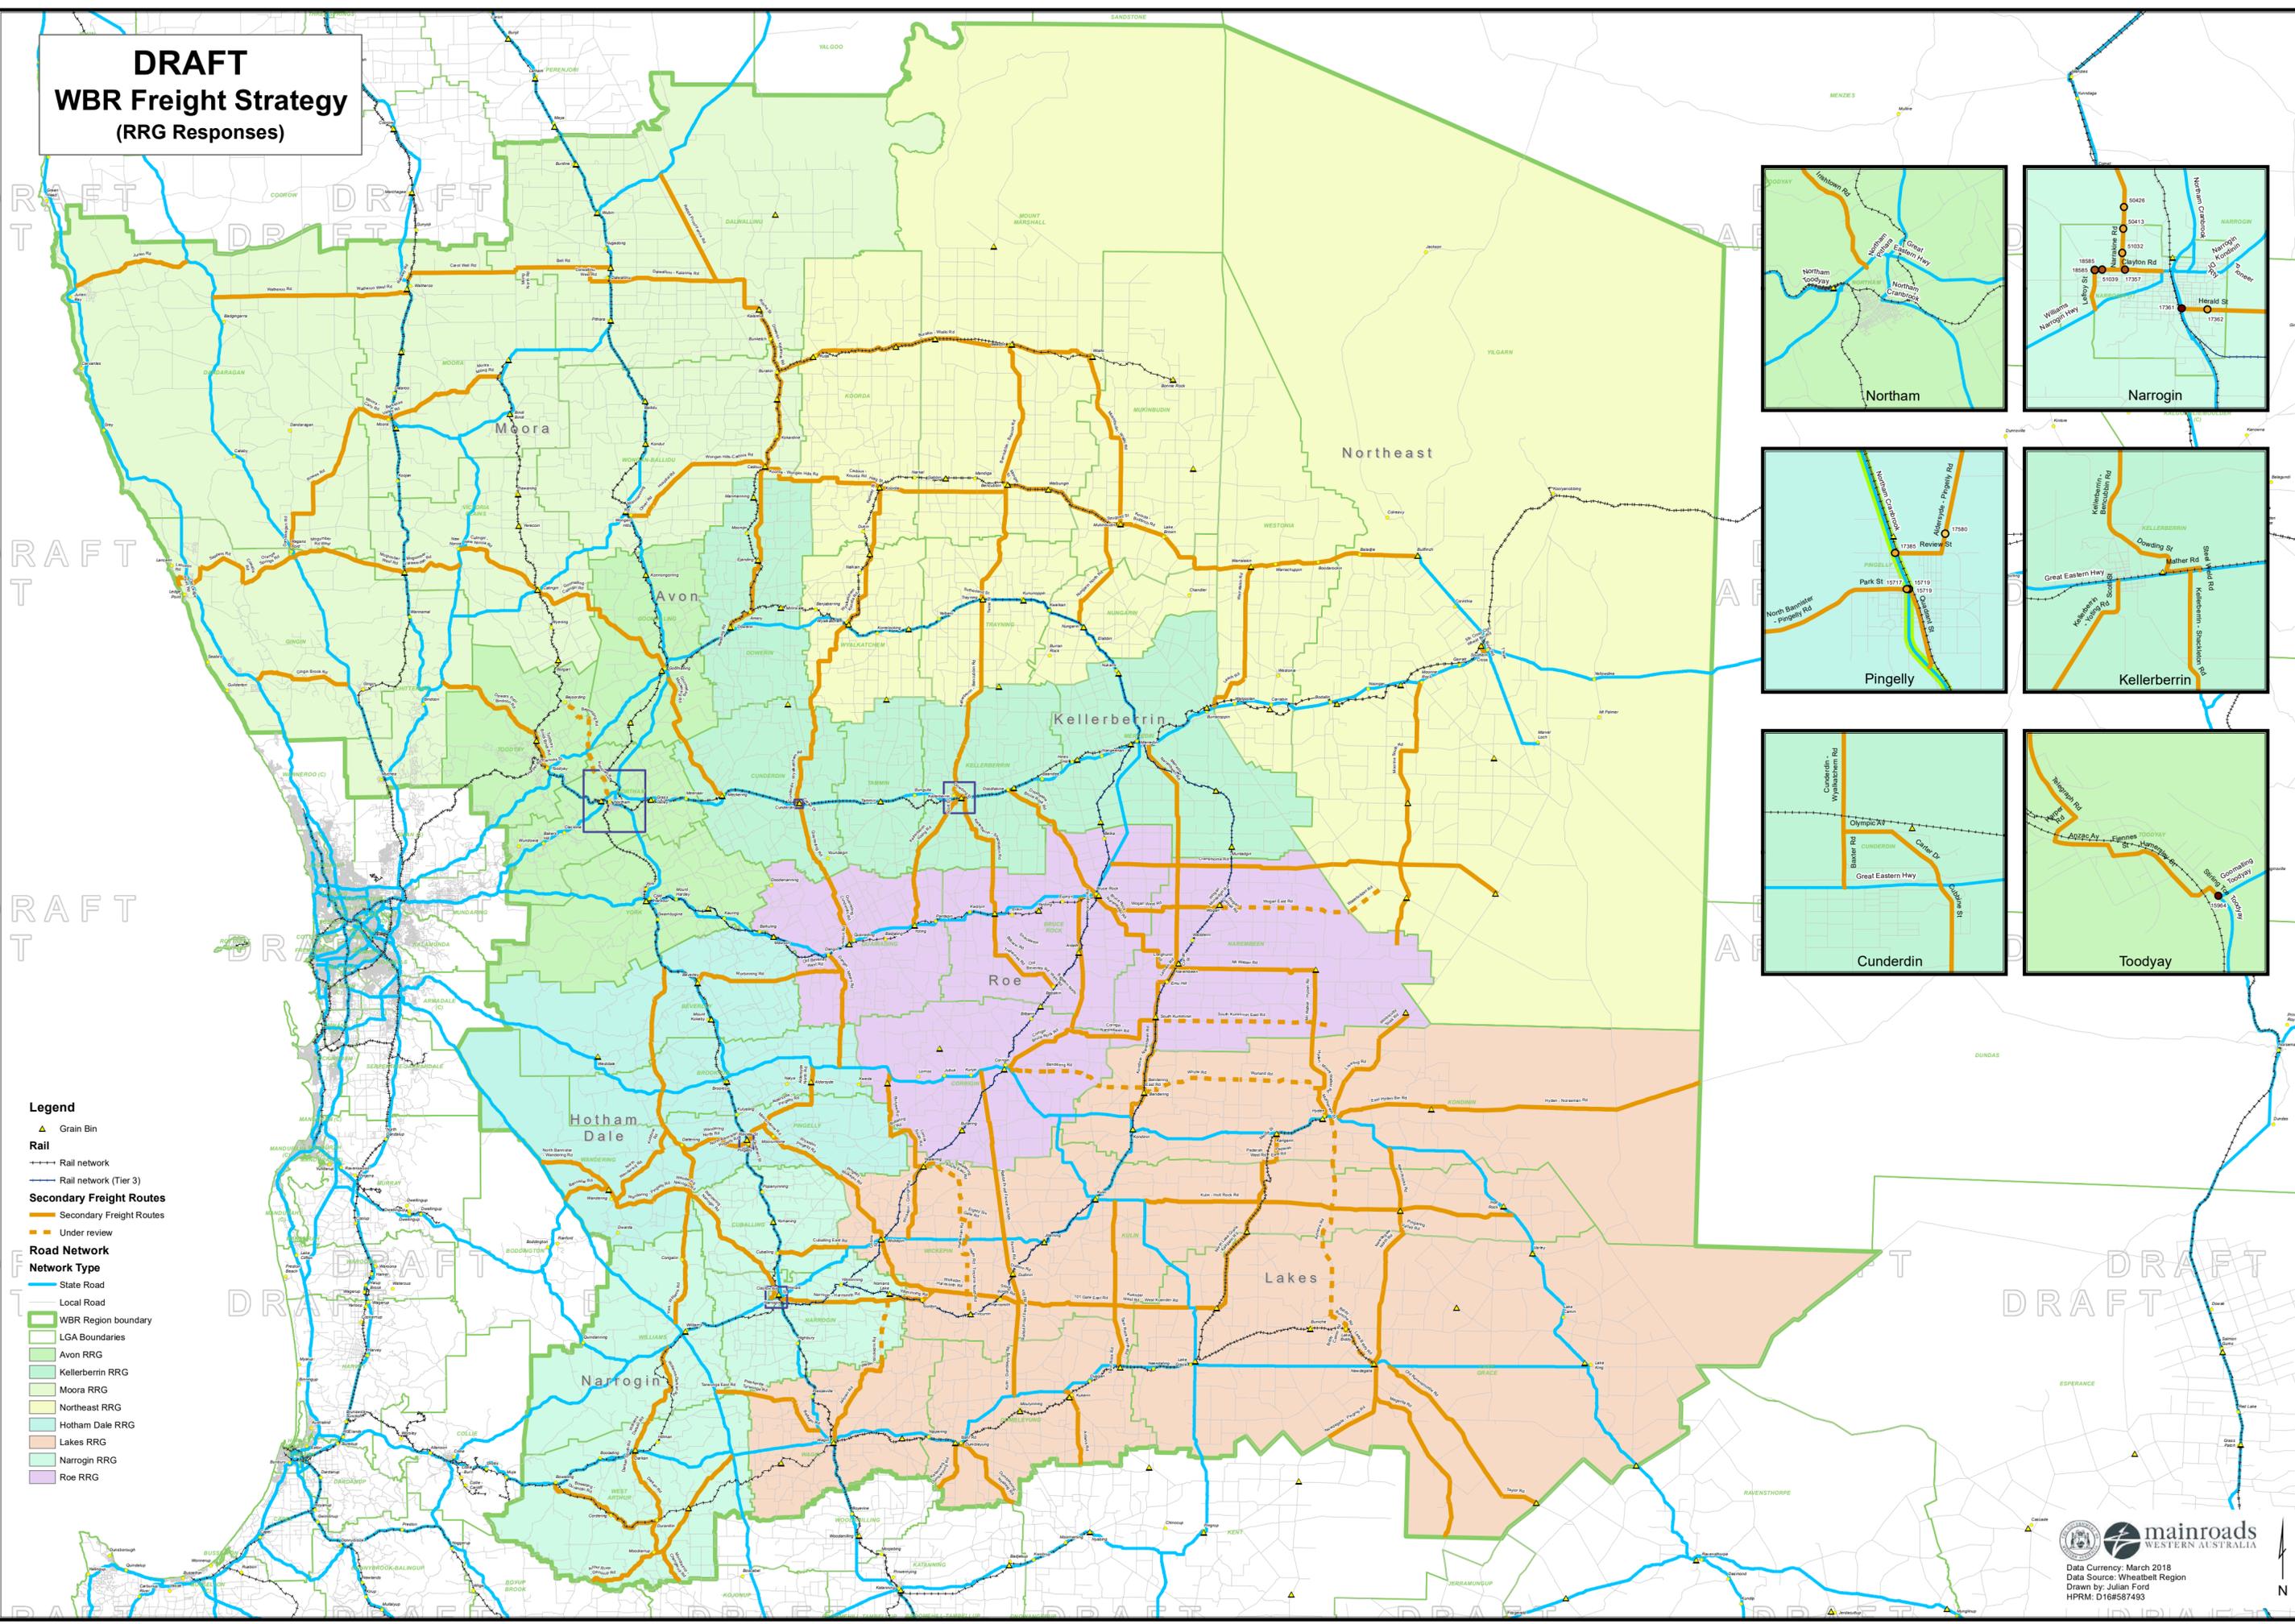

2.3 Project Delivery

The following provides an overview of the key components associated with planning, development, scoping, prioritisation and delivery of on-ground works. It outlines how the Working Group, Steering Committee, PTT and LGs will work together towards successful project delivery.

| Stage | Details |
|--|--|
| 1. Program Staging Plan | <ul style="list-style-type: none"> ▪ PTT will develop a staging plan for program delivery. ▪ Relevant LGs will be informed of their proposed project and indicative budget, scope and year of delivery. ▪ Identification of Funds required for a 4 year program set in advance by project priority lists. ▪ Funding to be limited according to individual LG ability to deliver works. |
| 2. Project Scoping and Approval | <ul style="list-style-type: none"> ▪ Stage 1 priority projects will be determined via the MCA process. ▪ Projects will be scoped and a preliminary budget developed by the PTT in-conjunction with individual LGs. |

| | |
|--|---|
| | <ul style="list-style-type: none"> ▪ Projects prioritisation will be undertaken via an MCA process by the PTT with input from relevant consultants as required. ▪ PTT will make recommendations to the Steering Committee for endorsement. ▪ The Steering Committee will then forward endorsed recommendations through to the relevant WN or WS RRG. |
| <p>3. Detailed Scoping, Design and Budget Development</p> | <ul style="list-style-type: none"> ▪ LGs will develop detailed budgets and designs (if necessary) for nominated Stage 1 priority projects. ▪ LGs are to include projects in their annual budget for the proposed year. ▪ LGs to be responsible for all relevant approvals. ▪ PTT to work with LGs to verify budgets. |
| <p>4. Delivery</p> | <ul style="list-style-type: none"> ▪ LGs will be responsible for tendering, project management and delivery of each project in the proposed year. ▪ PTT to work with LGs to provide technical assistance and advice during delivery. ▪ Incorporate into annual capital works program. ▪ Works already funded from other sources are not eligible for funding under this program. ▪ Cannot use existing funding sources, other than own sources funds, as co-contribution (ie not RRG or Roads to Recovery or Blackspot or Commodity Route funding sources) |

FOREWORD

I am proud to present the Shire of Pingelly's 2020-2030 Strategic Community Plan.

The community has played a major part in the development of this Plan and on behalf of the Council I want to thank everyone who participated in this most important process to chart the future of the Shire.

The members of the community enthusiastically engaged in writing the poem about the vision for the future (see page 22) and gave us a powerful and persuasive vision – *Growing, Inclusive, Resilient*. There is a determination in the community to see Pingelly progress. The Council has a bold target of achieving an increase in the population to take us 1,600 during the term of this plan. This is contrary to the recent trends and the predictions of the Australian Bureau of statistics and the WA Planning Commission but it is an indication of the Council's belief in the capabilities of the community and it reflects the confidence of the funding partners in our recent capital development program that has seen marvellous facilities created for the benefit of our people now and in the future.

The community sees economic development, a future for young people, addressing the needs of older folk and arresting the population decline as key issues for the future. The Plan tackles these issues with its focus on building on the key achievements of the past, strengthening its already strong commitment to engagement and partnership with the community and key stakeholders, and focusing on economic development, short-term accommodation, growing community and branding and marketing.

The Council also wants work closely with Aboriginal leaders to come together in harmony and work towards improved outcomes for Aboriginal and non-Aboriginal people. To this end the plan has provision for the development of a Reconciliation Action Plan by early 2020.

A lot of hard work has been invested in this Plan by the community, the Council and Shire staff. Its success will depend on the strength and commitment of the community to creating the positive future that has been painted. The Council is totally committed to continuing to do its part in achieving the community's vision.

William Mulroney
President, Shire of Pingelly

INTRODUCTION

Welcome to the Shire of Pingelly's Strategic Community Plan. The Strategic Community Plan is a long-term planning document that sets out the community's vision, aspirations for the future, and the key strategies we will need to focus on to achieve our aspirations. It is part of our fulfilment of the Integrated Planning and Reporting (IPR) Framework. All local governments in Western Australia are required to implement IPR which enables robust decision-making.

The Plan will be used to:

- guide Council decision-making and priority setting
- engage local residents and ratepayers, local businesses, community groups, and other local stakeholders that contribute to the future of our community
- inform decision-making with respect to other partners and agencies, including the Federal and State Governments, regional bodies and other local governments in our region
- provide a clear avenue to pursue funding and grant opportunities by demonstrating how projects align with the aspirations and strategic direction of our community and Council
- inform future partners of our key priorities, and the ways in which we seek to grow and develop
- provide a framework for monitoring progress against the community's vision and aspirations

The Strategic Community Plan maps out the Council's intentions for the next ten years, but it is important to note that circumstances can change over the period. Events beyond the Shire's control, such as major storms, or changes to State or Federal government policies may require the Council to rethink the timing of projects, or to reallocate funding to address new issues. The formal planning cycle (see diagram on page 6) allows for regular review and Council has the capacity to review annual budgets. This Strategic Community Plan and the accompanying Corporate Business Plan set the direction for the Shire's future and the Council's service levels and projects.

The draft plan was adopted on 17 July 2019, with the final document endorsed by Council in September 2019. The Plan will be reviewed on a two-yearly cycle, which will alternate between a mini strategic review and a major strategic review.

KEY POINTS OF THE PLAN

SUSTAINED PROGRESS

Over recent years, the Shire of Pingelly has focused on a series of key "game changers" which we believe will underpin our future success as a community. Clear strategic direction and strong community support has enabled us to achieve over \$20 million investment in our future since our first Strategic Community Plan (2013-2023).

Three major projects were the Pingelly Recreation and Cultural Centre (PRACC), Pingelly Age Appropriate Accommodation (PAAA) and the Health Centre. These projects are building blocks towards our vision for the future. Each project reflects the innovation and community partnerships that have become the hallmark of how we work together as a Shire and community.

At the same time the Shire is constantly mindful of the importance of roads, footpaths, parks, gardens, library and other assets, facilities and services that create the foundation for a thriving district. This presents a challenge when balancing costs to maintain and renew assets against the desire for new assets, all in the ability and willingness of households and businesses to pay rates.

In developing this plan, the question was – where to next? What is the right balance of consolidating our asset base and further investments? How do we make the most of the asset base we now have?

After extensive community engagement and deliberation, the strategic priorities outlined below have been identified by the Council for emphasis over the next ten years, and especially over the next four years.

STRATEGIC PRIORITIES

The following priorities will influence the Shire’s ongoing service delivery and asset stewardship roles, and create the focus for major new investment decisions. They will be regularly reviewed through the two yearly Strategic Reviews.

Growing Community

Pingelly has a largely stable population but in the last few years has lost some families with young children. At the same time, there is a gradual increase in the number and proportion of older people, living mainly in the town of Pingelly, and an increase in the proportion of single person households. We believe we can achieve a growing and balanced population, in order to develop the community we want, with a healthy economy and the services and quality of life we desire. Over the next ten years we have set a bold goal of increasing the population to 1600 people, with a focus on attracting and retaining young families.

We will do this while also working to make sure Pingelly is an attractive place for older residents, by providing an age friendly community, with access to the services and accommodation they need. We are exploring innovative models for ageing in place, which will also provide benefits to the local economy, particularly through employment and increased demand for local goods and services.

Economic Development

Farming is the primary economic activity within our district. But if the population is to prosper, business and job creation activities, either linked to or complementing farming activity, need to be developed. It is important that the community leverages off its advantages, for example economic activity linked to the PRACC, or carves out niche businesses built around peoples’ knowledge and skills, or around the agricultural base.

Good quality education opportunities and linkages are key to Pingelly’s future. The Shire, along with its neighbours, needs to explore innovative education models which will deliver the quality of education locally in the pre-school and school years, and links students to longer-term tertiary education and the training pathways they might ultimately pursue.

Short Term Accommodation

It is also essential that with population growth comes access to suitable, affordable housing which gives people choice and signals a confidence in the future. This includes housing for older people, something which has been a focus over the last four years, as well as housing choice for families, accommodation for seasonal and other workers, and more housing for smaller households. It is important that everyone has access to good quality housing.

Branding and Marketing

Promoting Pingelly as a district where the community is open to opportunities, innovative and welcoming is essential to many community aspirations, particularly population growth and economic development. Showing determination and a clear meaningful vision builds confidence and interest among people who might choose to visit, live here, or invest. That confidence can be expressed in many ways, from having an active centre, to branding and shared messages to the wider world. It is important that this message is well thought through and conveyed in a range of ways by the whole community.

KEY CAPITAL PROJECTS FOR DELIVERY

Over the last three years the Shire has undertaken or supported three key projects: development of the PRACC, delivery of Stage 1 of the PAAA and the development of the Health Centre. While the Shire will undertake a number of capital projects over the next ten years, the overall focus will be on consolidating these new initiatives and leveraging further benefit from them. The key projects planned over the next ten years are:

- re-development of the liquid waste storage/ treatment site to ensure full compliance
- further improvement of drainage systems to allow for improved water harvesting for the oval and subsequent extension of collection capacity
- roads upgrade and renewal program
- completion of upgrades of footpaths to make it easier for pedestrians and pram access
- footpath/cycleway from the school to the PRACC
- small upgrades to Pingelly townsite playgrounds

INNOVATION AND COMMUNITY PARTNERSHIPS

The Shire of Pingelly community, supported by the Council, has developed close community involvement in discussions about the future, has explored and used community-based partnerships for community management or advisory working groups around key facilities, and has generally fostered openness and involvement. This innovative approach has been matched by a community driven advocacy for new resources and public facilities. While the Shire can provide leadership and a link to key external agencies, the fact that they are reflecting a strong, united, community base with a clear sense of direction and a strong voice, has been essential to that success. This will continue to be a focus for the future.

FINANCIAL PROFILE

The level of capital development undertaken by the Council over the last five years was ambitious. It has been a major undertaking by a small Shire but it is a measure of the confidence in the leadership of the Shire and the support from the community that the program has been funded through a combination of Federal and State grants, loans and cash from the local government. Over the period of development Shire funds were invested in the new facilities and that meant that some other works or projects were required to be scaled back or delayed. Now that the projects have been completed or are nearing completion there will be a rebalancing of resource allocation and some catch-up in activities that were scaled back. The next few years are a time of consolidation and focus on leveraging the greatest possible return, both economically and socially from the investments made.

The Council will ensure that the strategies identified in this Plan are implemented in a manner that is financially sustainable, minimising as far as possible the financial impost on the local community while improving the financial position of the Shire over time.

A great deal of detailed work has been undertaken on developing fully costed four-year budgets for the Corporate Business Plan and the ten-year budgets for the Long Term Financial Plan, in fact the detailed modeling has been undertaken for a fifteen year horizon. This work shows that while the next four years will be tight requiring strong financial management and careful prioritisation, over the long term the Council will be able to invest in maintenance and renewals of infrastructure and facilities and continue to provide key local services whilst remaining affordable for ratepayers.

Bearing in mind the aspirations of the Plan and the financial constraints, the following approach is being adopted:

Prioritisation

Complete the necessary works associated with the PRACC. Plan for the next stage of the Pingelly Age Appropriate Housing development.

Generally maintain service levels with targeted increases in limited areas particularly where this can be achieved without significant cost increases.

Improve asset management by continuing the process of establishing robust true maintenance costs and optimising the scale and timing of asset replacement and renewal.

Partnerships

Build on the successful Pingelly partnerships approach with the community to achieve more through the pooling of resources and alignment of effort towards common goals.

Revenue

Be “grant ready” by developing plans and business cases for priority projects and programs. Explore ways to generate revenue to reduce the reliance on rates and grants.

Increase rates above the rate of inflation for a period of time to enable financial repositioning to a sustainable footing.

WESTERN AUSTRALIA LOCAL GOVERNMENT INTEGRATED PLANNING AND REPORTING FRAMEWORK

The Integrated Planning and Reporting Framework is shown in the diagram below. The purpose is to ensure that Council decisions deliver the best results for the community with the available resources.

The Strategic Community Plan sets the scene for the whole framework – it expresses the community’s vision and priorities for the future and shows how the Council and community intend to make progress over a ten-year period.

However, it is not fixed for ten years – it would be long out of date by then. Rather, it is a “rolling” plan which is reviewed every two years. The two-yearly reviews alternate between a minor review (updating as needed) and a major review (going through all the steps again). The plan is therefore continuously looking ahead, so each review keeps a ten-year horizon. This is to ensure that the best decisions are made in the short to medium term.

The Corporate Business Plan shows detailed implementation for the next four years.

The “Informing Strategies” – particularly the Long Term Financial Plan, Asset Management Plans and Workforce Plan – show how the Plan will be managed and resourced. The Annual Budget relates to that year of the Corporate Business Plan. Any necessary adjustments are made through the Annual Budget process.

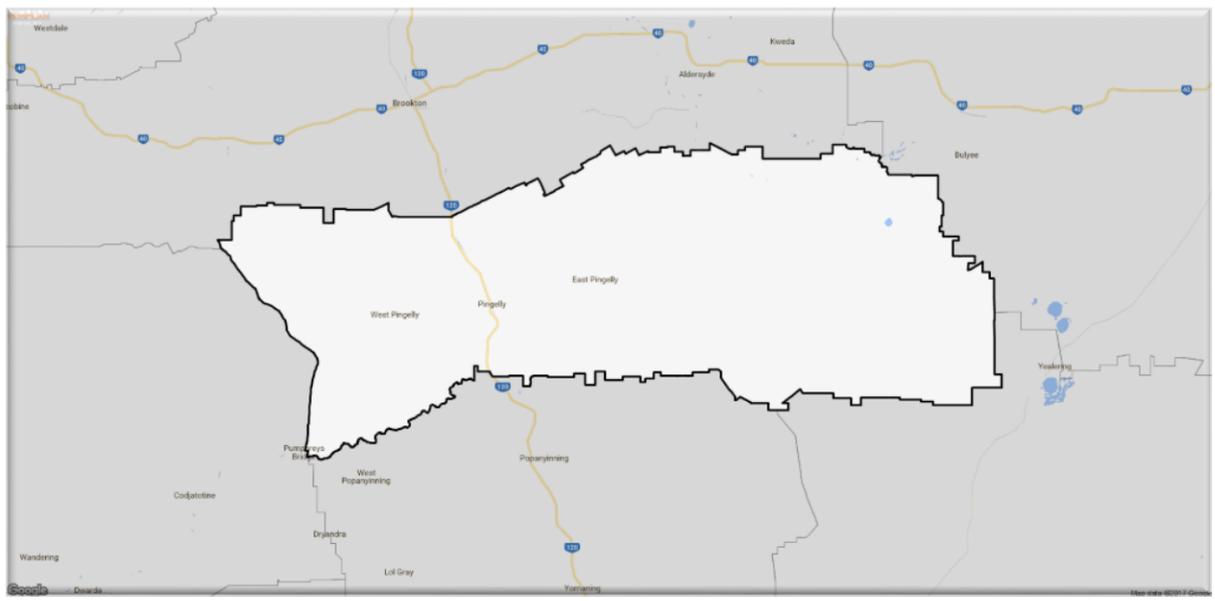

Figure 1: The Planning Cycle

ECONOMIC AND COMMUNITY PROFILE

INTRODUCTION

The Shire of Pingelly is a Local Government Area in the Wheatbelt Region of the Western Australia, located about 160km southeast of Perth. It covers an area of 1,294 km² and is bounded by the Shires of Wandering, Brookton, Cuballing and Wickiepin. The climate is Mediterranean with an average yearly rainfall of 439.7mm which mainly falls during winter. The main localities are the townsites of Pingelly, Moorumbine and Dattening.

POPULATION

The 2016 census recorded the Shire's population at 1,146, a reduction of 18 people from 2011.¹

Table 1: Shire Population 2006 – 2016

| 2006 | 2011 | 2016 | 2018 |

AGE DISTRIBUTION

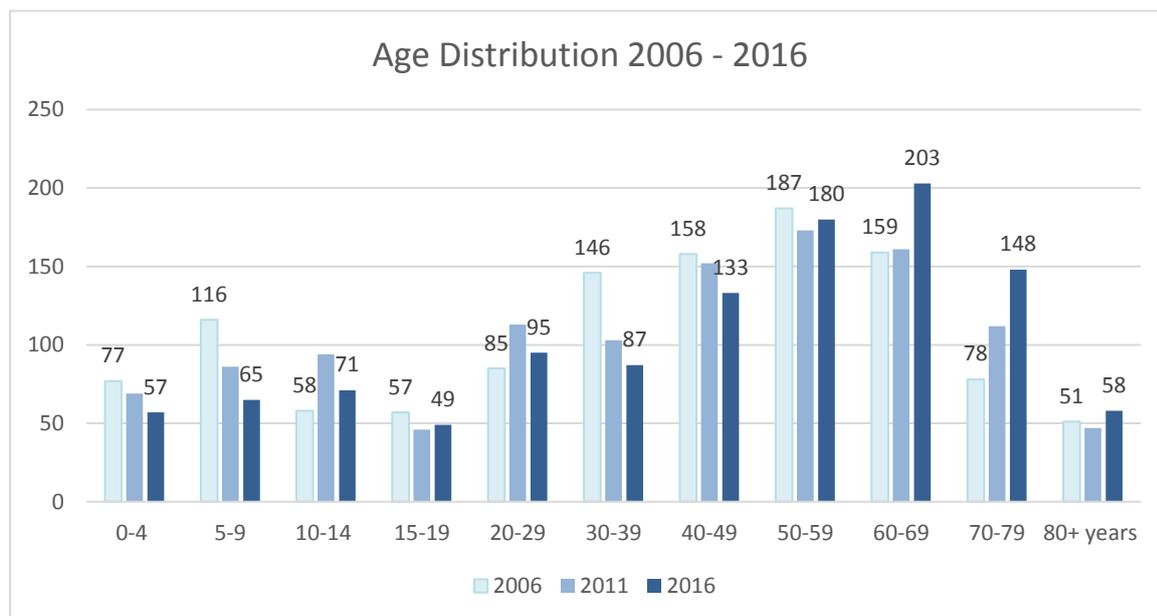

The median age for the Shire is 50 years, up six years from 44 years in 2011. Table 3 and Figure 2 show an ageing profile with a reduction of children under the age of 14 years and an increase of people between 60 and 80 years. The number of people over the age of 80 years has increased slightly.

Table 3: Age Distribution 2006 - 2016

| Age (yrs): | 2006 | | 2011 | | 2016 | |
|--------------|--------------|------------|--------------|--------------|--------------|--------------|
| | Nos | % | Nos | % | Nos | % |
| 0-4 | 77 | 6.5 | 69 | 5.9 | 57 | 5.0 |
| 5-9 | 116 | 9.9 | 86 | 7.4 | 65 | 5.7 |
| 10-14 | 58 | 4.9 | 94 | 8.1 | 71 | 6.2 |
| 15-19 | 57 | 4.9 | 46 | 4.0 | 49 | 4.3 |
| 20-29 | 85 | 7.2 | 113 | 9.7 | 95 | 8.3 |
| 30-39 | 146 | 12.4 | 103 | 8.8 | 87 | 7.6 |
| 40-49 | 158 | 13.5 | 152 | 13.4 | 133 | 11.6 |

HOUSEHOLDS AND FAMILIES

Table 4 shows a shift in household structure with a reduction in the number of family households (couples, households including children and dependents) and an increase in non-family households, particularly single person households. This shift is reflected in the population statistics seen above with an overall decrease in younger age groups.²

Table 4: Household Type 2011 and 2016

| Household type | 2011 | 2016 | Difference No. | Difference % |
|----------------|------|------|----------------|--------------|
| Families | 327 | 299 | -28 | -8.5% |
| Non-families | 138 | 147 | 9 | 6.5% |
| Total | 465 | 446 | -19 | -4.1% |

² As noted above, the ABS adjusts data on a random basis to deal with small sample sizes and protect privacy. Therefore, totals do not always match detailed data in tables provided.

ABORIGINAL/TORRES STRAIT ISLANDER STATUS

The 2016 Census records 143 people who are Aboriginal or Torres Strait Islander living in the Shire of Pingelly, representing 12.5% of the population and a high proportion when compared with the WA average of 3%. This compares with 111 in 2006 and 135 people in 2011.

Table 5: 2016 Aboriginal/Torres Strait Islander Status

| Aboriginal/Torres Strait Islander | Number | Percent |
|--|--------|---------|
| Total Aboriginal or Torres Strait Islander | 143 | 12.4% |
| Non-Indigenous | 886 | 77.2% |
| Not Stated | 122 | 10.4% |
| Total | 1,146 | 100.0% |

Source: [Australian Bureau of Statistics](#), Census of Population and Housing 2011, 2016. Retrieved 15 July 2019. Totals and sub-totals may not agree due to ABS protocols for protecting confidentiality.

COUNTRY OF BIRTH

The 2016 Census shows that there has been a slight increase in the proportion of residents that were born outside of Australia (from 8% to 13%). Table 5 shows the countries of birth of the Shire's residents, based on the top 50 countries identified in the 2011 Census.

Table 6: 2016 Country of Birth of Residents in the Shire of Pingelly

| Country of Birth | Number |
|-----------------------------|--------|
| Australia | 855 |
| Country of Birth Not stated | 142 |
| England | 72 |
| New Zealand | 29 |
| Born elsewhere(e) | 11 |

SOCIO ECONOMIC INDEXES FOR AREAS (SEIFA) SCORES

SEIFA is a suite of indexes that have been created by the Australian Bureau of Statistics (ABS) from social and economic Census information. A low SEIFA score indicates relatively greater disadvantage in general. In 2016, the latest index, shows a SEIFA score for the Shire of Pingelly of 908 (cf 2011 907). Pingelly is the most disadvantaged among its neighbours.

Table 7: 2011 SEIFA scores in Shire of Pingelly and Neighbouring Local Government Areas

| Local Government Area | SEIFA Score | Rank within Western Australia | Rank within neighbouring LGAs |
|-----------------------|-------------|-------------------------------|-------------------------------|
| Wandering | 1004 | 71 | 5 |
| Cuballing | 988 | 61 | 4 |
| Wickepin | 983 | 55 | 3 |

WORKFORCE

According to the 2016 Census, the District has a workforce of 452 people or 39% of the total resident population. Of these, 40 people were unemployed (8.8% of the total workforce) but looking for full time or part time work.

OCCUPATIONS

The largest employed group are Managers followed by Labourers and Community and Personal Services Workers. Within this classification, the largest number of residents reported they worked as Farmers or Farm Managers.

Comparisons with Western Australia show that the Shire has a higher proportion of Managers and a significantly lower proportion of Professionals (9.2% compared with 20.5% for Western Australia).

Table 9: 2016 Occupations in the Shire of Pingelly

| Occupations | Pingelly | | Western Australia |
|--|----------|-------|-------------------|
| | No. | % | % |
| Managers | 136 | 33.0% | 12.0% |
| Labourers | 51 | 12.2% | 9.7% |
| Technicians and Trades Workers | 47 | 11.3% | 16.2% |

| Community and Personal Service Workers | 35 | 8.4% | 10.6% |
| Professionals | 31 | 7.4% | 20.5% |
| Sales Workers | 20 | 4.8% | 8.8% |

Source: [Australian Bureau of Statistics](#), Census of Population and Housing 2011, 2016. Retrieved 15 Jul 2019. Please note this table is based on Place of Work, which is a different basis to that used for the workforce data above

The main industry of employment is in agriculture, forestry and farming. (See Table 10 below). The highest proportion of the District's workforce is employed in the Agriculture, Forestry and Fishing industry (35%), Public Administration and Safety (10%), Health Care and Social Assistance (8.9%), Education and Training industry (8.5%) and Transport, Postal and Warehousing (5.9%).

BUSINESS COUNTS

According to ABS 2017 estimates⁴, the latest available, there were 161 businesses operating in the Shire of Pingelly, a slight drop from 2015. The majority of these businesses were non-employed businesses (97), while 63 had 1-19 employees, and 3 employed 20 or more persons. Family farms are a significant form of business in the Shire.

BUILDING APPROVALS

In 2018, the Shire of Pingelly had building approvals to a total value of \$2 million in comparison with \$4 million in 2015.

MEDIAN HOUSE SALE PRICE⁵

According to the 2019 Real Estate Institute of Western Australia (REIWA) figures, median house sale prices differed considerably across the sub-region. The most expensive houses were sold in Brookton, at a median sale price of \$240,000. The lowest median housing sales figures were reported for Pingelly, at \$95,000.

³ This total differs from the aggregated sub-totals, however it is in accordance with the data provided by the ABS which has been adjusted to protect privacy due to the small population base.

Table 11: 2018/19 Median House Sale Prices for the Shire of Pingelly and Neighbouring Local Government Areas

| Pingelly | Brookton | Cuballing | Wandering | Wickepin |
|----------|-----------|-----------|-----------|-----------|
| \$95,000 | \$240,000 | \$210,000 | \$175,000 | \$130,000 |

ACHIEVEMENTS SINCE THE LAST PLAN

There have been significant achievements since the last Strategic Community Plan (see table below). Major investments in infrastructure and community facilities, plus enhancements to services have substantially improved the livability and prospects of the Shire. Three particularly significant achievements are:

- Securing the **Pingelly Age Appropriate Accommodation (PAAA)** project. This has been funded via the Southern Inland Health Initiative and provides for accommodation designed specifically for older people. The units are located in Community Place near the new Health Centre and will complement the existing cottages managed by the Somerset Alliance. Further development of the sensory garden is being planned alongside the second stage of the PAAA project subject to grants being secured.
- Securing the **new Pingelly Health Centre**. This is also funded by the Southern Inland Health Initiative and provides and up to date emergency department, ambulance bays, Emergency Telehealth Service videoconferencing facilities, four multi-purpose consult rooms enabled with telehealth, group therapy rooms, general practice consultation rooms and treatment spaces.
- Development of the **Pingelly Recreation and Cultural Centre (PRACC)**. This is a major new development which received a major (\$3million) investment from the Shire of Pingelly as well as external grants. It provides an important base for developing local business and community initiatives.

It is worth noting that the Shire was extraordinarily successful in the grant funding it was able to attract for the project which has cost \$10,507,923.16 to 30 June 2019. External funds comprised:

| | |
|---|--------------------|
| - National Stronger Regions Fund | \$3,888,595 |
| - Lotteries West | \$1,000,000 |
| - CRSFF Dept Local Govt Sport and Cultural Industries | \$ 350,000 |
| - Bendigo Bank | \$ 150,000 |
| - Pingelly Times | \$ 10,000 |
| - Pingelly Development Association | \$ 5,000 |
| - PRACC Focus Group | \$ 4,323 |
| - CBH Grassroots | \$ 10,000 |
| - Forestry Products Commission | \$ 20,000 |
| Total | \$5,437,918 |

The thanks of the Pingelly community go to the agencies and organisations which provided this funding and to the many people who were instrumental in achieving this success.

Table 12: Achievements Since Last Strategic Community Plan

|--|---|---|---|
| <ul style="list-style-type: none"> ▪ Options for PRACC – Focus Group Sept 13 ▪ Inception of Health Centre ▪ 2nd phase of staff units in Webb Street completed ▪ New netball courts constructed ▪ Major Road upgrade ▪ Waste Transfer Station | <ul style="list-style-type: none"> ▪ Plan for PRACC ▪ Funding applications for PRACC ▪ Inception of PAAA ▪ New tennis courts completed ▪ Upgraded bottom dam (doubled size) and storage ▪ Major road upgrade ▪ Swimming pool upgrade ▪ New ramps in East Pingelly area for Age-Friendly community ▪ Building upgrades ▪ Resurfaced main street ▪ Youth Group started | <ul style="list-style-type: none"> ▪ Demolition of old Community Centre ▪ Construction of PRACC ▪ Sensory Garden ▪ Site prep for PAAA ▪ Pioneer Park upgrade ▪ Sold Landmark property and 16 Elliott Street ▪ Major Road Upgrade ▪ Shade sails at swimming pool | <ul style="list-style-type: none"> ▪ Completion of PRACC ▪ Completion of Sensory Garden ▪ Completion of PAAA ▪ Completion of Health Centre ▪ MOU with Somerset alliance for management of PAAA ▪ Relocation of cricket wicket ▪ Major Road Upgrade ▪ Completion of Community Place ▪ Funding approved for new bowling green ▪ Leadership training for young people partnering with Camp Kulin and school ▪ Youth Group refreshed |

OTHER MEASURES OF SUCCESS

The 2013-23 Strategic Community Plan included the following measures of success. Some are directly within the control of the Shire of Pingelly and others reflect external influences. Progress since 2013 is summarised below.

Table 13: Other measures of success

| 2013 Strategic Community Plan Measure of Success | 2013 Target | 2012/13 Baseline | 2017/18 |
|---|---------------------|------------------|--------------|
| The proportion of residents who volunteer in the community | Increasing | 32.3% (2011) | 56% (2018) |
| No. of people involved in sporting activities | Increasing | | |
| Level of crime (reported incidents) | Reducing | 108 (2013/14) | 95 (2017/18) |
| % of roads in satisfactory or better condition* | Maintain | 60.3% (73.9%) | |
| Business growth | TBC | 189 (2011) | 161 (2017) |
| No. participating in the community engagement for the development and review of the Strategic Community Plan. | Increasing | 183 (16%) 2011 | 190 (16.5%) |
| Operating Surplus Ratio | 10% or greater | 0.28 | 0.47 |
| Current Ratio: | 1:1 or greater | 4.43 | 0.74 |
| Debt Service Cover Ratio | 2 or greater | 13.07 | 2.92 |
| Own Source Revenue Coverage Ratio | Between 40% and 60% | 0.47 | 0.48 |
| Asset Consumption Ratio | 50% or greater | 0.62 | 0.71 |
| Asset Sustainability Ratio | 90% or greater | 2.25 | 2.90 |
| Asset Renewal Funding Ratio | Between 75-90% | 1.0 | 0.74 |

* The top figure relates to the standard required for each sub-class of roads - good or better for regional and local distributors, and average or better for access roads. The lower figure is the total roads achieving average condition or better.

COMMUNITY ENGAGEMENT

The Shire of Pingelly included extensive community engagement as part of the major strategic review. The results provided vital input to the Council when making decisions on priorities and plans.

The following engagement events were undertaken:

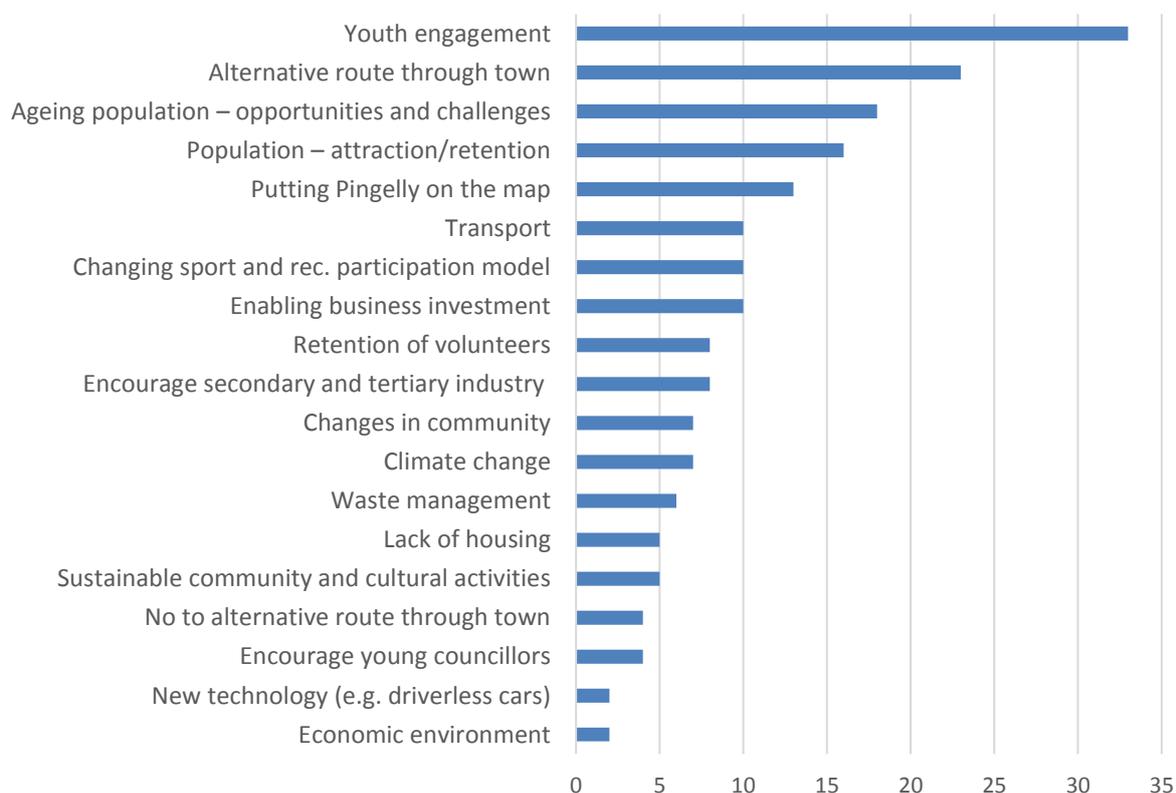

- A community engagement ‘drop-in’ process was held, which was attended by approximately 70 people. This included another Pingelly world first, the creation of a giant Pingelly poem. There was a good spread of participants overall, with the 15-24 age group and the 25-34 age group being somewhat under-represented.
- Statistically valid Community Surveys were undertaken in 2016 and 2018.
- In addition, ten face-to-face interviews were undertaken with members of the Noongar community.

The total number of participants (approximately 190) exceeded the Department of Local Government, Sport and Cultural Industries’ minimum community engagement threshold of 10% of the population.

SUMMARY OF KEY FINDINGS

There was strong community interest in the issues of youth engagement, population (both the need to retain and attract people) and the ageing population. The graph below shows the frequency (number) of times different areas were identified by drop-in participants.

Figure 3: Strategic Issues Facing the Community Over Next 10 Years

The 2018 survey revealed the following:

- Medical services, bush fire control, the community resource centre, roads, rubbish collection, and economic development (in ranked order) rated as the most important services to the community. These services were also the top ranking in 2016 in a slightly different order.
- Economic development was seen strategically important to the Shire's long-term future but performing poorly.
- There was a willingness to pay more for improvements to some key services: medical services, library, roads, community events, bush-fire control, care for the environment and community development.
- There was strong interest in an alternative truck route and a reduced speed limit.
- 47% of respondents rated the Shire of Pingelly's performance as good or excellent and 21% rating it poor or very poor.

Areas for improvement centred mostly on improved roads, particularly rural road maintenance, drainage, economic development, and medical services.

The main concerns identified by the community were:

- Youth engagement
- Opportunities and challenges arising from an ageing population
- Balancing an alternative truck route with retaining other traffic
- Progress on economic development and population growth. This included a need to look at:
 - Population attraction and retention
 - Enabling business investment
 - Encouraging secondary and tertiary industry
 - Tourism
 - Community events
 - The wider economic environment
 - Volunteering
 - The need to promote and maintain what are currently good levels of volunteering in the Shire.

Summary of Community Priorities

Economic and business development was a very significant area for the community. This had a number of facets ranging from ensuring sufficient industrial land was available, to focusing on growing small and medium sized businesses using a range of tools. These included such things as 'buy local' strategies, building on primary strengths via value-add activities, to encouraging local existing businesses to improve and grow. Partnerships with external agencies and key players such as research organisations and universities was a key tool. An important aspect was the need to support young people to transition

from school to either employment or further education. Job creation was essential to this and to the wider health of the community.

Parallel to this was a focus for on-going improvement to those things essential to community life and wellbeing: medical services, safety, facilities etc, and protection of character and the feel of the Shire and town. The willingness to pay more for some targeted services is important information about where to place resourcing effort. Innovation around education choice was also seen as an important end in itself (community wellbeing) and as a tool to help reverse population loss, particularly the loss of young families to the Shire.

FEEDBACK ON THE DRAFT STRATEGIC COMMUNITY PLAN

The Council adopted the Plan for public consultation on 17 July 2019.

The minutes of the 17 July Ordinary Council Meeting were published in the Pingelly Times on 23 July 2019. An article on the content of the Plan was published in the Pingelly Times on 30 July 2019 and the availability of the Plan for public comment was also published in the Pingelly Times on 6 August 2019.

Notices, in accordance with the provisions of the Local Government Act 1995, were placed on the Shire notice board and at the Library located in the Community Resource Centre.

The Plan remained on display for public comment until 15 August 2019.

No substantive submissions were received on the Plan during this period.

KEY ISSUES FACING THE COMMUNITY

After considering the feedback from the community via the Major Strategic review process and input from other recent community processes,⁶ the Council has identified nine broad areas of concern:

- changing State (and to a degree Federal) policy as it relates to investment and support for small rural communities and their regions. A key example is the effort made by the Shire (along with the Shires of Brookton and Beverly) and the community, to plan for and advance further stages of age appropriate accommodation and associated services. This issue remains a high priority for the Shire and it has worked hard to be 'shovel ready' however the anticipated investment by the government has not eventuated.
- young people's futures: the opportunities available to them, their health and safety, and engagement in the community. This includes education opportunities and keeping young people in the Shire, as well as promoting local job opportunities.
- a limited local economy which needs to expand, find new products and activities. This includes enabling business investment and encouraging secondary and tertiary industry, ensuring land is available for future business development, and that major transport routes through the town are appropriate. Improving commercial activity in the town centre and leveraging off that is also a focus.
- a static population and the risk of decline. At some point this raises issues around thresholds for affordable services and long-term viability. Associated with this is the challenge of an ageing population and what that means for the community and community services.
- the need for continued support for older people being able to remain in the Shire via such things as improved housing and care services choice.
- the risk of reduced levels of volunteering which maintains community activities and, in some cases, emergency response capability. For small rural communities, this network of volunteers is often key to community wellbeing and activity. While volunteering levels are good in the Shire at present, there is a risk of declining volunteering rates.
- the need to promote Pingelly across a number of fronts and areas of activity but with a particular focus on attracting investment and population.
- protecting built and natural environment quality. This ranges from concern about the potential impacts of climate change to a desire to see more done around waste management.
- the need for more positive engagement with the local Noongar community.

⁶ See for example, the Pingelly Age-Friendly Community Plan, March 2017 for further information about issues experienced by older residents.

CURRENT SERVICES

The Shire of Pingelly delivers the following services:

| | | |
|--|---|--|
| <p>Technical Services</p> <ul style="list-style-type: none"> ▪ Asset Management Planning ▪ Roads ▪ Footpaths ▪ Drainage ▪ Bridges ▪ Main Street ▪ Property Services ▪ Street Lighting ▪ Parking Facilities ▪ Minor Works ▪ Street Cleaning ▪ Water Harvesting ▪ Parks, Playgrounds and Streetscapes ▪ Cemeteries ▪ Protection of the Environment ▪ Domestic and Commercial Refuse Collection ▪ Waste Recycling ▪ Waste Management Facility ▪ Road Reserves, Verges and Reserves Maintenance ▪ Plant and Equipment Fleet | <p>Corporate and Community Services</p> <ul style="list-style-type: none"> ▪ Licensing ▪ Ranger Services ▪ Sport and Recreation Facilities ▪ Community Transport ▪ Pingelly Swimming Pool ▪ Halls and Community Facilities ▪ Finance Services ▪ Customer Services ▪ Records Management ▪ Information Technology ▪ Staff Housing <p>Community Development</p> <ul style="list-style-type: none"> ▪ Community Development ▪ Community Events ▪ Seniors ▪ Disability Access and Inclusion Planning ▪ Children and Youth ▪ Sport and Recreation Program ▪ Library ▪ Heritage and Culture ▪ Museum | <p>Administration - Technical</p> <ul style="list-style-type: none"> ▪ Strategic Land-use Planning ▪ Town Planning ▪ Building Control ▪ Environmental Health ▪ Fire Prevention and Emergency Management <p>Office of the CEO</p> <ul style="list-style-type: none"> ▪ Major New Assets/Facilities ▪ Strategic and Corporate Planning ▪ Advocacy and Collaboration ▪ Governance Support ▪ Community Consultation and Engagement ▪ Human Resources Management ▪ Local Economic Development ▪ Tourism Support ▪ Main Street ▪ Shire Branding and Promotion ▪ Medical Services |

STRATEGIC DIRECTION

COMMUNITY VISION

A community that has a shared vision, with everyone working towards the same end, is a strong community. Being clear and concise about the vision is an important factor in getting everyone on board. Vision statements “represent the reduction of a complex vision into a few carefully chosen words”⁷ and because of this they are similar to Japanese haiku.

The Pingelly Vision Poem has been compiled from haikus* created by the community as part of the engagement on the new Strategic Community Plan. The Pingelly Vision Poem is another world first in community engagement, following the world first Giant Jigsaw completed as part of the engagement on the first Strategic Community Plan.

Pingelly 2030

Happy and healthy
Pingelly is our home life
Family safe within

Great place for coffee
And going out for a meal
Things to do for all

Population growth
Sustainable businesses
More jobs around town

More transport options
Education and health needs
Met by services

Smiling all year round
A vibrant community
Great facilities

Caring for nature
Enjoying what we have and
Sharing with the world

Diverse Pingelly
With a rich cultural life
A welcoming town

A positive vibe
Our people make Pingelly
The best place to be

From the themes of the poem we have distilled the following Community Vision.

⁷ Christopher Finney, Not for Profit Quarterly, March 2008

* A poetic form which has three lines - the first and third of which have five syllables and the second of which has seven syllables

OUR VISION: GROWING, INCLUSIVE AND RESILIENT

This vision lies at the heart of the community's intentions for the Shire's future. Each aspect is interconnected. For example, an inclusive community which pulls together is more likely to be resilient in the face of change, or to encourage people to move to the Shire or invest.

Growing: To achieve population and economic growth that enables the community we want, including a healthy economy, and the services and quality of life we desire.

Inclusive: To be a community designed for all

Resilient: To have a resilient and adaptable community and economy, with an asset base which is fit for purpose, now and for the future

Each aspect shapes more detailed goals, desired outcomes and strategies which are outlined in a later section. For example, one of the issues around Shire population is the loss of young families, often because parents are seeking greater education choice for their children. This suggests that alongside the already important focus on local facilities and activities that are used by young people and families in the Shire, new solutions for education need to be explored. To be inclusive also means a focus on designing facilities and assets so that they are easily accessible for all users.

Sitting under this broad vision, is a focus on continuing the momentum we have achieved over the last few years, maintaining the key assets that support our community and setting new priorities for improvement over the next ten years.

SUSTAINED PROGRESS

Over recent years, the Shire of Pingelly has focused on key "game changers" which we believe will underpin our future success as a community. Clear strategic direction and strong community support has enabled us to achieve over \$20 million investment in our future since the last Strategic Community Plan (2013-2023).

Three major projects were the Pingelly Recreation and Cultural Centre (PRACC), Pingelly Age Appropriate Accommodation and the Health Centre. These projects are building blocks towards our vision for the future. Each project reflects the innovation and community partnerships that have become the hallmark of how we work together as a Shire and community.

In developing this plan, the question was – where to next? What are the next set of game changers to focus on?

After extensive community engagement and deliberation, the strategic priorities outlined below have been identified by the Council for emphasis over the next ten years, and especially over the next four years.

MAINTAINING THE BASE

At the same time the Shire is constantly mindful of the importance of roads, footpaths, parks, gardens, library and other assets, facilities and services that create the foundation for a thriving district. This presents a challenge when balancing costs to maintain and renew assets against the desire for new assets, all in the ability and willingness of households and businesses to pay rates.

The financial projections prepared as part of the planning process indicate that the next four years will be a period of adjustment. The PRACC will be completed and for each year after the Shire's ability to move resources back towards investment in facilities and services described above.

Through a combination of new and existing Federal and State grants the Shire is able to maintain a substantial road program while minimising the need to utilise municipal funds. As the grant funds reduce in year 5 so the Council will be in a strengthened position to fund the local share of roads and other infrastructure costs from our own funds. The projections also indicate a need to increase rates above inflation for the next four years after which the increase above inflation should be able to be reduced.

STRATEGIC PRIORITIES

The strategic priorities build on the last Strategic Community Plan to move Pingelly forward to the next level. The priorities will influence the Shire's ongoing service delivery and asset stewardship roles and create the focus for major new investment decisions. They will be regularly reviewed through the two yearly Strategic Reviews.

Growing Community

Pingelly has a largely stable population but in the last few years has lost some families with young children. At the same time, there is a gradual increase in the number and proportion of older people, living mainly in the town of Pingelly, and an increase in the proportion of single person households. We believe we can achieve a growing and balanced population, in order to develop the community we want, with a healthy economy and the services and quality of life we desire. Over the next ten years we have set a bold goal of increasing the population to 1600 people, with a focus on attracting and retaining young families.

We will do this while also working to make sure Pingelly is an attractive place for older residents, by providing an age friendly community, with access to the services and accommodation they need. We are exploring innovative models for ageing in place, which will also provide benefits to the local economy, particularly through employment and increased demand for local goods and services.

Medium Term Priorities

- Healthy kids (0-5)
 - Whole of community effort
 - Pingelly Early Years Network
- Pingelly Wellbeing and Community Plan
 - Youth suicide prevention
 - Drug and alcohol
 - Youth at risk

- Ageing in Place
 - Somerset Alliance partnership
 - Maximise benefits in terms of demand for goods and services and jobs (link to Education)
 - Promote affordability and liveability (link to Branding and Marketing)
 - Support the “Pingelly Project” virtual community approach to support for older people
 - PAAA expansion – watching brief (dependent on grant, shovel ready)

Economic development

Farming is the primary economic activity within our district. But if the population is to prosper, business and job creation activities, either linked to or complementing farming activity, need to develop more. It is important that the community leverages off its advantages, for example economic activity linked to the PRACC, or carves out niche businesses built around peoples’ knowledge and skills, or around the agricultural base.

Good quality education opportunities and linkages are key to Pingelly’s future. The Shire, along with its neighbours, needs to explore innovative education models which will deliver the quality of education locally in the pre-school and school years, and links students to longer-term tertiary education and training pathways they might ultimately pursue.

Medium Term Priorities

- Strengthening local business – Business After Hours, encourage formation of a local association
- Specialisation
 - Alignment of economic development activities with the Wheatbelt Development Commission and Regional Development Australia on current focus and support for Wheatbelt economic development, including Aboriginal enterprise
 - Agriculture based industries
 - UWA Future Farm (links to Education; Short Term Accommodation) – possible partnership with of economic development activities with the Wheatbelt Development Commission and Regional Development Australia on current focus and support for Wheatbelt economic development, including Aboriginal enterprise
 - Astronomy
 - Aboriginal enterprise
 - Tourism (links to Branding and Marketing; Short Term Accommodation)
- Education
 - Cert 3 and 4 for Aged Care (link to Growing Community)
- PRACC
 - Promotion (including signage)
 - Events
 - Longer term precinct development

- Accommodation/RVs and units (link to Short Term Accommodation) - site development or construction of units would depend on partnership and/or availability of grants

As resources allow

- Increase availability and profile of industrial land
 - Headworks (partial) – 18 months
 - Demonstrate demand – 2-3 years
 - Advocate for the State Government through the Department of Lands or Landcorp to take the lead – 3+ years

Short Term Accommodation

It is also essential that with population growth comes access to suitable, affordable housing which gives people choice and signals a confidence in the future. This includes housing for older people, something which has been a focus over the last four years, as well as housing choice for families, accommodation for seasonal and other workers, and more housing for smaller households. It is important that everyone has access to good quality housing.

Medium Term Priorities

- Recreational Vehicles (RVs) and units in PRACC precinct
 - PRACC Precinct accommodation/RVs and units (link to Economic Development) (any site development or construction of units dependent on partnership and/or grants)
- Bed and Breakfast
 - Encourage, regularise, promote (link to Branding and Marketing)
- Old Hospital Site
 - This site is to be transferred by the State Government to the Shire. It will provide an opportunity to explore further options for short-term accommodation. The first step will be the preparation of a development strategy
- Caravan Park + RVs
 - Aim to extend nights, possibly deploy a campaign utilising incentives to encourage campers to stay for an extra night or two and spend in the town

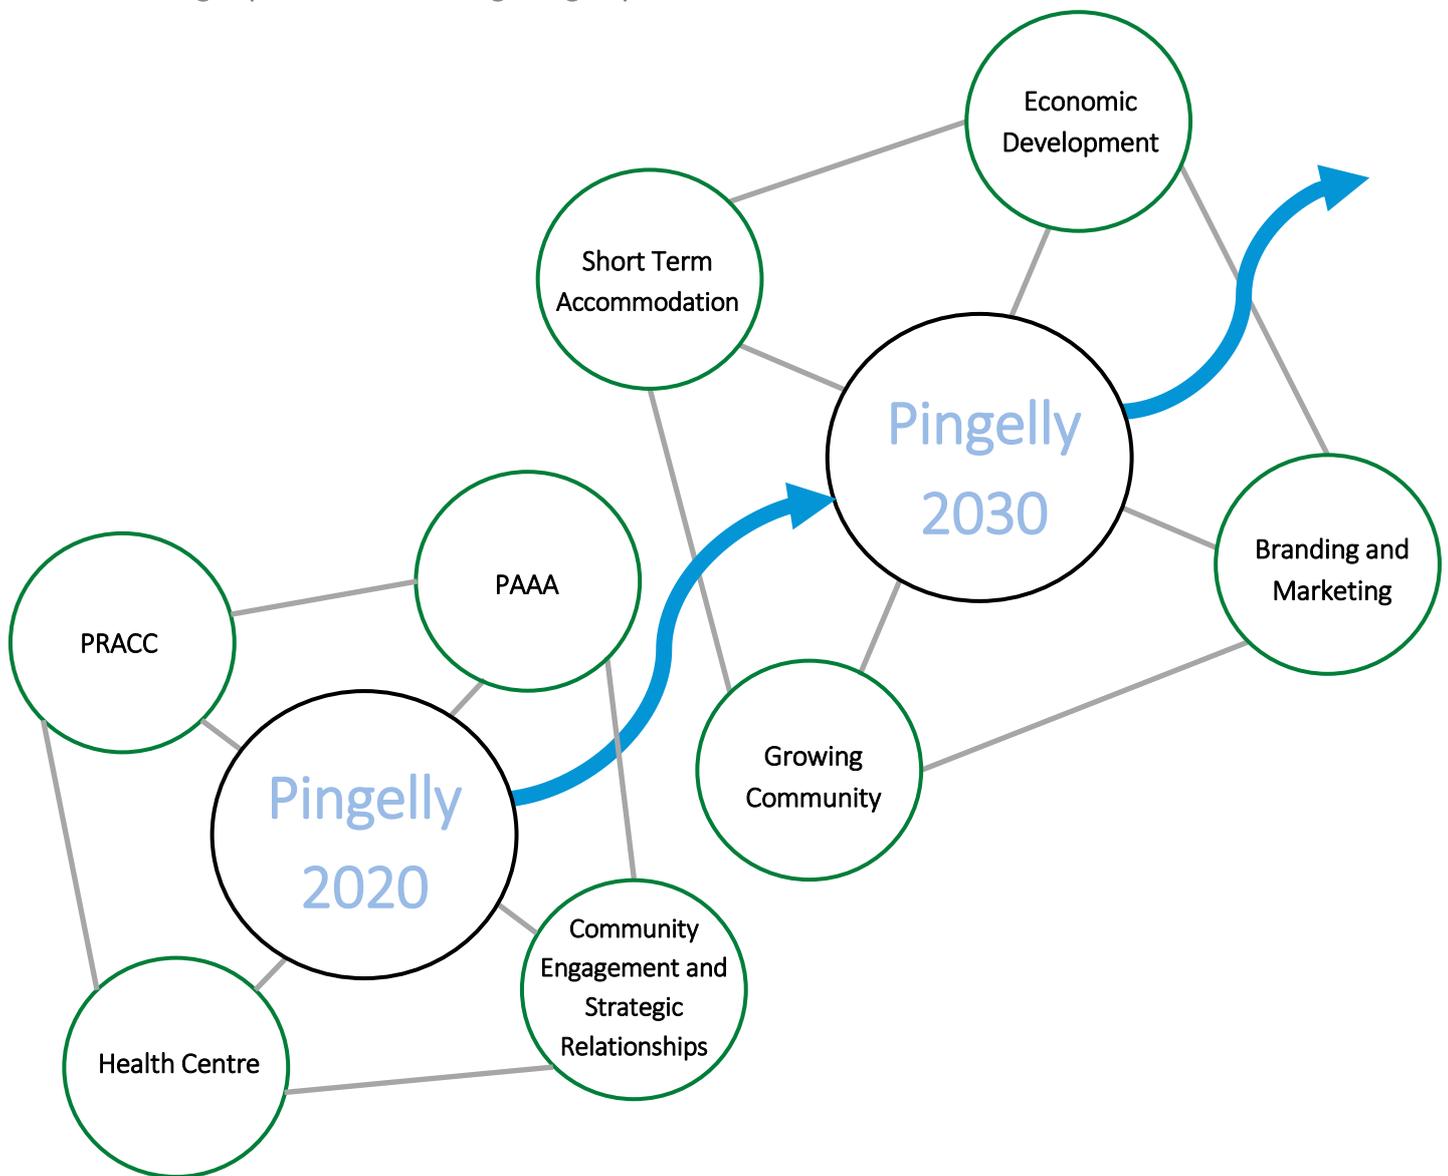

Branding and Marketing

Promoting Pingelly as a district where the community is open to opportunities, innovative and welcoming is essential to many community aspirations, particularly population growth and economic development. Showing confidence and a clear meaningful vision builds confidence and interest among people who might choose to visit, live here, or invest. That confidence can be expressed in many ways, from a having an active centre, to branding and shared messages to the wider world. It is important that this message is well thought through and conveyed in a range of ways by the whole community.

- Evidence-based, expert and central approach to branding and marketing across investment, resident and visitor attraction (links to all other Priority Focus Areas)
 - Engage expert advice (as resources allow)
 - Work with Pingelly Tourism Group

- Consider new tagline/slogan to replace previous “People and Progress”
- Capture high quality images of Pingelly, including Drone images
- Ensure all relevant organisations are included in event promotion by others

Strategic priorities moving Pingelly forward

GOALS, OUTCOMES AND STRATEGIES

Five specific goals have been identified to guide actions. These are:

Goal 1: Economic

The local economy is strong and resilient, embraces opportunities, and delivers local business growth and jobs.

Goal 2: Community

Quality of life is good, people feel they have a positive future, they enjoy their community, and can live easily in the Shire over their lifetime.

Goal 3: Built Environment

The physical environment is attractive and accessible, and accommodates new residents and businesses, in a way that protects local character and valued places.

Goal 4: Natural Environment

Natural areas and systems are healthy and thriving, and sustainable use is made of natural resources.

Goal 5: Innovation, Leadership and Governance

The Shire of Pingelly is an innovative, responsive partner to its community, an effective advocate, and a trusted steward of community assets. The organisation achieves good practice in all that it undertakes

Each goal has several desired outcomes and strategies for change and action.

Goal 1: Economy

The local economy is strong and resilient, embraces opportunities, and delivers local business growth and jobs.

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 1.1 | The Shire experiences significant new business growth and employment and is known widely as an innovative and collaborative community which is attracting new population and investment. |
| 1.1.1 | Work with community groups, local business and other partners to explore and leverage opportunities for business development around the PRACC. |
| 1.1.2 | Continue to build relationships with tertiary research institutions (e.g. UWA), local business and other partners which bring collaboration on key projects and support Pingelly's vision for the future. |
| 1.1.3 | Support the development and promotion of key messages for use by the community, the Shire and businesses, to convey Pingelly's economic and community vision, the steps being taken to achieve it, and the benefits of living, working, investing in, or visiting, the area. |
| 1.1.4 | Support business and community tourism promotion initiatives. |
| 1.1.5 | Participate positively in key regional and other networks in a way that builds collaboration and benefit for the community and local economy. |
| 1.2 | A truly working Main Street which symbolises a confident local economy, and results in people spending more locally |
| 1.2.1 | Encourage the return of a fully active commercial frontage filled with businesses, with retail gaps filled, and the best of friendly, country service. |
| 1.2.2 | Further develop the town centre as an attractive environment which supports business investment, and community and visitor use. |
| 1.2.3 | Encourage local pride and community support for local business. |
| 1.3 | The right resources and infrastructure are in place to support business development, including an increase in visitors and visitor spend in the Shire. |
| 1.3.1 | Support local tourism infrastructure development. |
| 1.3.2 | Advocate for adequate broadband, water and power supply capacity. |
| 1.3.3 | Ensure industrial land is available for new businesses and actively work to achieve take-up of sites. |

Goal 2: Community

Quality of life is good, people feel they have a positive future, they enjoy their community, and can live easily in the Shire over their lifetime.

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 2.1 | Social services and facilities are designed and delivered in a way that fits community needs and aspirations |
| 2.1.1 | Continue to support the development of and access to core aged care and health services and facilities, e.g. PAAA, Health Centre. |
| 2.1.2 | Regularly review needs and develop community driven tactics, including advocacy, to secure needed social services, facilities and support (e.g. child care services). |
| 2.1.3 | Explore and promote development of innovative education choices and opportunities in the Shire. |
| 2.2 | Community groups function well with strong volunteer effort and feel supported by the community |
| 2.2.1 | Publicise and celebrate the contribution of groups and volunteers to the community. |
| 2.2.2 | Support the capacity of clubs and groups to develop |
| 2.3 | People feel that their community is safe for all, free of nuisance and protected from risk of damage |
| 2.3.1 | Protect public health and amenity |
| 2.3.2 | Act to reduce the risk of bush fire, and be prepared in case of bush fire in terms of emergency response and disaster recovery |
| 2.3.3 | Ensure buildings and structures are safe and provide a healthy living and working environment. |
| 2.3.4 | People and property are protected from flood damage and risk to a specified level. |
| 2.4 | People have access to attractive community facilities, activities and events which support activity and health, community involvement and enjoyment of life. |
| 2.4.1 | Provide a range of community facilities and associated services in a way that maximises use and community activity. |
| 2.4.2 | Continue to develop the PRACC as a focal point for recreation and cultural activities. |
| 2.4.3 | Provide parks and gardens which can be enjoyed by all, including easy to access, good quality and interesting play areas for children, recreation opportunities for young people, and appropriate pathways and seating for older people and those with disability. |
| 2.4.4 | Celebrate key annual national events and support a range of local community events. |

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 2.5 | The young, older people and people with disability feel valued and have access to resources which provide opportunities for their development and enjoyment. |
| 2.5.1 | Enable people, particularly seniors and people with disability, to be able to move easily around the town and to use community facilities. |
| 2.5.2 | Advocate for and facilitate provision of services and resources to address issues experienced by young people and seniors. |

Goal 3: Built Environment

The physical environment is attractive and accessible, and accommodates new residents and businesses, in a way that protects local character and valued places.

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 3.1 | Pingelly is 'housing ready' for new population growth, and has appropriate housing choice available to the community. |
| 3.1.1 | Continue to advocate for and collaborate on housing options for older people (e.g. age appropriate housing) and people with disability which enables them to stay in the Pingelly community during their lives. |
| 3.1.2 | Ensure that town planning provisions enable a range of housing design and solutions, for different household types – e.g. single person households, seasonal workers, families. |
| 3.2 | New development (including commercial) is of a high quality and contributes positively to the character and appearance of the town. |
| 3.2.1 | Encourage new developments to be designed and built in a way that reduces pressure on and demand for resources (e.g. energy efficiency and water conservation), and gives priority to development/ infill of currently zoned land. |
| 3.2.2 | Ensure that new developments are designed for or contribute to public open space and have attractive streetscapes. |
| 3.2.3 | Plan for appropriate location of activities within the Shire, in a way that is consistent with the community's vision for the future. |
| 3.3 | The town of Pingelly has attractive streetscapes with fully integrated footpath and road design, street tree provision and management, street lighting, seating and landscaping. |
| 3.3.1 | Develop a streetscape design, development and management strategy to drive the asset investment and relevant service delivery. |
| 3.3.2 | Provide services to reduce litter and manage verges. |
| 3.4 | It is easy and safe to move around and in and out of the district |

| ITEM | OUTCOMES AND STRATEGIES |
|-------|---|
| 3.4.1 | Provision of a road network with service levels that meet the needs of industry and residents. |
| 3.4.2 | Maintain and develop the footpath network according to the direction set out by the Shire’s streetscape strategy. |
| 3.4.3 | Provide street lighting at a level which facilitates vehicle and pedestrian safety, and confidence to access facilities and events at night. |
| 3.5 | An alternative truck route which avoids the town’s Main Street is in place. |
| 3.5.1 | Explore further alternative truck route design and advocate for provision as required. |
| 3.6 | The Shire’s heritage structures, heritage and cultural places are valued and protected, and are integrated into community life and economic activity. |
| 3.6.1 | Continue to list valued heritage sites, and encourage restoration and maintenance of the Shire’s built heritage. |

Goal 4: Natural Environment

Natural areas and systems are healthy and thriving, and sustainable use is made of natural resources.

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 4.1 | Maximised resource recovery from waste and safe disposal of residual waste. |
| 4.1.1 | Provide people with the ability to reduce their waste and deal with residual waste appropriately. |
| 4.1.2 | Ensure the Shire’s waste disposal facilities can appropriately handle all solid and liquid waste. |
| 4.2 | Water conservation and water harvesting opportunities are actively pursued. |
| 4.2.1 | Invest in water harvesting (including extension of the relevant parts of the drainage system) for use on the Oval. |
| 4.2.2 | Provide water conservation information to the community. |
| 4.3 | The Shire’s valued natural areas and systems are protected and enhanced. |
| 4.3.1 | Support or directly undertake targeted environmental projects where external funding is available and/or opportunities for community partnerships exist. |
| 4.3.2 | Ensure proper land management practices are observed which result in protection and care of the natural environment |
| 4.3.3 | Undertake relevant Shire services in a way that has regard for protection of bush and habitat. |

| ITEM | OUTCOMES AND STRATEGIES |
|-------|---|
| 4.3.4 | Use, wherever possible, locally sourced seed and plants. |
| 4.4 | Energy is used efficiently and there is an increased use of renewable energy in the Shire. |
| 4.4.1 | Continued inclusion of energy efficient design and systems, and solar energy systems in Council buildings and other key facilities. |

Goal 5: Innovation, Leadership and Governance

The Shire of Pingelly is an innovative, responsive partner to its community, an effective advocate, and a trusted steward of community assets. The organisation achieves good practice in all that it undertakes.

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 5.1 | The Aboriginal community and the Shire see each other as genuine partners for change and progress. |
| 5.1.1 | Completion of the Reconciliation Action Plan. |
| 5.2 | The Shire's community feels community involvement and engagement is working well. |
| 5.2.1 | The community is provided with opportunities to engage on strategic, corporate, asset and financial plans, and other major plans and issues. |
| 5.2.2 | Continue to develop the successful Pingelly community involvement model, including in the design and development of key community facilities and initiatives. |
| 5.2.3 | Ensure that there is good communication between the Shire of Pingelly and the community via a range of methods. |
| 5.3 | The Shire (Council with the community) is a successful advocate for resources and facilities which support the vision for the future. |
| 5.3.1 | <p>The Council and community continue work together to advocate for change, targeted to the following areas:</p> <ul style="list-style-type: none"> ▪ support for aged care services and services and activities for young people; ▪ adequate housing for the population ▪ innovative local education opportunities ▪ an alternative truck route ▪ energy, water and broadband capacity ▪ resources which will assist in the development of the local economy, creation of local businesses and jobs, and attraction of population and visitors ▪ maintenance, renewal and development of key infrastructure and community facilities |

| ITEM | OUTCOMES AND STRATEGIES |
|-------|---|
| 5.4 | The Shire of Pingelly is known to be an inclusive employer, and has the capacity and skills to deliver identified services and strategies over time. |
| 5.4.1 | Manage the Council workforce to provide for employee development and health and safety, and to allow the Shire to deploy resources to fit strategic direction. |
| 5.4.2 | An active approach to Shire workforce planning, including promotion of workforce diversity. |
| 5.5 | The value of community owned assets is maintained. |
| 5.5.1 | Assets renewals and upgrades are funded to the level required to maintain asset value and agreed service levels. |
| 5.5.2 | Projects are well-planned planned and delivered on time and on budget, with effective and thorough risk management and reporting. |
| 5.6 | Financial systems are effectively managed. |
| 5.6.1 | Financial management and reporting systems are able to deliver on all administrative and management functions (including reporting), and long-term financial planning requirements. |
| 5.7 | Customer service and other corporate systems are of a high quality and effective. |
| 5.7.1 | The Shire strives for a best practice in its customer service, including governance support, and continually seeks ways to improve delivery where needed. |
| 5.7.2 | Probity, risk management and associated reporting systems, and underpinning corporate IT systems are effective and efficient. |

CAPITAL WORKS PROGRAM

The capital works program is shown in the table below. The focus over the next ten years will be on consolidating the benefits and opportunities derived from the development of the PRACC. A number of smaller capital projects will be undertaken with the largest single area of expenditure being road renewals and upgrades. Other key projects are the extension of water harvesting capacity

Over the last three years the Shire has undertaken or supported three key projects: development of the PRACC, delivery of Stage 1 of the PAAA and the development of the Health Centre. While the Shire will undertake a number of capital projects over the next ten years, the overall focus will be on consolidating these new initiatives and leveraging further benefit from them. The key projects planned over the next ten years are:

- completion of the PRACC project
- further improvement of drainage systems to allow for improved water harvesting for the oval and subsequent extension of collection capacity
- roads upgrade and renewal program
- completion of upgrades of footpaths to make it easier for pedestrians and pram access.
- small upgrades to Pingelly townsite playgrounds

The Council will undertake due diligence on all major capital and operational projects prior to any final decision to proceed. This will be done in order to ensure they are sustainable, viable and affordable (including whole of life costs) for Council and the community.

CAPITAL WORKS PROGRAM - OVERVIEW

The projected capital works program reflects the priorities of the plan.

| Project | Year 2019-20 | Year 2020-21 | Year 2021-22 | Year 2022-23 | Year 2023-24 | Year 2024-25 | Year 2025-26 | Year 2026-27 | Year 2027-28 | Year 2028-29 | Grand Total |
|--|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|----------------|

RATIO ANALYSIS

| Ratios | TARGET RANGE | 10-year Average | Comment |
|--|---------------------------------|--------------------------------------|---|
| LIQUIDITY RATIOS Current Ratio <i>A measure of a local government's liquidity and its ability to meet its short-term financial obligations from unrestricted current assets.</i> | 1+ | 0.18 | Strengthening trend over the longer term |
| OPERATING RATIOS Operating Surplus Ratio <i>An indicator of the extent to which revenue raised not only covers operational expenses, but also provides for capital funding</i> Own Source Revenue Coverage Ratio <i>An indicator of a local government's ability to cover its costs through its own revenue efforts.</i> | 0%-15% 40%-90% | 6.28% 62.07% | Reflects reliance on non-operating grants |
| BORROWINGS RATIO Debt Service Cover Ratio <i>An indicator of a local government's ability to generate sufficient cash to cover its debt payments.</i> | 2+ | 10.7 | |
| FIXED ASSET RATIOS Asset Sustainability Ratio <i>An indicator of the extent to which assets managed by a local government are being renewed or replaced as they reach the end of their useful lives.</i> Asset Consumption Ratio <i>This ratio highlights the aged condition of a local government's physical assets.</i> Asset Renewal Funding Ratio <i>Indicates whether the local government has the financial capacity to fund asset renewal at existing revenue and service levels.</i> | 90%+ 50%+ 75%-95% | 118.35% 96.09% 164.27% | Asset programs are regularly reviewed |

STRATEGIC RISK MANAGEMENT

The following table outlines the strategic risks to the Plan and the risk controls that apply.

Strategic Risks and Controls

| Risk Category | Risk Description | Risk Controls |
|-----------------|---|--|
| Political | Core changes to role of Local Government and/or funding | <ul style="list-style-type: none"> ▪ Long Term Financial Plan (LTFP) ▪ Lobbying and advocacy ▪ Community engagement |
| Governance | Breakdown in relationship between Shire President/ Council and CEO | <ul style="list-style-type: none"> ▪ Regular meetings CEO/Shire President ▪ CEO performance review process ▪ Code of Conduct and relevant policies ▪ Councillor training and induction |
| Community | Lack of community awareness and engagement with Council's direction | <ul style="list-style-type: none"> ▪ Communications and community engagement |
| Financial | Increased contractor and/or materials costs putting pressure on capital program | <ul style="list-style-type: none"> ▪ Long Term Financial Plan (LTFP) ▪ Asset Management Plans ▪ Budget process ▪ Rigor of project management |
| Financial | Employee cost rises above assumption | <ul style="list-style-type: none"> ▪ Long Term Financial Plan (LTFP) ▪ Workforce Plan (WFP) ▪ Budget process |
| Financial | Reduced external grants/funding | <ul style="list-style-type: none"> ▪ Long Term Financial Plan (LTFP) ▪ Budget process ▪ Lobbying and advocacy |
| Financial | Misappropriation of funds | <ul style="list-style-type: none"> ▪ Policies and Procedures ▪ Audit controls |
| Economic | Low business growth | <ul style="list-style-type: none"> ▪ Long Term Financial Plan (LTFP) ▪ Economic development facilitation |
| Human Resources | Lack of available skilled staff | <ul style="list-style-type: none"> ▪ Workforce Plan (WFP) |
| Human Resources | High staff turnover | <ul style="list-style-type: none"> ▪ Workforce Plan (WFP) |
| Human Resources | Lack of available skilled contractors / suppliers | <ul style="list-style-type: none"> ▪ Tender and Procurement Process ▪ Workforce Plan |
| Environmental | Disasters i.e. bushfire/flood/ storm | <ul style="list-style-type: none"> ▪ Local Emergency Management Risk Mitigation, Planning, Response and Recovery Arrangements |

HOW WILL WE KNOW IF THE PLAN IS SUCCEEDING?

The following table outlines the measures, sources of data and targeted direction for the Plan, with a focus on the strategic priorities. The indicators below will help Council and the community monitor progress towards achieving Pingelly’s community vision and strategic goals. Some of them are in the direct control of the Shire while others are less so (colour coded for ease of reference). The Strategic Community Plan is more focused on community wellbeing indicators, whilst the Corporate Business Plan is more focused on performance indicators. Financial and asset ratios are common to both; they are vital indicators of sound governance and management.

Key: Local Government level of control/ influence:

| | | |
|---|--------|---|
| H | High | Policy and service areas that are in direct control of local government |
| M | Medium | Issues that local government does not control but can influence |
| L | Low | Areas that local government neither controls nor is likely to influence, but are important to the community |

Measures of Success

| | Measures | Source | Target |
|--|--|---|-------------------|
| | High Level Trends | | |
| | Total population (number) | 2021 and 2026 census | 1600 pop. by 2026 |
| | Unemployment Rate | ABS data | Decreasing |
| | Family households as a % of total households | 2021 and 2026 census | Increasing |
| | Economic | | |
| | No of visitors using tourism services | This measure to be confirmed | Increasing |
| | New businesses created | ABS data | Increasing |
| | No. of commercial businesses on Main street | Shire property data | Increasing |
| | Community | | |
| | Perception that Shire community is well-placed for the future | Residents Satisfaction survey. | Increasing |
| | Community satisfaction with key community social services and facilities | Residents Satisfaction survey (2 year rolling review) | Increasing |
| | Community satisfaction with nature and quality of Council provided facilities and services | Residents Satisfaction Survey (2 year rolling review) | Increasing |

| | Measures | Source | Target |
|--|--|-------------------------------|----------------------------------|
| | % of people volunteering | Census data | Maintain |
| | Built Environment | | |
| | New house building - increase proportional to population increase and population types | Shire building consents data. | Increase relative to population. |
| | Natural Environment | | |
| | Waste diverted (recovered/ recycled) as a % of total waste stream collected/ received | Shire data | Increasing |
| | Leadership and Governance | | |
| | Overall satisfaction with the Shire of Pingelly Council – good or better. | Residents Satisfaction Survey | Increasing |
| | Feeling that can be involved in important Shire decisions if wish to | Residents Satisfaction Survey | Increasing |
| | Pingelly Reconciliation Plan completed | Shire data | Completed by Dec.2019 |
| | Operating Surplus Ratio ⁸ | Shire data | 10% or greater |
| | Current Ratio ⁹ | Shire data | 1:1 or greater |
| | Debt Service Cover Ratio ¹⁰ | Shire data | 2 or greater |
| | Own Source Revenue Covering Ratio ¹¹ | Shire data | Between 40% and 60%. |
| | Asset Consumption Ratio ¹² | Shire data | 50% or greater |
| | Asset Sustainability Ratio ¹³ | Shire data | 90% or greater |
| | Asset Renewal Funding Ratio ¹⁴ | Shire data | Between 75% - 95% |

8. The extent to which revenues raised cover operational expense only or are available for capital funding purposes.

9. The liquidity position of a local government that has arisen from the past years transactions.

10. The ratio of cash available for debt servicing to interest, principal and lease payments.

11. An indicator of a local government’s ability to cover its through its own revenue efforts.

12. The ratio highlights the aged condition of the local government’s stock of physical assets.

13. This measures the extent to which assets managed by the local government are being replaced as they reach the end of their useful life.

14 This indicates whether the local government has the capacity to fund asset renewal as required and can continue to provide existing levels of service without additional operating income, reductions in operating expenses or an increase in net financial liabilities above that currently projects.

MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

I am pleased to present this Corporate Business Plan covering the period 2019 to 2023. This is the Council's plan for delivery of the first four years of the newly adopted Strategic Community Plan.

The Council has completed a period of significant capital development which has resulted in very substantial new community facilities and age appropriate housing. These projects have all the more significance having been undertaken by a small Shire with limited resources. The Shire is now entering a period of consolidation where it seeks to obtain the benefit of its new assets in terms of economic and social development while at the same time managing its finances for long term sustainability and planning future investments.

This plan provides significant funding for roads and bridges over the next four years and also has an emphasis on the aspects of economic and community development that are priorities for the community and the Council.

Also important in ensuring long term sustainability is the quality of our asset management and there will be a continued focus on developing our Asset Management Plans to ensure we are making the necessary investments in maintenance and renewals to maintain the values and levels of service expected by the community.

The plan also provides for further investment in age appropriate housing and also the development of industrial land. These are not funded in the four year period of the plan but they are identified and the Council will pursue grant funding and adjust the timing of the projects if (or when) the funding becomes available.

Having only recently joined the Shire as Chief Executive Officer I am very much looking forward to working with the Council to ensure that the Shire of Pingelly continues to grow and progress.

Julie Burton
Chief Executive Officer, Shire of Pingelly

INTRODUCTION

Welcome to the Shire of Pingelly's Corporate Business Plan (CBP), adopted on 18 September 2019. This plan sets out how the Council will deliver the first four years of the Strategic Community Plan (SCP) the final version of which was also adopted on 18 September 2019. The CBP identifies the broad delivery and timing of projects and programs, summarises service delivery standards including any increases or reductions in levels of service, and sets how it will be measured.

The CBP clearly identifies the Council's implementation priorities, including those projects it cannot progress unless and until external funding is obtained.

KEY POINTS OF THE PLAN

Sustained Progress

Over recent years, the Shire of Pingelly has focused on key "game changers" which we believe will underpin our future success as a community. Dedicated focus and strong community support enabled us to achieve over \$20 million investment in our future, as foreshadowed in the last Strategic Community Plan (2013-2023).

Three major projects were: the Pingelly Recreation and Cultural Centre (PRACC), Pingelly Aged Appropriate Accommodation (PAAA) and the Health Centre. Each of these projects are building blocks to achieve our vision for the future. Each project reflects the innovation and community partnerships that have become the hallmark of how we work together as a Shire and community.

In developing this plan, the question was – where to next? What are the next set of game changers to focus on?

After extensive community engagement and deliberation, a number of strategic priorities were identified by the Council for emphasis over the next ten years, and especially over the next four years. These priorities will drive planning and action and are addressed in more detail in the sections below.

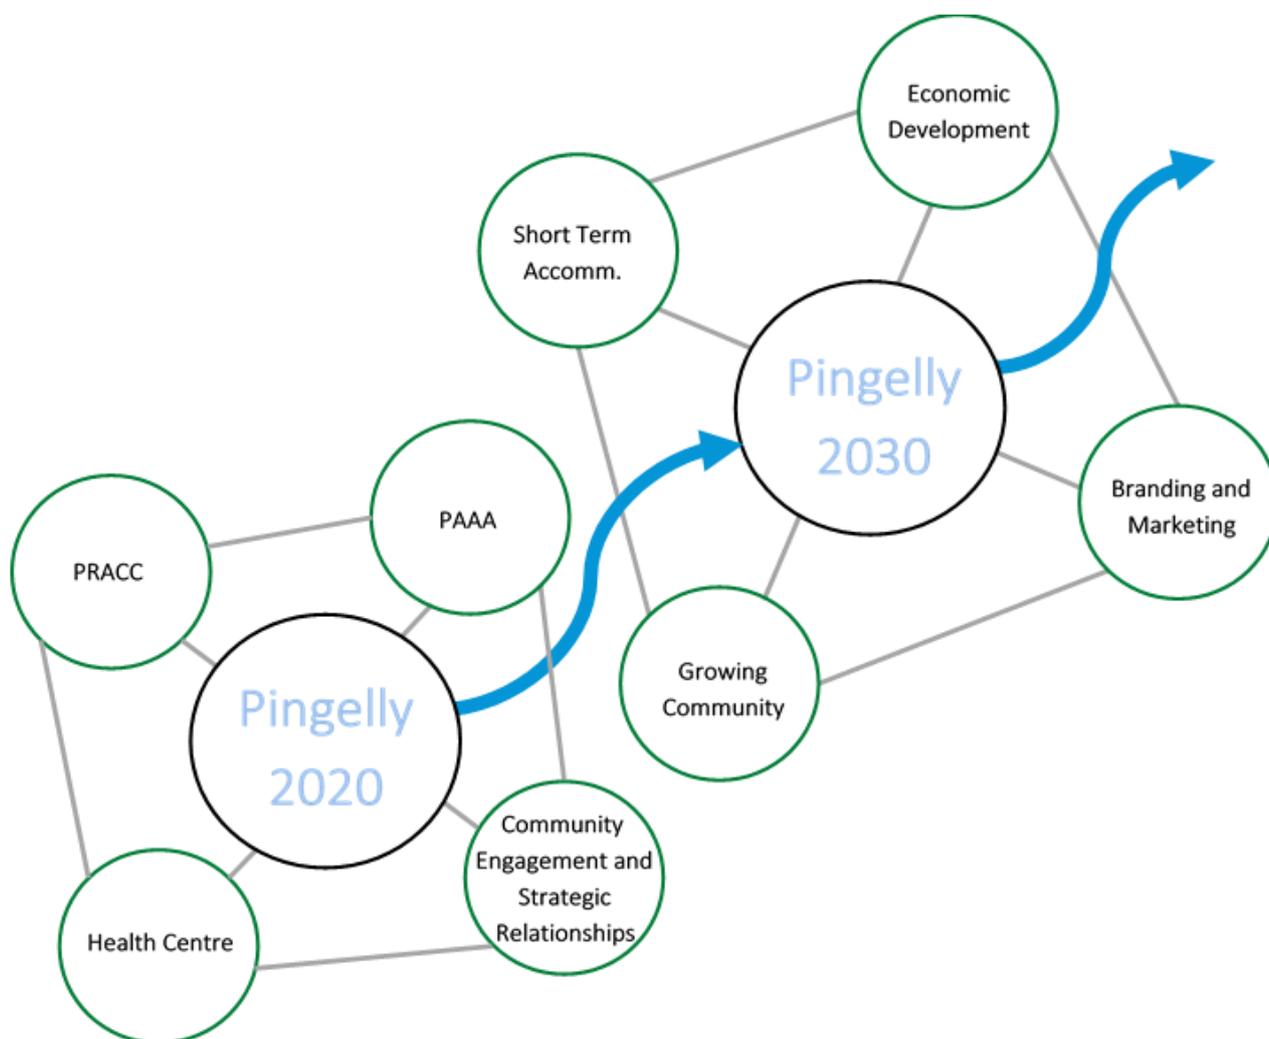

Maintaining the Base

Whilst maintaining a strong strategic focus the Shire is constantly mindful of the importance of roads, footpaths, parks, gardens, library and other assets, facilities and services that create the foundation for a thriving district. This presents a challenge when balancing costs to maintain and renew assets against the desire for new assets, all within the ability and willingness of households and businesses to pay rates and other charges. Over the recent period of development Shire funds were invested in the new facilities and that meant that some other works or projects were required to be scaled back or delayed. Now that the projects have been completed or are nearing completion there will be a rebalancing of resource allocation and some catch-up in activities that were of necessity scaled back.

The next few years will be a time of consolidation and focus on leveraging the greatest possible return, both economically and socially from the investments made. Detailed work has been undertaken to develop fully costed four-year budgets for the Corporate Business Plan and the ten-year budgets for the Long Term Financial Plan, in fact the detailed modeling has been undertaken for a fifteen year horizon. This work shows that while the next four years will be tight requiring strong financial management and careful prioritisation, over the long term the Council will be able to invest in maintenance and renewals of infrastructure and facilities and continue to provide important local services all of the time remaining affordable for ratepayers.

Strategic Priorities

The strategic priorities build on previous strategic work to move Pingelly forward to the next level. This is shown in the diagram below. The priorities will influence the Shire's ongoing service delivery and asset stewardship roles and create the focus for major new investment decisions. They will be regularly reviewed through the two-yearly Strategic Reviews.

Growing Community

Pingelly has a largely stable population but in the last few years has lost some families with young children. At the same time, there is a gradual increase in the number and proportion of older people, living mainly in the town of Pingelly, and an increase in the proportion of single person households. We believe we can achieve a growing and balanced population, in order to develop the community we want, with a healthy economy and the services and quality of life we desire. Over the next ten years we have set a bold goal of increasing the population to 1,600 people, with a focus on attracting and retaining young families.

We will do this while also working to make sure Pingelly is an attractive place for older residents, by providing an age friendly community, with access to the services and accommodation they need. We are exploring innovative models for ageing in place – which will also provide benefits to the local economy, particularly through employment and increased demand for local goods and services.

Medium Term Priorities

- Healthy kids (0-5)
 - Whole of community effort
 - Pingelly Early Years Network
- Pingelly Wellbeing and Community Plan
 - Youth suicide prevention
 - Drug and alcohol
 - Youth at risk
- Ageing in Place
 - Somerset Alliance partnership
 - Support the “Pingelly Project” virtual community approach to support for older people
 - Maximise benefits in terms of demand for goods and services and jobs (related to improved education opportunities)
 - Promote affordability and liveability (link to Branding and Marketing)
 - PAAA expansion – watching brief (dependent on grant, shovel ready)

Economic Development

Farming is the primary economic activity within our district. But if the population is to prosper, business and job creation activities, either linked to or complementing farming activity, need to develop more. It is important that the community leverages off its advantages, for example economic activity linked to the PRACC, or carves out niche businesses built around peoples’ knowledge and skills, or around the agricultural base.

Good quality education opportunities and linkages are key to Pingelly's future. The Shire, along with its neighbours, needs to explore innovative education models which will deliver the quality of education locally in the pre-school and school years, and links students to longer-term tertiary education and training pathways they might ultimately pursue.

Medium Term Priorities

- Strengthening local business – Business After Hours, encourage the formation of a local association
- Specialisation
 - Alignment of economic development activities with the Wheatbelt Development Commission and Regional Development Australia on current focus and support for Wheatbelt economic development, including Aboriginal enterprise
 - Agriculture based industries
 - UWA Future Farm (links to Education; Short Term Accommodation) – possible partnership with the Community Resource Centre
 - Astronomy
 - Aboriginal enterprise
 - Tourism (links to Branding and Marketing; Short Term Accommodation)
- Education
 - Cert 3 and 4 for Aged Care (link to Growing Community)
- PRACC
 - Promotion (including signage)
 - Events
 - Longer term precinct development
 - Accommodation/RVs and units (link to Short Term Accommodation) site development or construction of units would depend on partnership and/or availability of grants

As resources allow

- Increase availability and profile of industrial land
 - Headworks (partial) – 18 months
 - Demonstrate demand – 2-3 years
 - Then Department of Lands take the lead – 3+ years

Short Term Accommodation

It is also essential that with population growth comes access to suitable, affordable housing which gives people choice and signals a confidence in the future. This includes housing for older people, something which has been a focus over the last four years, as well as housing choice for families, accommodation for seasonal and other workers, and more housing for smaller households. It is important that everyone has access to good quality housing.

Medium Term Priorities

- Recreational Vehicles (RVs) and units in PRACC precinct
 - PRACC precinct accommodation/RVs and units (link to Economic Development) – any site development or construction of units dependent on partnership and/or grants
- Bed and Breakfast
 - Encourage, regularise, promote (link to Branding and Marketing)
- Old Hospital Site
 - This site is to be transferred by the State Government to the Shire. It will provide an opportunity to explore further options for short-term accommodation. The first step will be the preparation of a development strategy
- Caravan Park + RVs
 - Aim to extend nights, possibly deploy a campaign utilising incentives to encourage campers to stay for an extra night or two and spend additional money in the town

Branding and Marketing

Promoting Pingelly as a district where the community is open to opportunities, innovative and welcoming is essential to many community aspirations, particularly population growth and economic development. Showing confidence and a clear meaningful vision builds confidence and interest among people who might choose to visit, live here, or invest. That confidence can be expressed in many ways, from having an active centre to branding and shared messages to the wider world. It is important that this message is well thought through and conveyed in a range of ways by the whole community.

Medium Term Priorities

- Evidence-based, expert and central approach to branding and marketing across investment, resident and visitor attraction (links to all of the other Strategic Priority Areas)
 - Engage expert advice (as resources allow)
 - Work with Pingelly Tourism Group
 - Consider new tagline/slogan to replace previous “People and Progress”
 - Capture high quality images of Pingelly, including drone images
 - Ensure all relevant organisations are included in event promotion by others

Key Projects for Delivery

Over the last three years the Shire has undertaken or supported three key projects: development of the PRACC, delivery of Stage 1 of the PAAA and the development of the Health Centre. While the Shire will undertake a number of capital projects over the next ten years, the overall focus will be on consolidating these new initiatives and leveraging further benefit from them. The key projects planned over the next ten years are:

- completion of the PRACC project
- further improvement of drainage systems to allow for improved water harvesting for the oval and subsequent extension of collection capacity
- roads upgrade and renewal program
- completion of upgrades of footpaths to make it easier for pedestrians and pram access
- small upgrades to Pingelly townsite playgrounds

Innovation and Community Partnerships

The Shire of Pingelly community, supported by the Council, has developed close community involvement in discussions about the future, has explored and used community-based partnerships for community management or advisory working groups around key facilities, and general fostering openness and involvement. This innovative approach has been matched by community driven advocacy for new resources and facilities for the community. While the Shire can provide leadership and a link to key external agencies, the fact that they are reflecting a strong, united, community base with a clear sense of direction and a strong voice, has been essential to that success. This will continue to be a focus for the future.

Western Australia Local Government Integrated Planning and Reporting Framework

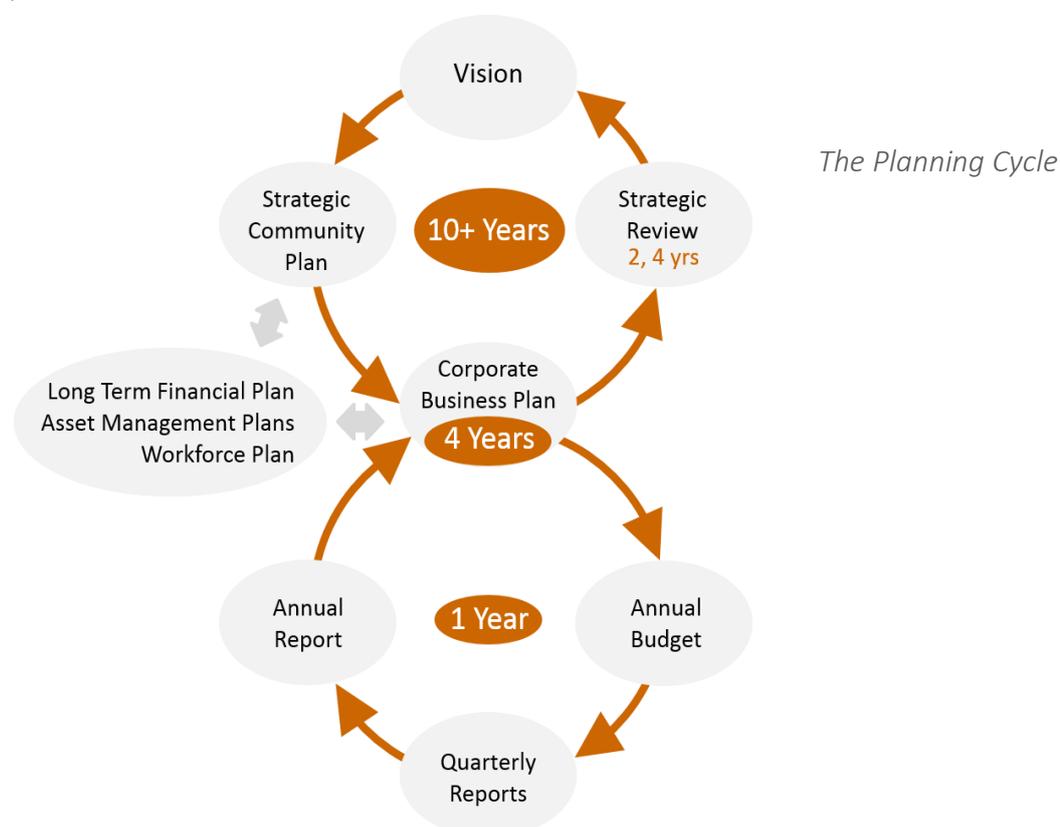

The Integrated Planning and Reporting Framework is shown in the diagram below. The purpose of the framework is to ensure that Council decisions deliver the best results for the community with the available resources.

The Strategic Community Plan sets the scene for the whole framework – it expresses the community’s vision and priorities for the future and shows how the Council and community intend to make progress over a ten-year period.

The Strategic Community Plan it is not fixed for ten years – it would be long out of date by then. Rather, it is a “rolling” plan which is reviewed every two years. The two-yearly reviews alternate between a minor review (updating as needed) and a major review (going through all the steps again). The plan is therefore continuously looking ahead, so each review keeps a ten-year horizon. This is to ensure that the best decisions are made in the short to medium term.

The Corporate Business Plan shows detailed implementation for the next four years.

The “Informing Strategies” – particularly the Long Term Financial Plan, Asset Management Plans and Workforce Plan – show how the Plan will be managed and resourced. The Annual Budget relates to that year of the Corporate Business Plan. Any necessary adjustments are made through the Annual Budget process.

KEY ISSUES FACING THE COMMUNITY

After considering the feedback from the community via the Major Strategic Review process and input from other recent community processes,¹ the Council has identified nine broad areas of concern:

- Changing State (and to a degree Federal) policy as it relates to investment and support for small rural communities and their regions. A key example is the effort made by the Shire (along with the Shires of Brookton and Beverley) and the community, to plan for and advance further stages of age appropriate accommodation and associated services. This issue is very pressing for the Shire and it has worked hard to be 'shovel ready' for the anticipated investment by the government. The Council remains ready to progress the project but the external funding did not eventuate.
- Young people's futures: the opportunities available to them, their health and safety, and engagement in the community. This includes education opportunities and keeping young people in the Shire, as well as promoting local job opportunities.
- A limited local economy which needs to expand, and find new products and activities. This includes enabling business investment and encouraging secondary and tertiary industry, ensuring land is available for future business development, and that major transport routes through the town are appropriate. Improving commercial activity in the town centre and leveraging off that is also a focus.
- A static population and the risk of decline. At some point this raises issues around thresholds for affordable services and long-term viability. Associated with this is the challenge (and opportunities) of an ageing population and what that means for the community and community services.
- The need for continued support for older people being able to remain in the Shire via such things as improved housing and care services choice.
- The risk of reduced levels of volunteering which maintains community activities and, in some cases, emergency response capability. For small rural communities, this network of volunteers is often key to community wellbeing and activity. While volunteering levels are good in the Shire at present, there is a risk of declining volunteering rates particularly as many of the active volunteers are themselves ageing.
- The need to promote Pingelly across a number of fronts and areas of activity with a particular focus on attracting investment and population.
- Protecting built and natural environment quality. This ranges from concern about the potential impacts of climate change to a desire to see more done around waste management.
- The need for more positive engagement with the local Noongar community.

¹ See for example, the Pingelly Age-Friendly Community Plan, March 2017 for further information about issues experienced by older residents.

The Shire's Roles

Local governments operate under Statute but also with some discretion. The primary roles the Council has are outlined below.

Delivery of facilities and services

This includes delivery of facilities such as parks and gardens, roads, footpaths, drainage, waste management, sport and recreation facilities, cultural facilities such as the arts centre and library, events, community grants, support for community groups. Most services are based on infrastructure like parks and playgrounds, roads, footpaths and buildings. Maintenance and renewal of those infrastructure assets is a vital part of Council's service delivery role. Some services are non-asset based, such as events, economic development and community information.

Regulation

Local governments have regulatory responsibilities that are vital for community wellbeing. For example, they have a regulatory and enforcement role in public health (e.g. licensing and monitoring food premises), the appropriateness and safety of new buildings, and the use of land. In many cases the rights of those wishing to operate and the rights of those who may be affected, or consider themselves to be affected, is a delicate balancing act. That is why local democratic processes are involved in deciding such matters.

Facilitation

In some cases, the Shire enables or facilitates services to be provided by others or in partnership with the Shire. This is an important role, given that the Shire has limited resources and the community relies on strong well-functioning networks to achieve access to services.

Influence and advocacy

Influencing the decisions of others who do or can contribute to positive community outcomes in the Shire of Pingelly is also an important role. Advocacy to regional agencies and the Federal and State Governments for recognition, funding, or policy support is a good example of this role. The Shire can also have an advocacy role in statutory processes, such as before the Western Australian Planning Commission, on matters of strong interest to the community.

Civic leadership

Good governance and leadership play a central role in signalling community confidence in its future, attracting people to the Shire and the town, and positioning the community to leverage external funding and investment. With strong leadership and community support, it can achieve much more than just through its own direct service delivery. For example, working with other levels of government and businesses on tourism development is an act of civic leadership, facilitating better outcomes through collaborative planning and action.

STRATEGIC DIRECTION

Our Vision: Growing, Inclusive and Resilient

Our vision lies at the heart of the community's intentions for the Shire's future. Each aspect is interconnected. For example, an inclusive community which pulls together is more likely to be resilient in the face of change, or to encourage people to move to the Shire or invest. This broad statement has some specific aspects:

Growing: To achieve population and economic growth that enables the community we want, including a healthy economy, and the services and quality of life we desire

Inclusive: To be a community designed for all

Resilient: To have a resilient and adaptable community and economy, with an asset base which is fit for purpose, now and for the future

Each aspect shapes more detailed goals, desired outcomes and strategies which are outlined in a later section.

Sitting under our broad vision, is a focus on continuing the momentum we have achieved over the last few years, maintaining the key assets that support our community and setting new priorities for improvement over the next ten years.

This vision also shapes the identification of the strategic priorities which have been identified by the Council for emphasis over the next ten years, and especially over the next four years. These priorities will drive thinking, and action and will be regularly reviewed through the formal Minor and Major Strategic Review processes.

Goals, Outcomes and Strategies

Five goals guide our actions. These are:

Goal 1: Economic

The local economy is strong and resilient, embraces opportunities, and delivers local business growth and jobs.

Goal 2: Community

Quality of life is good, people feel they have a positive future, they enjoy their community, and can live easily in the Shire over their lifetime.

Goal 3: Built Environment

The physical environment is attractive and accessible, and accommodates new residents and businesses, in a way that protects local character and valued places.

Goal 4: Natural Environment

Natural areas and systems are healthy and thriving, and sustainable use is made of natural resources.

Goal 5: Innovation, Leadership and Governance

The Shire of Pingelly is an innovative, responsive partner to its community, an effective advocate, and a trusted steward of community assets. The organisation achieves good practice in all that it undertakes.

Each goal has several desired outcomes and strategies for change and action.

Goal 1: Economy

The local economy is strong and resilient, embraces opportunities, and delivers local business growth and jobs.

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 1.1 | The Shire experiences significant new business growth and employment and is known widely as an innovative and collaborative community which is attracting new population and investment. |
| 1.1.1 | Work with community groups, local business and other partners to explore and leverage opportunities for business development around the PRACC. |
| 1.1.2 | Continue to build relationships with tertiary research institutions (e.g. UWA), local business and other partners which bring collaboration on key projects and support Pingelly's vision for the future. |
| 1.1.3 | Support the development and promotion of key messages for use by the community, the Shire and businesses, to convey Pingelly's economic and community vision, the steps being taken to achieve it, and the benefits of living, working, investing in, or visiting, the area. |
| 1.1.4 | Support business and community tourism promotion initiatives. |
| 1.1.5 | Participate positively in key regional and other networks in a way that builds collaboration and benefit for the community and local economy. |
| 1.2 | A truly working Main Street which symbolises a confident local economy, and results in people spending more locally. |
| 1.2.1 | Encourage the return of a fully active commercial frontage filled with businesses, with retail gaps filled, and the best of friendly, country service. |
| 1.2.2 | Further develop the town centre as an attractive environment which supports business investment, and community and visitor use. |
| 1.2.3 | Encourage local pride and community support for local business. |
| 1.3 | The right resources and infrastructure are in place to support business development, including an increase in visitors and visitor spend in the Shire. |
| 1.3.1 | Support local tourism infrastructure development. |
| 1.3.2 | Advocate for adequate broadband, water and power supply capacity. |
| 1.3.3 | Ensure industrial land is available for new businesses and actively work to achieve take-up of sites. |

Goal 2: Community

Quality of life is good, people feel they have a positive future, they enjoy their community, and can live easily in the Shire over their lifetime.

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 2.1 | Social services and facilities are designed and delivered in a way that fits community needs and aspirations. |
| 2.1.1 | Continue to support the development of and access to core aged care and health services and facilities, e.g. PAAA, Medical Centre. |
| 2.1.2 | Regularly review needs and develop community driven tactics, including advocacy, to secure needed social services, facilities and support (e.g. child care services). |
| 2.1.3 | Explore and promote development of innovative education choices and opportunities in the Shire. |
| 2.2 | Community groups function well with strong volunteer effort and feel supported by the community. |
| 2.2.1 | Publicise and celebrate the contribution of groups and volunteers to the community. |
| 2.2.2 | Support the capacity of clubs and groups to develop. |
| 2.3 | People feel that their community is safe for all, free of nuisance and protected from risk of damage. |
| 2.3.1 | Protect public health and amenity. |
| 2.3.2 | Act to reduce the risk of bush fire, and be prepared in case of bush fire in terms of emergency response and disaster recovery. |
| 2.3.3 | Ensure buildings and structures are safe and provide a healthy living and working environment. |
| 2.3.4 | People and property are protected from flood damage and risk to a specified level. |
| 2.4 | People have access to attractive community facilities, activities and events which support activity and health, community involvement and enjoyment of life. |
| 2.4.1 | Provide a range of community facilities and associated services in a way that maximises use and community activity. |
| 2.4.2 | Continue to develop the PRACC as a focal point for recreation and cultural activities. |
| 2.4.3 | Provide parks and gardens which can be enjoyed by all, including easy to access, good quality and interesting play areas for children, recreation opportunities for young people, and appropriate pathways and seating for older people and those with disability. |

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 2.4.4 | Celebrate key annual national events and support a range of local community events. |
| 2.5 | The young, older people and people with disability feel valued and have access to resources which provide opportunities for their development and enjoyment. |
| 2.5.1 | Enable people, particularly seniors and people with disability, to be able to move easily around the town and to use community facilities. |
| 2.5.2 | Advocate for and facilitate provision of services and resources to address issues experienced by young people and seniors. |

Goal 3: Built Environment

The physical environment is attractive and accessible, and accommodates new residents and businesses, in a way that protects local character and valued places.

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 3.1 | Pingelly is 'housing ready' for new population growth, and has appropriate housing choice available to the community. |
| 3.1.1 | Continue to advocate for and collaborate on housing options for older people (e.g. age appropriate housing) and people with disability which enables them to stay in the Pingelly community during their lives. |
| 3.1.2 | Ensure that town planning provisions enable a range of housing design and solutions, for different household types – e.g. single person households, seasonal workers, families. |
| 3.2 | New development (including commercial) is of a high quality and contributes positively to the character and appearance of the town. |
| 3.2.1 | Encourage new developments to be designed and built in a way that reduces pressure on and demand for resources (e.g. energy efficiency and water conservation), and gives priority to development/ infill of currently zoned land. |
| 3.2.2 | Ensure that new developments are designed for or contribute to public open space and have attractive streetscapes. |
| 3.2.3 | Plan for appropriate location of activities within the Shire, in a way that is consistent with the community's vision for the future. |

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 3.3 | The town of Pingelly has attractive streetscapes with fully integrated footpath and road design, street tree provision and management, street lighting, seating and landscaping. |
| 3.3.1 | Develop a streetscape design, development and management strategy to drive the asset investment and relevant service delivery. |
| 3.3.2 | Provide services to reduce litter and manage verges. |
| 3.4 | It is easy and safe to move around and in and out of the district. |
| 3.4.1 | Provision of a road network with service levels that meet the needs of industry and residents. |
| 3.4.2 | Maintain and develop the footpath network according to the direction set out by the Shire's streetscape strategy. |
| 3.4.3 | Provide street lighting at a level which facilitates vehicle and pedestrian safety, and confidence to access facilities and events at night. |
| 3.5 | An alternative truck route which avoids the town's Main Street is in place. |
| 3.5.1 | Explore further alternative truck route design and advocate for provision as required. |
| 3.6 | The Shire's heritage structures, heritage and cultural places are valued and protected, and are integrated into community life and economic activity. |
| 3.6.1 | Continue to list valued heritage sites and encourage restoration and maintenance of the Shire's built heritage. |

Goal 4: Natural Environment

Natural areas and systems are healthy and thriving, and sustainable use is made of natural resources.

| ITEM | OUTCOMES AND STRATEGIES |
|-------|--|
| 4.1 | Maximised resource recovery from waste and safe disposal of residual waste. |
| 4.1.1 | Provide people with the ability to reduce their waste and deal with residual waste appropriately. |
| 4.1.2 | Ensure the Shire's waste disposal facilities can appropriately handle all solid and liquid waste. |
| 4.2 | Water conservation and water harvesting opportunities are actively pursued. |
| 4.2.1 | Invest in water harvesting (including extension of the relevant parts of the drainage system) for use on the oval. |
| 4.2.2 | Provide water conservation information to the community. |
| 4.3 | The Shire's valued natural areas and systems are protected and enhanced. |
| 4.3.1 | Support or directly undertake targeted environmental projects where external funding is available and/or opportunities for community partnerships exist. |
| 4.3.2 | Ensure proper land management practices are observed which result in protection and care of the natural environment. |
| 4.3.3 | Undertake relevant Shire services in a way that has regard for protection of bush and habitat. |
| 4.3.4 | Use, wherever possible, locally sourced seed and plants. |
| 4.4 | Energy is used efficiently and there is an increased use of renewable energy in the Shire. |
| 4.4.1 | Continued inclusion of energy efficient design and systems, and solar energy systems in Council buildings and other key facilities. |

Goal 5: Innovation, Leadership and Governance

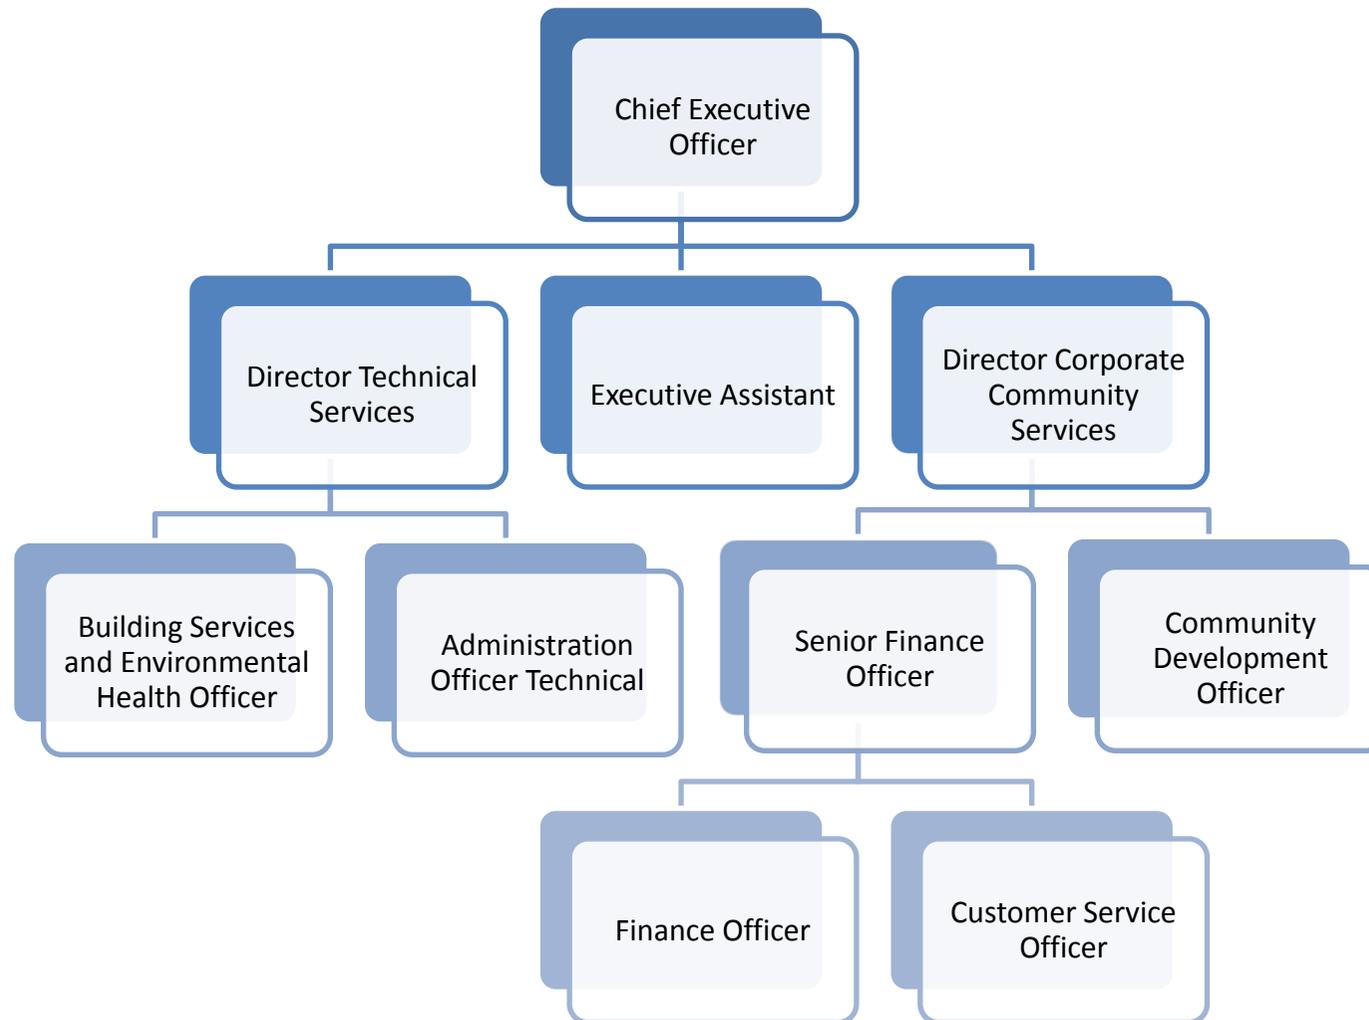

The Shire of Pingelly is an innovative, responsive partner to its community, an effective advocate, and a trusted steward of community assets. The organisation achieves good practice in all that it undertakes.

| ITEM | OUTCOMES AND STRATEGIES |
|-------|---|
| 5.1 | The Aboriginal community and the Shire see each other as genuine partners for change and progress. |
| 5.1.1 | Completion of the Reconciliation Action Plan. |
| 5.2 | The Shire's community feels community involvement and engagement is working well. |
| 5.2.1 | The community is provided with opportunities to engage on strategic, corporate, asset and financial plans, and other major plans and issues. |
| 5.2.2 | Continue to develop the successful Pingelly community involvement model, including in the design and development of key community facilities and initiatives. |
| 5.2.3 | Ensure that there is good communication between the Shire of Pingelly and the community via a range of methods. |
| 5.3 | The Shire (Council with the community) is a successful advocate for resources and facilities which support the vision for the future. |
| 5.3.1 | <p>The Council and community continue to work together to advocate for change, targeted to the following areas:</p> <ul style="list-style-type: none"> ▪ support for aged care services, and services and activities for young people ▪ adequate housing for the population ▪ innovative local education opportunities ▪ an alternative truck route ▪ energy, water and broadband capacity ▪ resources which will assist in the development of the local economy, creation of local businesses and jobs, and attraction of population and visitors ▪ maintenance, renewal and development of key infrastructure and community facilities |
| 5.4 | The Shire of Pingelly is known to be an inclusive employer, and has the capacity and skills to deliver identified services and strategies over time. |
| 5.4.1 | Manage the Council workforce to provide for employee development and health and safety, and to allow the Shire to deploy resources to fit strategic direction. |
| 5.4.2 | An active approach to Shire workforce planning, including promotion of workforce diversity. |

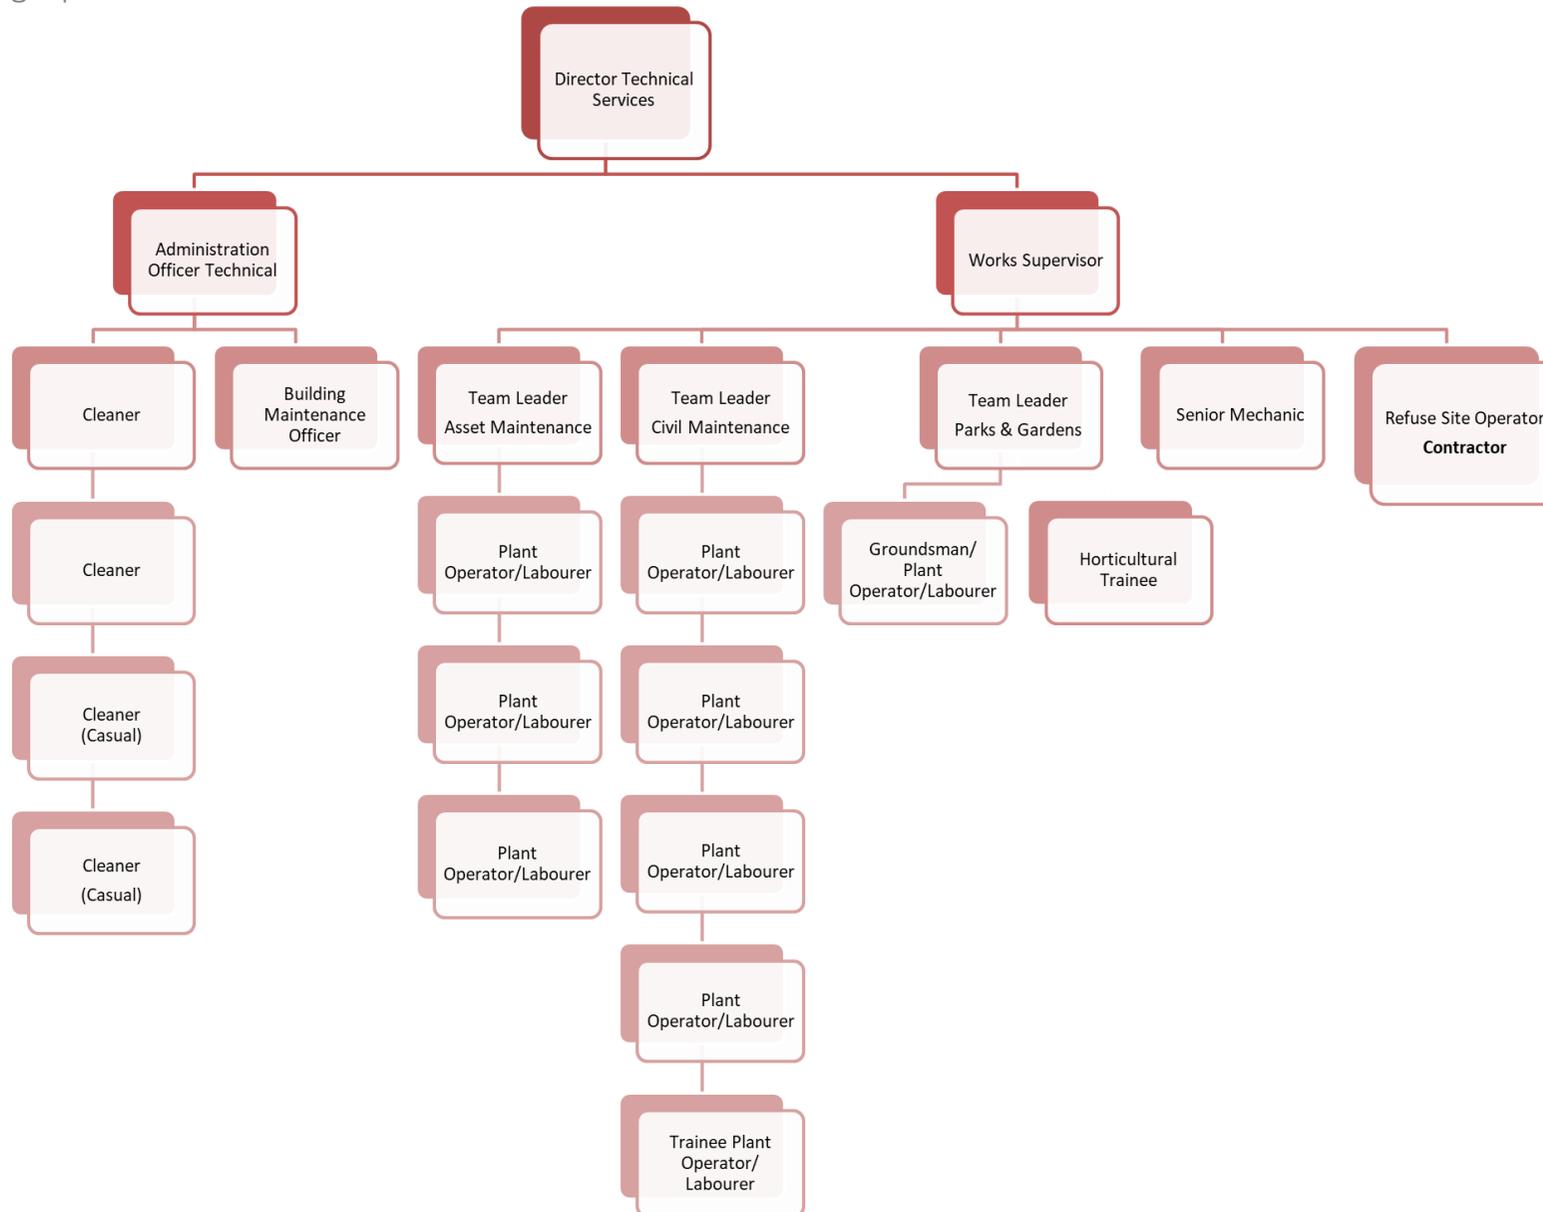

| ITEM | OUTCOMES AND STRATEGIES |
|-------|---|
| 5.5 | The value of community owned assets is maintained. |
| 5.5.1 | Assets renewals and upgrades are funded to the level required to maintain asset value and agreed service levels. |
| 5.5.2 | Projects are well-planned and delivered on time and on budget, with effective and thorough risk management and reporting. |
| 5.6 | Financial systems are effectively managed. |
| 5.6.1 | Financial management and reporting systems are able to deliver on all administrative and management functions (including reporting), and long-term financial planning requirements. |
| 5.7 | Customer service and other corporate systems are of a high quality and effective. |
| 5.7.1 | The Shire strives for a best practice in its customer service, including governance support, and continually seeks ways to improve delivery where needed. |
| 5.7.2 | Probity, risk management and associated reporting systems, and underpinning corporate IT systems are effective and efficient. |

Current Organisation Structure

Executive and Administration Team

Engineering Operations Team

FOUR YEAR DELIVERY PROGRAM

The following table shows the years when major budgeted capital works and operating projects are expected to be implemented. Some of the larger works will require lead in investigation and design work to be completed prior to construction. Should these projects not proceed in the identified year, budgets for the following years will be reviewed to maintain an achievable schedule overall. This will be done under the IPR review cycle, or via the Annual Budget process, depending on when the review cycles fall.

Committed projects are shown in green and projects that Council supports but are subject to external funding being obtained before they can proceed are shown in orange.

The Shire will undertake due diligence on all major capital and operational projects prior to any final decision to proceed. This will be done in order to ensure they are financially sustainable, viable and affordable (including whole of life costs) for Council and the community.

Further on, the tables on pages 25 to 43 set out the detailed services the Shire will deliver over the next four years as the Council's contribution to the community's objectives as set out in the Strategic Community Plan. The tables identify each service and the links to relevant outcomes and strategies, the current level of service, whether or not the level of service will change over the four-year period of the Corporate Business Plan and, if so, the changes proposed.

Timeline for Significant Capital and Operating Projects

Key: Fully committed and budgeted project/program. Subject to grant and/or community contribution, or full feasibility review – timing highly uncertain

| MAJOR PROJECTS | 2019/20 | 2020/21 | 2021/22 | 2022/23 | Funding Provision | | | | | |

| Records Archiving | | | 54.0 | | | | | | | |

³ Planning is well advanced. This project is shown in 2022/23 however it is subject to grant funding and would be scheduled in the appropriate year if grant funding was obtained. Costings have yet to be determined.

Four Year Delivery Program: Service Standards

| Service name | Strategic Links Outcomes | Description of service | Current Level of Service | Change over 4 Years | Level of Service change over 4 years |
|--|--|--|--|---------------------|--|
| Goal 1: The local economy is strong and resilient, embraces opportunities, and delivers local business growth and jobs. | | | | | |
| Local Economic Development | 1.1 The Shire experiences significant new business growth and employment and is known widely as an innovative and collaborative community which is attracting new population and investment. | Broker and support projects which will be catalysts for further economic growth. Work with the local business community and other stakeholders on business development, capacity building, diversification activities, and reducing leaks from the local economy to encourage increased economic activity. Support for groups actively engaged in economic development and tourism development activity. | Support for development of networks, advocacy for external project funding for key initiatives, insurance and funding projects of the Pingelly Development Association as agreed. Work with UWA Future Farm research focus on sustainable food production to 2050. | Increase | Significant focus on PRACC to leverage business growth opportunities. Increased focus on working with the local business community and other stakeholders to collaborate on economic development strategies. |
| Main Street | 1.2 A truly working Main Street which symbolises a confident local economy, and results in people spending more locally. | Projects focused on the development of key areas which combine economic and business development initiatives with physical improvements and design. May involve physical investment and/ or facilitation of community/ business initiatives. | Focus on a range of initiatives from physical upgrade to encouraging business development for Main Street commercial revitalisation to reduce leakage and encourage visitor spend. | Increase | Increased focus targeted to encouragement and facilitation of commercial activity on the Main Street. Possible collaboration with the Wheatbelt Business Network. |
| Shire Branding and Promotion | 1.3 The right resources and infrastructure are in place to support business development, including an increase in visitors and visitor spend in the Shire. | Project based support for the development and delivery of messages about the Shire designed to promote population and economic growth generally. Note: linked but not confined to tourism and visitor promotion. | Project based development of messages and material in conjunction with key groups, to be used for Shire promotion. Liaison with groups to deliver key messages and initiatives. On-going support for tourism information in relevant publications. | Increase | While the desire to increase activity in this area is identified it is subject to funding being identified. |

| Service name | Strategic Links Outcomes | Description of service | Current Level of Service | Change over 4 Years | Level of Service change over 4 years |
|--|--|--|---|---------------------|--------------------------------------|
| Goal 1: The local economy is strong and resilient, embraces opportunities, and delivers local business growth and jobs. | | | | | |
| Tourism Support | 1.3 The right resources and infrastructure are in place to support business development, including an increase in visitors and visitor spend in the Shire. | Provision of infrastructure designed to support tourism in the Shire. Support for the Pingelly Development Association and through it, the Pingelly Tourism Group, (an incorporated committee). Participation in regional tourism marketing. | Provide for RV and other travellers: 2 dump facilities. Support for Community Craft Centre which is a tourism hub (caravan park booking agent). | Licensing | 5.7 Customer service and other corporate systems are effective and of a high quality. | As an on-line Licensing Agency provide a full range of licensing services. Vehicle registrations, renewals, and transfers; change of plates and special plates; driver's license theory tests; renewal of and boat licences; issue of replacement drivers and motor vehicle licences. | Licensing services provided at Shire offices Monday to Friday, between 8.30am and 4pm. | Maintain | |

Financial Implications

The level of capital development undertaken by the Council over the last five years was substantial. It has been a major undertaking by a small Shire, but it has been achieved with substantial support from the community and significant funding through a combination of Federal and State grants, loans and cash from the local government. Over the period of development Shire funds were invested in the new facilities and that meant that some other works or projects were required to be scaled back or delayed. Now that the projects have been completed or are nearing completion this plan provides for a rebalancing of resource allocation and some catch-up of activities that were scaled back. The next few years the focus is on consolidation and leveraging the greatest possible return, both economically and socially from the investments made.

This plan provides for the strategies identified in the Strategic Community Plan to be implemented in a manner that is financially sustainable, minimising as far as possible the financial impost on the local community while improving the financial position of the Shire over time.

The fully costed four-year budgets incorporated in this Corporate Business Plan and the ten-year budgets for the Long Term Financial Plan shows that while the next four years will be tight requiring strong financial management and careful prioritisation, over the long term the Council will be able to invest in maintenance and renewals of infrastructure and facilities at the appropriate level and continue to provide key local services whilst remaining affordable for ratepayers.

Bearing in mind the financial constraints, the following approach is being adopted:

Prioritisation

Complete the necessary works associated with the PRACC. Plan for the next stage of the Pingelly Age Appropriate Accommodation development.

Investing heavily in the roads and bridges infrastructure of the Shire utilising substantial grants from the State and Federal Governments. The program over the next two years will also see a new footpath/cycle way linking the school to the PRACC.

Generally maintain service levels with targeted increases in limited areas particularly where this can be achieved without significant cost increases.

Improve asset management by continuing the process of establishing robust true maintenance costs and optimising the scale and timing of asset replacement and renewal.

Partnerships

Build on the successful Pingelly partnerships approach with the community to achieve more through the pooling of resources and alignment of effort towards common goals.

Revenue

Be “grant ready” by developing plans and business cases for priority projects and programs. Explore ways to generate revenue to reduce the reliance on rates and grants.

Increase rates above the rate of inflation for a period of time to enable financial repositioning to a sustainable footing.

Asset Management Implications

Asset Management Plans (AMP(s)) are intended to provide the Council with robust information about the nature, age, condition and anticipated future life of each asset class, built from information about each asset. They set out standards, both technical and the quality of service users would receive. This includes standards for asset capacity (e.g. size of pipes and culverts), through to response times for fixing potholes. They also identify what is needed for planned and reactive maintenance, and the timing of renewals, along with associated budgets. This technical and financial information provides an important building block in establishing long term affordability and timing for expenditure for wider Council budgets.

Asset management planning is a complex process and generally Councils go through a process of building from basic, to intermediate and advanced asset plans, with smaller Councils focusing on establishing basic plans and moving to intermediate quality plans over time.

The Shire of Pingelly is responsible for the following asset classes:

- Roads
- Paths
- Bridges
- Property
- Drainage
- Public Open Space
- Waste

Asset Management Plans (AMPs) have been prepared for four of these asset classes (roads, paths, property and public open space).

Asset Management Plans

In 2014/15, a review of the current state of the Shire's asset management planning and Asset Management Plans was undertaken. They were assessed as requiring further work to fully link the creation, maintenance and renewal of the assets to agreed levels of service. This in turn was highly dependent on knowledge of what was owned, the current condition and asset value. The quality of data was assessed as limited.

Long term infrastructure asset demand had yet to be fully projected although the most advanced AMP for roads estimated that 60% of sealed roads and 40% of unsealed roads in the Shire were in good condition. A 2013 assessment indicated that the Shire was not replacing or renewing its assets until well beyond their useful lives, whilst the ACR and ARFR were within normal limits. There were concerns about the level of confidence that could be placed in this assessment, given the level of

understanding of asset condition and age. The 2013 assessment identified a 10 year funding gap of \$7.7million on roads, paths and property. Significant investment in roads and recreation facilities was made during the life of the 2013-2017 Corporate Business Plan. Further work is required to assess the funding gap with a degree of confidence.

Asset Management Planning Improvement.

Improvement of asset knowledge continues to be a priority. This involves developing and managing a database for all assets and their components that captures the essential data and processes necessary to:

- assess the current condition and status of the portfolio and to develop real strategies to provide assets that meets the future requirements of the Shire;
- calculate reliable Asset Sustainability, Consumption and Funding Ratios and measure other performance criteria;
- calculate reliable assessments of asset renewal and replacement funding shortfalls/surpluses, show why those gaps exist, and enable the development of strategies and plans to manage them and direct the most efficient use of capital; and
- link with the Shire's Financial Asset Register.

Workforce Implications

The Shire will complete a Workforce Plan during 2019/20. This Corporate Business Plan has been prepared on the basis of no changes to the staff establishment. All positions have been funded for the four year period.

The Shire of Pingelly has the following Human Resources Policies and Management Practices/ Guidelines in force.

- Recruitment and Termination
- Performance Management
- Employee Entitlements
- Employee Workplace Relations
- Occupational Safety and Health
- HR – other
- Industrial Representation Policy
- Senior Staff Designation and Appointment
- Corporate Uniform – Administration Staff
- Protective Clothing – Outside Staff

- Employer Contributions to Superannuation
- Shire Housing – Water Usage
- Gratuity Payments to Employees
- Rostered Days Off
- Staff Leave
- Injury Management and Rehabilitation
- Noise
- Health, Safety and Environment Policy
- Training and Development
- Chief Executive Officer Annual Performance Review
- Senior Staff Annual Performance Review
- Staff Housing
- Governance Framework, includes Code of Conduct / Ethics Policy

| Environmental | Disasters i.e. bushfire/flood/ storm | <ul style="list-style-type: none"> ▪ Local Emergency Management Risk Mitigation, Planning, Response and Recovery Arrangements |

How Will We Know If the Plan Is Succeeding?

The table below shows the indicators that will be used to monitor performance and contribution towards achieving the Shire of Pingelly's strategic objectives. The Corporate Business Plan clearly outlines the priorities, responsibility and resourcing required to achieve this. These will be used as the basis for reporting by the Administration to the Council, and by the Council to the community.

Corporate Business Plan Performance Indicators

| INDICATORS | SOURCE | 2016/17 BASELINE | 2020/21 TARGETS |
|--|--------------------------------|--|--|
| Community satisfaction with service levels | | | |
| <ul style="list-style-type: none"> ■ Reported satisfaction with selected areas (good or better) <ul style="list-style-type: none"> - economic development - rural roads - medical services - overall Shire performance - drainage - community engagement processes | Residents' Satisfaction Survey | 44% 52% 70% 71% 58% | A baseline for setting targets will be established in the next community survey in February 2018 |
| Community facilities usage/events attended | | | |
| <ul style="list-style-type: none"> ■ Numbers using community facilities ■ Numbers attending Council sponsored/ run events | Shire usage data | Establish baseline Establish baseline | Establish target Establish target |

| Delivery of Key Projects | | | |
| <ul style="list-style-type: none"> ■ Delivery of the major capex projects (see page 23)⁴ on time, on budget and to required quality. ■ Delivery of major opex projects (see page 24). | | | |

⁴ The table on page 23 identifies the major projects that the Shire wishes to see progressed over the next four years.

Attachment 5

Local Government MoU

This Memorandum of Understanding is made on the [date] day of [month] [year].

Parties to the Agreement

Shire of Beverley,
Shire of Brookton
Shire of Corrigin
Shire of Cuballing,
Shire of Dumbleyung,
Shire of Kulin,
Shire of Lake Grace,
Shire of Narrogin,
Shire of Pingelly,
Shire of Quairading,
Shire of Wagin,
Shire of Wandering,
Shire of West Arthur,
Shire of Wickepin,
Shire of Williams

Hereinafter called the 'partnering LGs' 'parties' or 'partners'

Aim

This Memorandum of Understanding (MOU) sets out a basic framework for cooperation between the Local Governments named, to promote cooperation in a disaster event which affects one or more of the partnering LGs.

The guiding principle of this MOU is that any support given to a partnering LG in a particular emergency event shall be voluntary and of a level that will not unduly compromise the operability of the partnering LG providing the support.

Purpose

To facilitate the provision of mutual aid between partnering LGs during emergencies and post incident recovery.

To enhance the capacity of our communities to cope in times of difficulty.

To demonstrate the capacity and willingness of participating LGs to work co-operatively and share resources within the region.

Partnering Objectives

Partners to this MOU, in times of community distress due to an emergency incident, agree where possible to:

1. Provide whatever resources may reasonably be available within the capacity of that LG to respond to the emergency incident if requested;
2. Provide at its absolute discretion, whatever resources may be available within the means of that LG to assist with post incident recovery in the community.

Allocation of Resources

1. This MOU acknowledges that the allocation of a partnering LG's personnel and plant resources is an operational issue, and as such is the responsibility of the CEO of the LG seeking to offer aid.
2. This MOU seeks to demonstrate that the CEO's commitment to supporting other LGs in need is supported by the Elected Members of each participating Council.

Responsibilities

The partners to this MOU recognise their responsibilities to have adequate arrangements in place in order to be in a position to respond to non-natural and natural disasters.

This MOU recognises that each LG will have its own LEMPs in place in accordance with the *Emergency Management Act 2005*. However, the intention of this MOU is to improve the efficiency of joint response to a disaster, share experiences, enhance cooperation between partnering LGs and improve regional resilience to disaster events.

The parties acknowledge that the provisions of this document are not intended to create binding legal obligations between them.

The parties acknowledge that:

1. nothing in this document authorises a party to incur costs or expenses on behalf of the other party; and
2. a party has no authority to act for, or to create or assume any responsibility obligation or liability on behalf of, the other party.

Partnering Expectations

1. To provide where possible both physical and human resources to assist with the immediate response and recovery. Ongoing protracted assistance may be needed, this

may be subject to further negotiation and agreement in writing between the partners concerned.

2. Where possible, and if appropriate, the affected LG must utilise internal resources and local contractors before requesting assistance from another LG. This will ensure LGs are not seen to be competing with local businesses or offers of assistance.
3. All requests for support will be made through the Incident Controller (IC) of the designated Hazard Management Agency (HMA) for the incident, in consultation with the designated Local Recovery Coordinator (LRC) and the Local Emergency Coordinator (LEC).
4. All equipment provided must be covered by the partners own insurance, each LG is responsible for ensuring insurance policies allow for the provision of mutual aid.
5. Each individual Council will be responsible for continued salary and any workers compensation insurance for their own staff regardless of where they are operating during the disaster event.
6. Each LG will be responsible for any loss, damage or cost associated with the provision of support unless otherwise agreed in writing.
7. The LG requesting support will be responsible for all incidental costs associated with the provider's personnel and equipment such as catering, accommodation, OHS issues, transport, fuel and storage.

Cost Recovery

The West Australian National Disaster Relief and Recovery Arrangement (WANDRRA) guidelines provide for the reimbursement of expenditure incurred by partnering LGs during a disaster event. Each partnering LG is responsible for maintaining an accurate record of its expenditure during an event.

In the event the emergency is declared a Disaster, State and Commonwealth funding assistance will be sought in compliance with relevant State and Commonwealth Policies.

The affected partnering LG area will claim these costs accordingly under the WANDRRA guidelines.

In the event a partnering LG's resources and/or equipment are required to assist another partnering LG, these costs would not be claimable via WANDRRA. Therefore, any intended claim for reimbursement is a matter between partnering LGs.

Duration and Amendment

The MOU will come into effect at the date which all parties have signed the agreement.

This MOU can be reviewed at any time but cannot be amended except with the written consent of all partners.

Term

Unless mutually extended, terminated or parties withdraw, this MOU will expire on [date to be inserted].

Withdrawal

Any partner may withdraw from this MOU by giving 90 days written notice to the partnering LG's and the State Emergency Management Committee.

Notices

Communications in relation to this MOU should be addressed to:

The Executive Officer, Central Country Zone of WALGA,

SHIRE OF PINGELLY
FOR THE PERIOD 1 JULY 2019 TO 31 AUGUST 2019
Report on Significant variances Greater than 10% and \$5,000

Purpose

The purpose of the Monthly Variance Report is to highlight circumstances where there is a major variance from the YTD Monthly Budget and YTD Actual figures. These variances can occur because of a change in timing of the activity, circumstances change (e.g. a grants were budgeted for but was not received) or changes to the original budget projections. The Report is designed to highlight these issues and explain the reason for the variance.

REPORTABLE OPERATING REVENUE VARIATIONS

| | | |
|---|----------|----------|
| Governance - variance below budget expectations | | 11,369 |
| Lighthouse Project Grant not budgeted for YTD Actual higher than YTD Budget. | 9,000 | |
| General Purpose Funding - variance below budget expectations | | (25,327) |
| Movement in Excess Rates - YTD Budget nil compared to YTD Actual (Permanent Difference) EOY adj | (26,037) | |
| Economic Services - variance below budget expectations | | 20,187 |
| Other Income YTD Budget Higher than YTD Actual (Timing Difference) | 21,020 | |
| WANDRAA Funding Storm Damage - YTD Actual less than YTD Budget (Timing Difference) | (44,668) | |

REPORTABLE OPERATING EXPENSE VARIATIONS

| Total Rates | | | | | | | 2,067,182 | 2,084,538 |

All land except exempt land in the Shire of Pingelly is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire.

The general rates detailed above for the 2018/19 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also bearing considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services/facilities.

NOTES TO AND FORMING PART OF THE STATEMENT OF FINANCIAL ACTIVITY

FOR THE PERIOD 1 JULY 2019 TO 31 AUGUST 2019

10. FINANCIAL RATIOS

| | 2019 YTD | 2018 | 2017 | 2016 |
|-------------------------|---------------------|-------------|-------------|-------------|
| Current Ratio | 1.17 | 0.53 | 2.03 | 1.05 |
| Operating Surplus Ratio | 0.68 | (0.72) | (0.60) | (0.72) |

The above ratios are calculated as follows:

Current Ratio
$$\frac{\text{(Current Assets MINUS Restricted Assets)}}{\text{(Current Liabilities MINUS Liabilities Associated with Restricted Assets)}}$$

Purpose:

This is a modified commercial ratio designed to focus on the liquidity position of a local government that has arisen from past year's transactions.

Standards:

The standard is not met if the ratio is lower than 1:1 (less than 100%)

| |
|-----------|
| Below Std |
| Std met |

The standard is met if the ratio is greater than 1:1 (100% or greater)

A ratio less than 1:1 means that a local government does not have sufficient assets that can be quickly converted into cash to meet its immediate cash commitments.

This may arise from a budget deficit from the past year, a Council decision to operate an overdraft or a decision to fund leave entitlements from next year's revenues.

NB: Ratio is currently affected by \$1.2M Short Term Borrowing recorded as a current liability.

Adjusted Current Ratio adjusting for this figure is: ** 3.36

Operating Surplus Ratio
$$\frac{\text{(Operating Revenue MINUS Operating Expense)}}{\text{(Own Source Operating Revenue)}}$$

Purpose:

This ratio is a measure of a local government's ability to cover its operational costs and have revenues available for capital funding or other purposes.

Standards:

Basic Standard is not met less than < 1% (< 0.01)

Basic Standard between 1% and 15% (0.01 and 0.15)

Advanced Standard greater than > 15% (>0.15).
